How to Draw Swing — Free Practice Sheets

ANSWER / CASE 1

swing: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

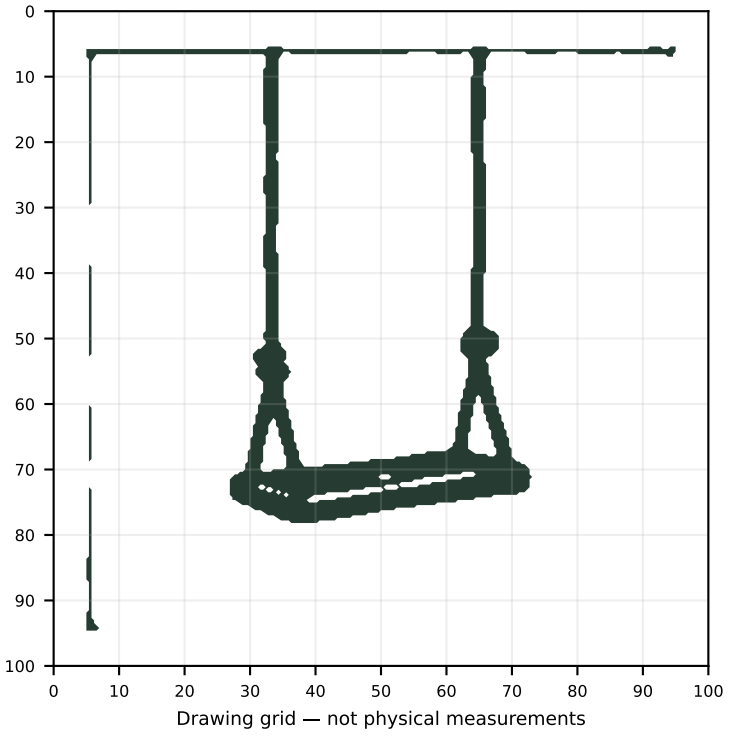

ANSWER: Example solution: preserve two vertical hanging ropes with knots, flat rectangular seat, V-shaped rope attachment at each side of the seat. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two long vertical lines for the hanging ropes, adding small knot shapes near the lower ends.
2. Sketch a flat rectangular seat in perspective, wider than it is deep.
3. Connect each rope to the seat with two short diagonal lines forming a V on each side.
4. Outline the seat thickness and add a small highlight line along the front edge.

How to Draw Swing — Free Practice Sheets

ANSWER / CASE 2

swing: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

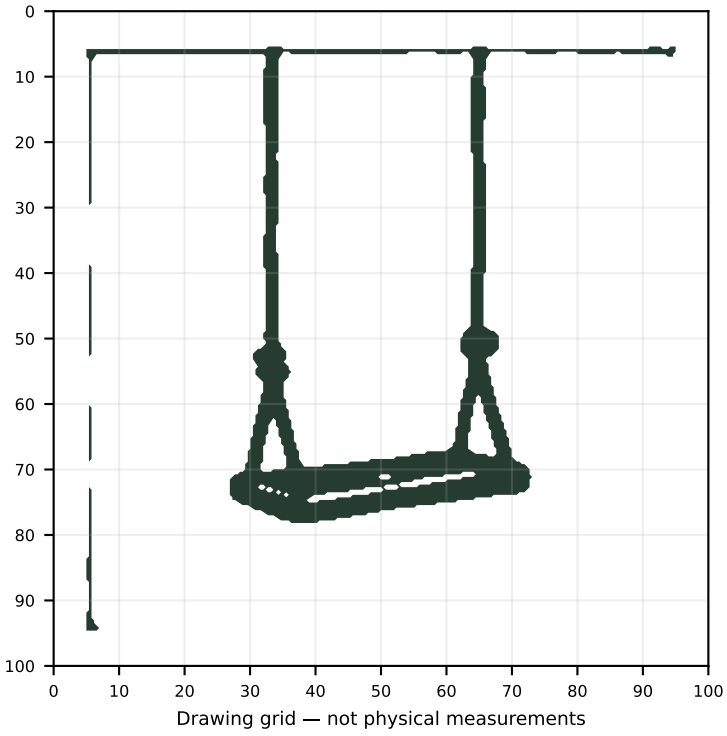

ANSWER: Example solution: preserve two vertical hanging ropes with knots, flat rectangular seat, V-shaped rope attachment at each side of the seat. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two long vertical lines for the hanging ropes, adding small knot shapes near the lower ends.
2. Sketch a flat rectangular seat in perspective, wider than it is deep.
3. Connect each rope to the seat with two short diagonal lines forming a V on each side.
4. Outline the seat thickness and add a small highlight line along the front edge.

ANSWER / CASE 3

swing: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

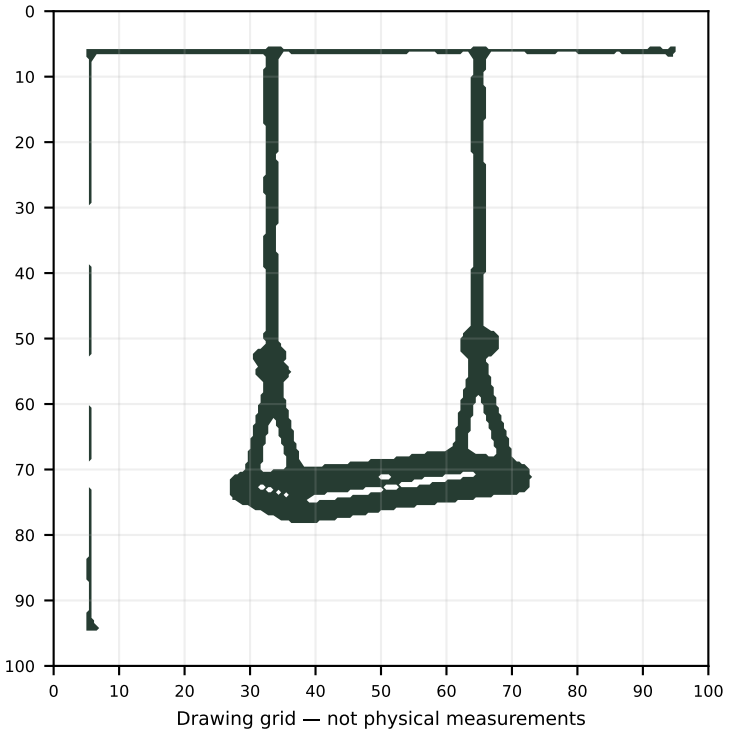

ANSWER: Example solution: preserve two vertical hanging ropes with knots, flat rectangular seat, V-shaped rope attachment at each side of the seat. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two long vertical lines for the hanging ropes, adding small knot shapes near the lower ends.
2. Sketch a flat rectangular seat in perspective, wider than it is deep.
3. Connect each rope to the seat with two short diagonal lines forming a V on each side.
4. Outline the seat thickness and add a small highlight line along the front edge.

How to Draw Swing — Free Practice Sheets

ANSWER / CASE 4

swing: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve two vertical hanging ropes with knots, flat rectangular seat, V-shaped rope attachment at each side of the seat. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two long vertical lines for the hanging ropes, adding small knot shapes near the lower ends.
2. Sketch a flat rectangular seat in perspective, wider than it is deep.
3. Connect each rope to the seat with two short diagonal lines forming a V on each side.
4. Outline the seat thickness and add a small highlight line along the front edge.
