How to Draw Box — Free Practice Sheets

REFERENCE / CASE 1

box: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

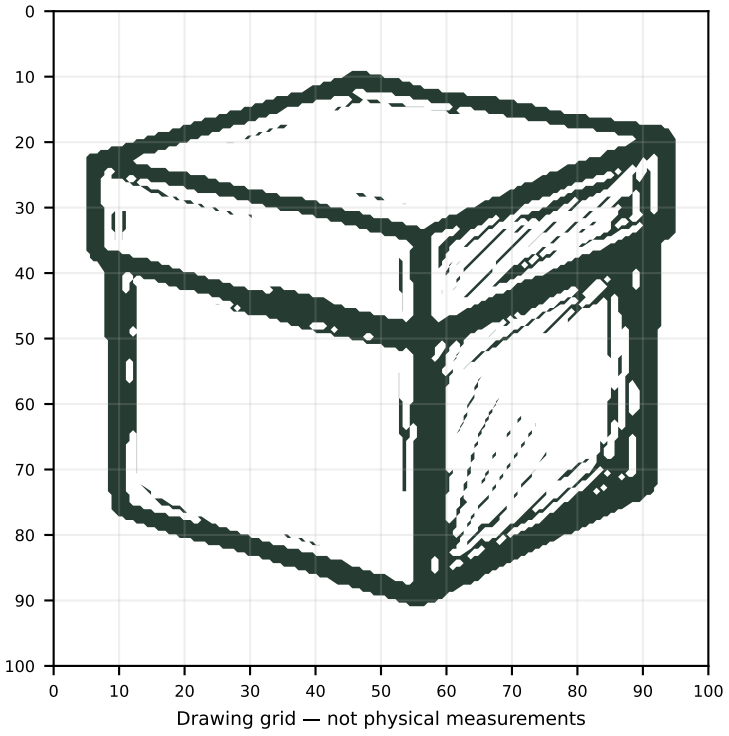

METHOD: Draw the top rectangular face as a slanted parallelogram to suggest depth. Add a short vertical lid band below the top face, following the same slanted edges. Extend vertical lines down from the lid corners to form the front and side faces. Close the bottom with two slanted edges meeting at the lower front corner, then add the visible vertical corner edge.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

box: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

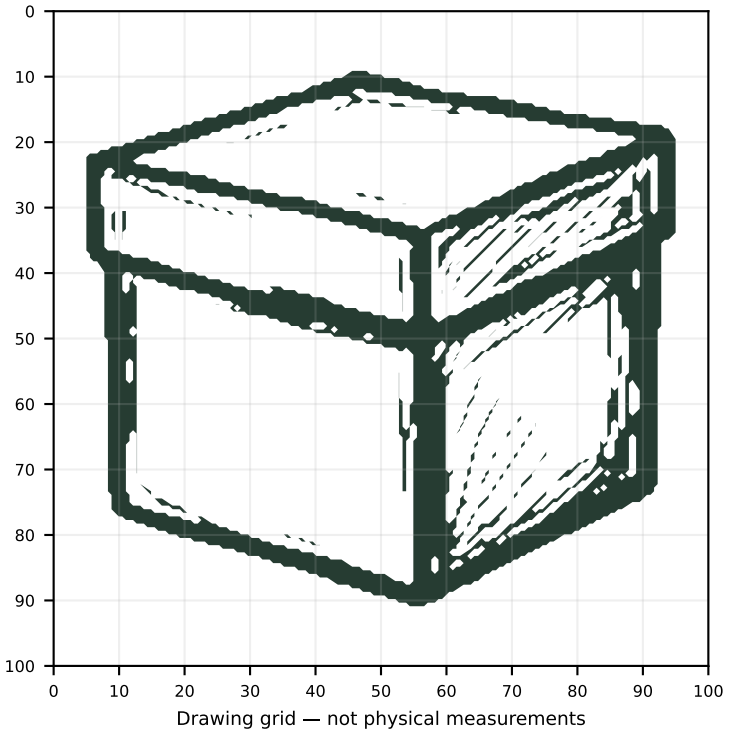

METHOD: Draw the top rectangular face as a slanted parallelogram to suggest depth. Add a short vertical lid band below the top face, following the same slanted edges. Extend vertical lines down from the lid corners to form the front and side faces. Close the bottom with two slanted edges meeting at the lower front corner, then add the visible vertical corner edge.
Use the separate practice sheet before checking the answer.

How to Draw Box — Free Practice Sheets

REFERENCE / CASE 3

box: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

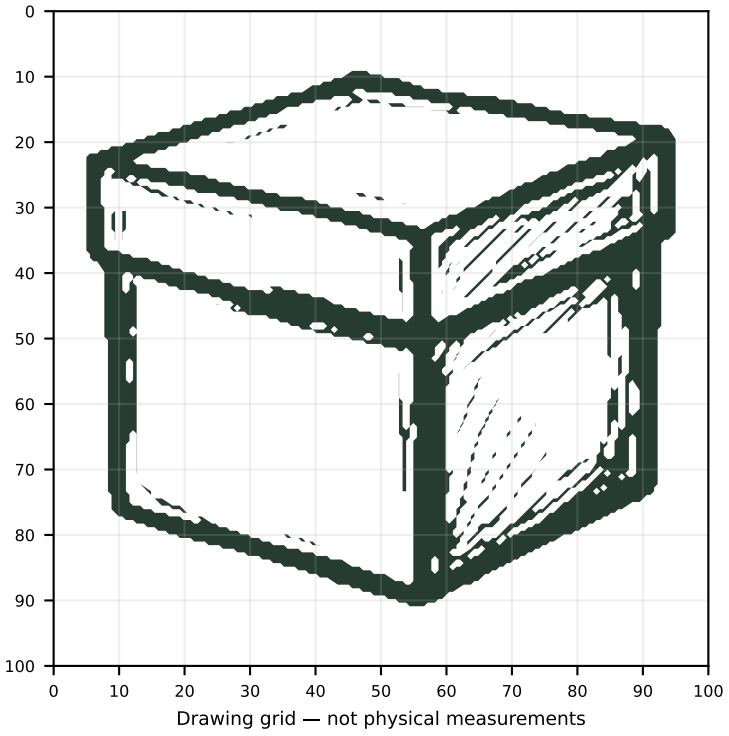

METHOD: Draw the top rectangular face as a slanted parallelogram to suggest depth. Add a short vertical lid band below the top face, following the same slanted edges. Extend vertical lines down from the lid corners to form the front and side faces. Close the bottom with two slanted edges meeting at the lower front corner, then add the visible vertical corner edge.
Use the separate practice sheet before checking the answer.

How to Draw Box — Free Practice Sheets

REFERENCE / CASE 4

box: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw the top rectangular face as a slanted parallelogram to suggest depth. Add a short vertical lid band below the top face, following the same slanted edges. Extend vertical lines down from the lid corners to form the front and side faces. Close the bottom with two slanted edges meeting at the lower front corner, then add the visible vertical corner edge.
Use the separate practice sheet before checking the answer.
