# How to Draw Boot — Free Practice Sheets

### ANSWER / CASE 1

boot: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

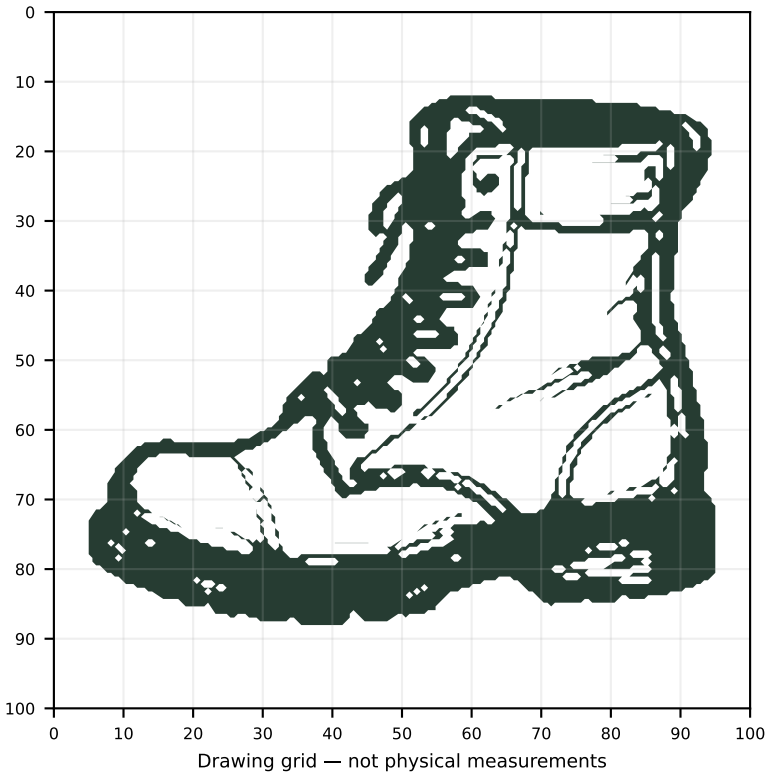

ANSWER: Example solution: preserve tall shaft with laces and eyelets, rounded toe with a toe cap seam, thick sole and heel with tread. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the tall shaft as a vertical rounded rectangle, then add the collar at the top.
2. Sketch the foot shape extending forward from the shaft, ending in a rounded toe.
3. Add the sole and heel as a thick horizontal band beneath the foot, with tread marks.
4. Draw the lacing area: a vertical line of eyelets and crisscross laces down the front of the shaft.
