How to Draw Lighter — Free Practice Sheets

ANSWER / CASE 1

lighter: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

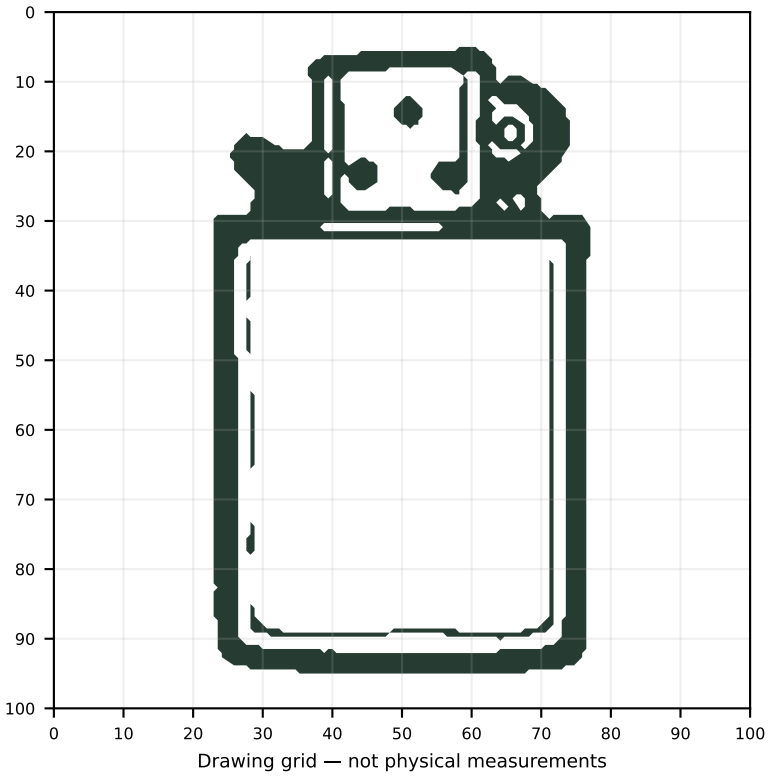

ANSWER: Example solution: preserve rectangular body with rounded corners, metal top with circular holes, side-mounted spark wheel and lever. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall rounded rectangle for the lighter body.
2. Add a smaller rectangular metal cap on top of the body.
3. Draw a circular spark wheel on the right side of the metal top.
4. Add small circular holes on the metal top and a lever on the left side.

How to Draw Lighter — Free Practice Sheets

ANSWER / CASE 2

lighter: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

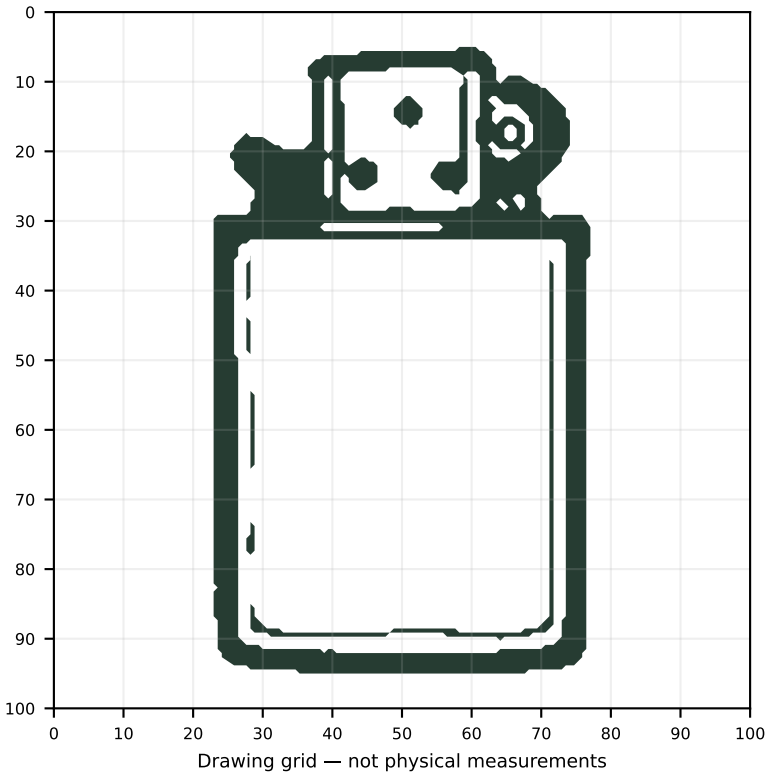

ANSWER: Example solution: preserve rectangular body with rounded corners, metal top with circular holes, side-mounted spark wheel and lever. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall rounded rectangle for the lighter body.
2. Add a smaller rectangular metal cap on top of the body.
3. Draw a circular spark wheel on the right side of the metal top.
4. Add small circular holes on the metal top and a lever on the left side.

How to Draw Lighter — Free Practice Sheets

ANSWER / CASE 3

lighter: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

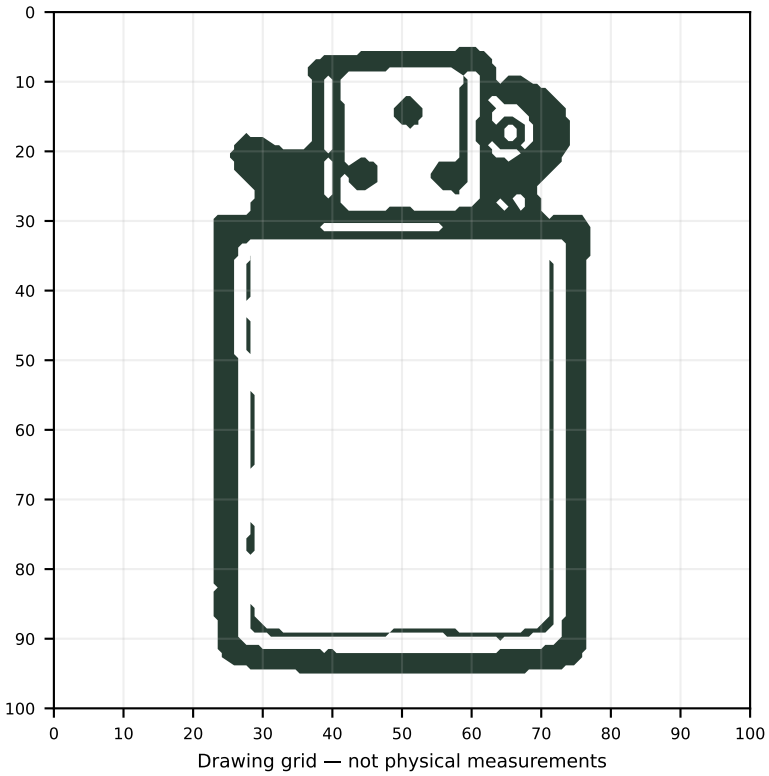

ANSWER: Example solution: preserve rectangular body with rounded corners, metal top with circular holes, side-mounted spark wheel and lever. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall rounded rectangle for the lighter body.
2. Add a smaller rectangular metal cap on top of the body.
3. Draw a circular spark wheel on the right side of the metal top.
4. Add small circular holes on the metal top and a lever on the left side.

How to Draw Lighter — Free Practice Sheets

ANSWER / CASE 4

lighter: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve rectangular body with rounded corners, metal top with circular holes, side-mounted spark wheel and lever. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall rounded rectangle for the lighter body.
2. Add a smaller rectangular metal cap on top of the body.
3. Draw a circular spark wheel on the right side of the metal top.
4. Add small circular holes on the metal top and a lever on the left side.
