How to Draw Windshield — Free Practice Sheets

REFERENCE / CASE 1

windshield: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

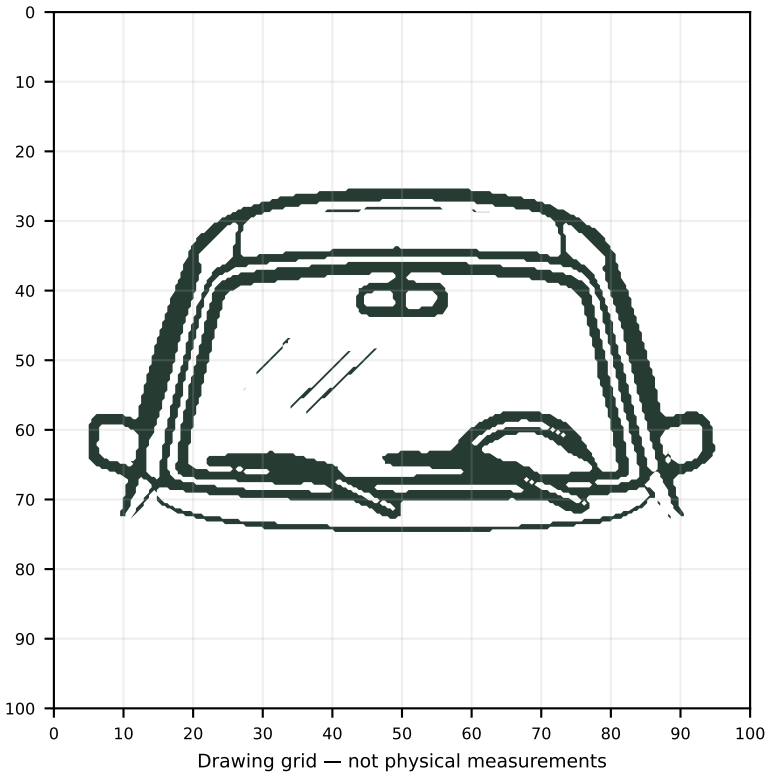

METHOD: Draw a wide rounded rectangle for the outer windshield frame, slightly wider at the bottom. Inside the frame, draw a second parallel line to create the thick border around the glass panel. Add a small rounded rectangle at the top center of the glass for the rearview mirror. Draw two angled wiper blades along the lower portion of the glass, overlapping slightly, and add small side mirror shapes at the outer edges.
Use the separate practice sheet before checking the answer.

