How to Draw Measuring Spoon — Free Practice Sheets

ANSWER / CASE 1

measuring spoon: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

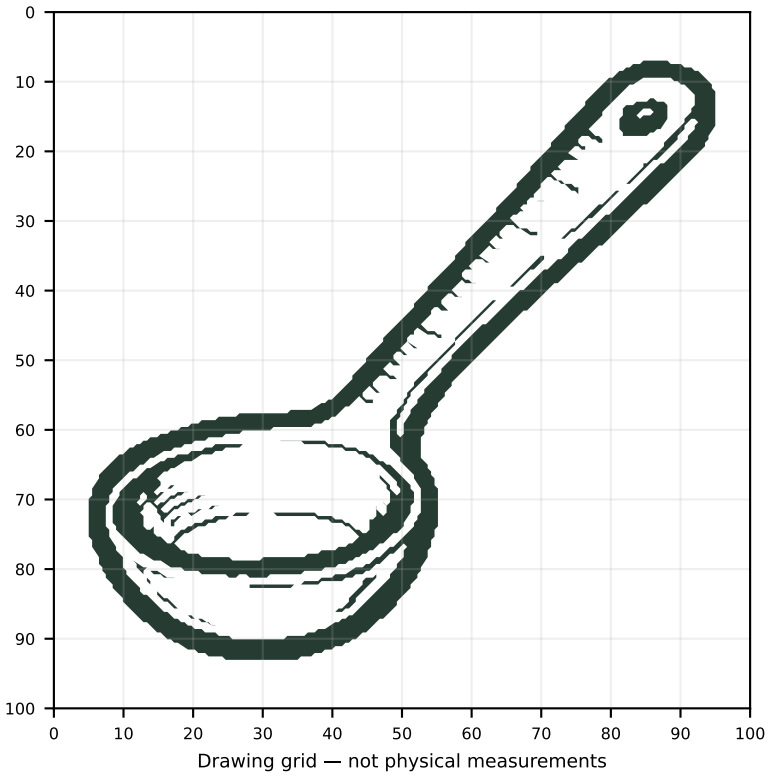

ANSWER: Example solution: preserve rounded bowl at the lower left, long handle extending diagonally upward to the right, capacity markings (graduation lines) along the handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the rounded bowl as an oval with a curved inner rim line to suggest depth.
2. Extend a long, slightly tapered handle diagonally upward from the bowl.
3. Add short graduation marks along the handle to indicate capacity.
4. Draw a small hole near the rounded end of the handle and outline the bowl with a thicker contour.

How to Draw Measuring Spoon — Free Practice Sheets

ANSWER / CASE 2

measuring spoon: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

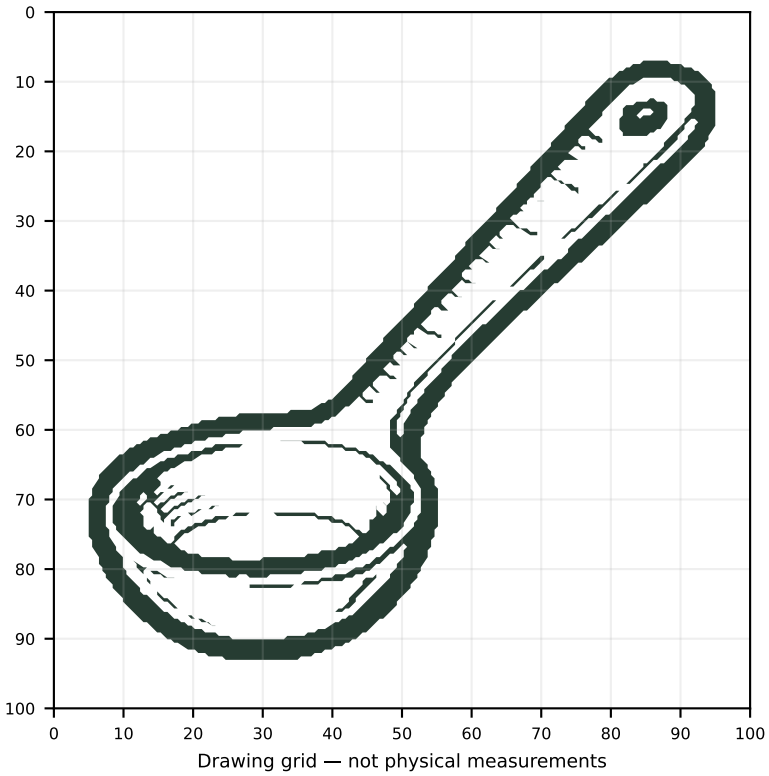

ANSWER: Example solution: preserve rounded bowl at the lower left, long handle extending diagonally upward to the right, capacity markings (graduation lines) along the handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the rounded bowl as an oval with a curved inner rim line to suggest depth.
2. Extend a long, slightly tapered handle diagonally upward from the bowl.
3. Add short graduation marks along the handle to indicate capacity.
4. Draw a small hole near the rounded end of the handle and outline the bowl with a thicker contour.

How to Draw Measuring Spoon — Free Practice Sheets

ANSWER / CASE 3

measuring spoon: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

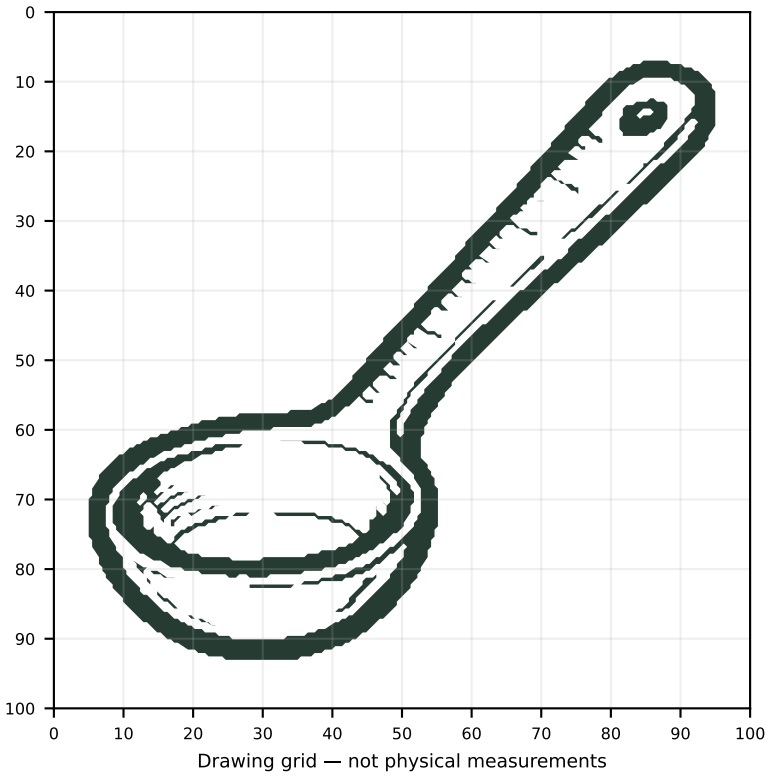

ANSWER: Example solution: preserve rounded bowl at the lower left, long handle extending diagonally upward to the right, capacity markings (graduation lines) along the handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the rounded bowl as an oval with a curved inner rim line to suggest depth.
2. Extend a long, slightly tapered handle diagonally upward from the bowl.
3. Add short graduation marks along the handle to indicate capacity.
4. Draw a small hole near the rounded end of the handle and outline the bowl with a thicker contour.

How to Draw Measuring Spoon — Free Practice Sheets

ANSWER / CASE 4

measuring spoon: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve rounded bowl at the lower left, long handle extending diagonally upward to the right, capacity markings (graduation lines) along the handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the rounded bowl as an oval with a curved inner rim line to suggest depth.
2. Extend a long, slightly tapered handle diagonally upward from the bowl.
3. Add short graduation marks along the handle to indicate capacity.
4. Draw a small hole near the rounded end of the handle and outline the bowl with a thicker contour.