How to Draw Windshield — Free Practice Sheets

REFERENCE / CASE 2

windshield: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

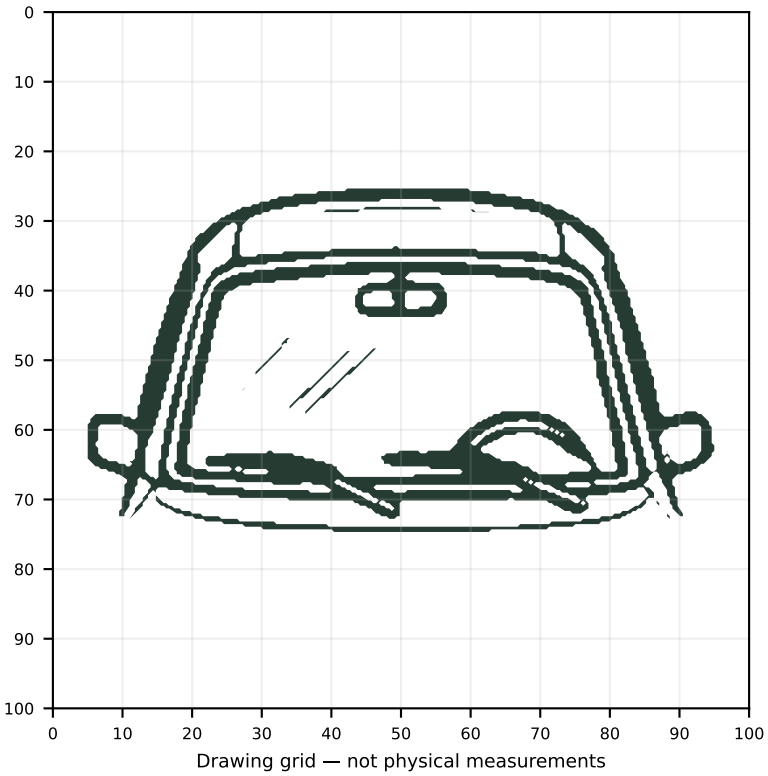

METHOD: Draw a wide rounded rectangle for the outer windshield frame, slightly wider at the bottom. Inside the frame, draw a second parallel line to create the thick border around the glass panel. Add a small rounded rectangle at the top center of the glass for the rearview mirror. Draw two angled wiper blades along the lower portion of the glass, overlapping slightly, and add small side mirror shapes at the outer edges.
Use the separate practice sheet before checking the answer.

How to Draw Windshield — Free Practice Sheets

REFERENCE / CASE 3

windshield: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

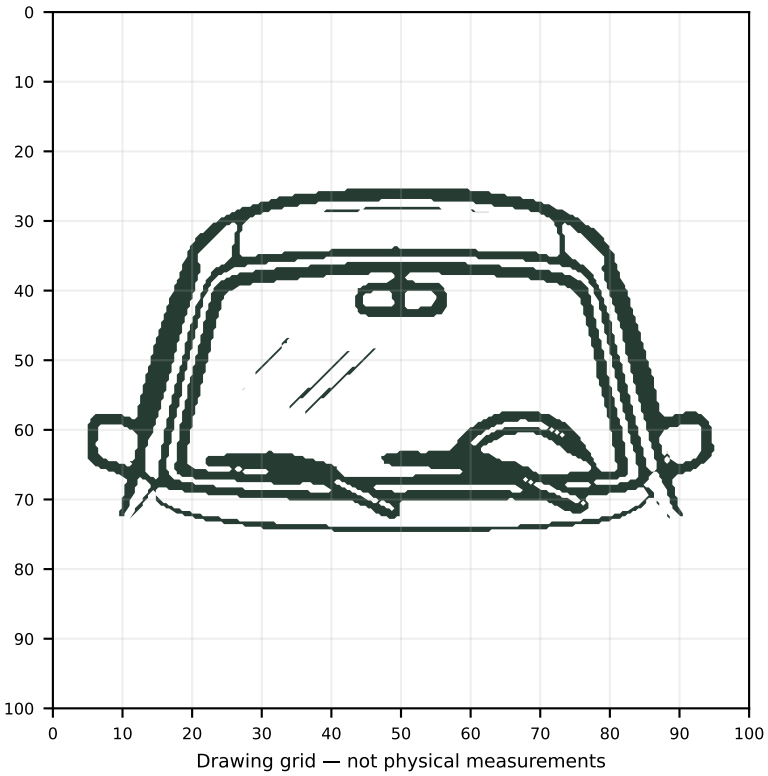

METHOD: Draw a wide rounded rectangle for the outer windshield frame, slightly wider at the bottom. Inside the frame, draw a second parallel line to create the thick border around the glass panel. Add a small rounded rectangle at the top center of the glass for the rearview mirror. Draw two angled wiper blades along the lower portion of the glass, overlapping slightly, and add small side mirror shapes at the outer edges.
Use the separate practice sheet before checking the answer.

How to Draw Windshield — Free Practice Sheets

REFERENCE / CASE 4

windshield: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a wide rounded rectangle for the outer windshield frame, slightly wider at the bottom. Inside the frame, draw a second parallel line to create the thick border around the glass panel. Add a small rounded rectangle at the top center of the glass for the rearview mirror. Draw two angled wiper blades along the lower portion of the glass, overlapping slightly, and add small side mirror shapes at the outer edges.
Use the separate practice sheet before checking the answer.
