How to Draw Playground Slide — Free Practice Sheets

ANSWER / CASE 1

playground slide: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

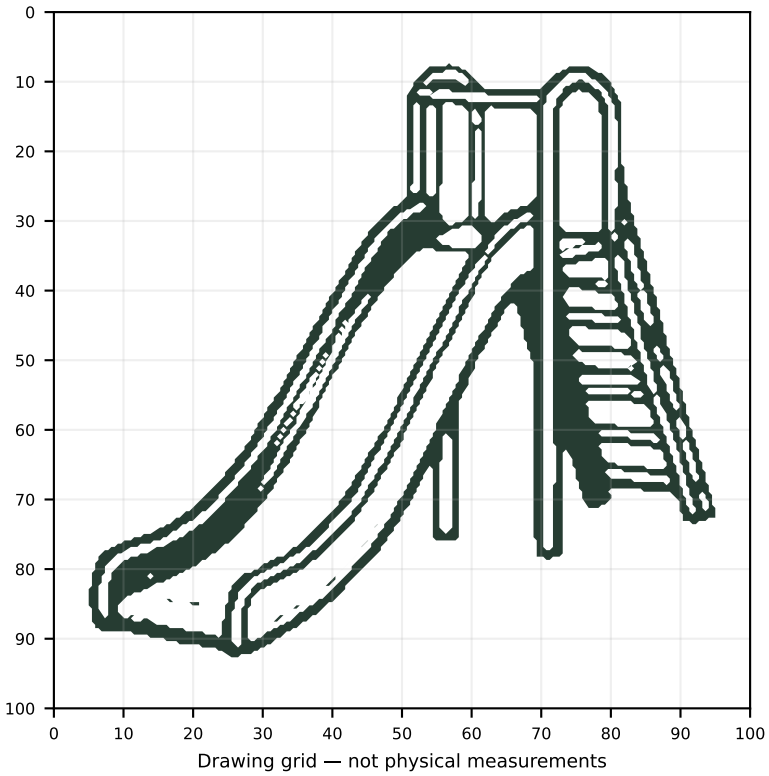

ANSWER: Example solution: preserve curved chute with raised side rails, ladder with horizontal rungs on the right, support frame with vertical posts and a top platform. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.

1. Draw the top platform and the two vertical support posts beneath it.
2. Draw the curved chute sweeping down to the left, adding parallel lines for the side rails.
3. Draw the ladder on the right with evenly spaced horizontal rungs between two side rails.
4. Add the remaining support legs and connect the platform to the chute and ladder.

How to Draw Playground Slide — Free Practice Sheets

ANSWER / CASE 2

playground slide: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

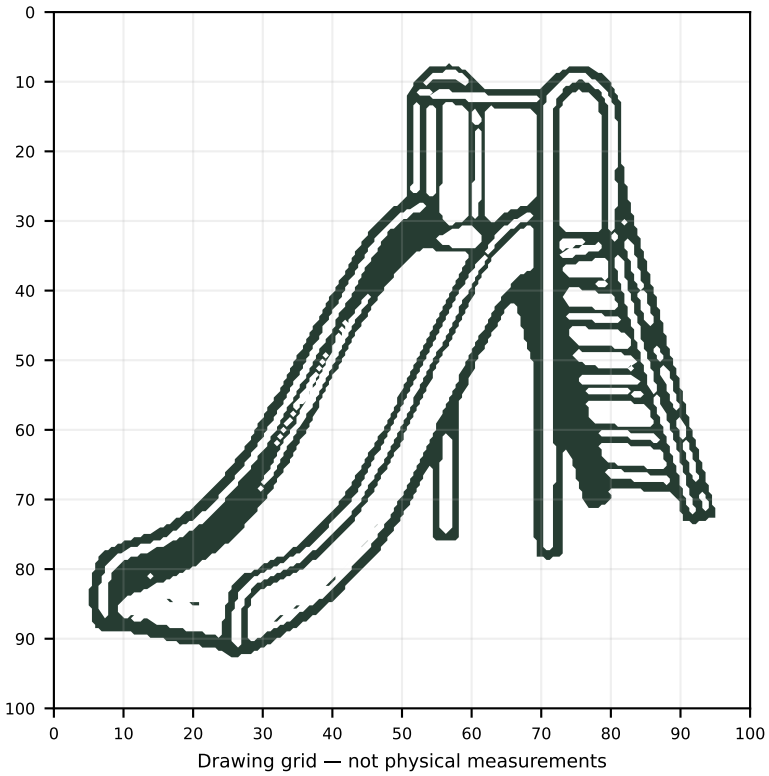

ANSWER: Example solution: preserve curved chute with raised side rails, ladder with horizontal rungs on the right, support frame with vertical posts and a top platform. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.

1. Draw the top platform and the two vertical support posts beneath it.
2. Draw the curved chute sweeping down to the left, adding parallel lines for the side rails.
3. Draw the ladder on the right with evenly spaced horizontal rungs between two side rails.
4. Add the remaining support legs and connect the platform to the chute and ladder.

How to Draw Playground Slide — Free Practice Sheets

ANSWER / CASE 3

playground slide: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

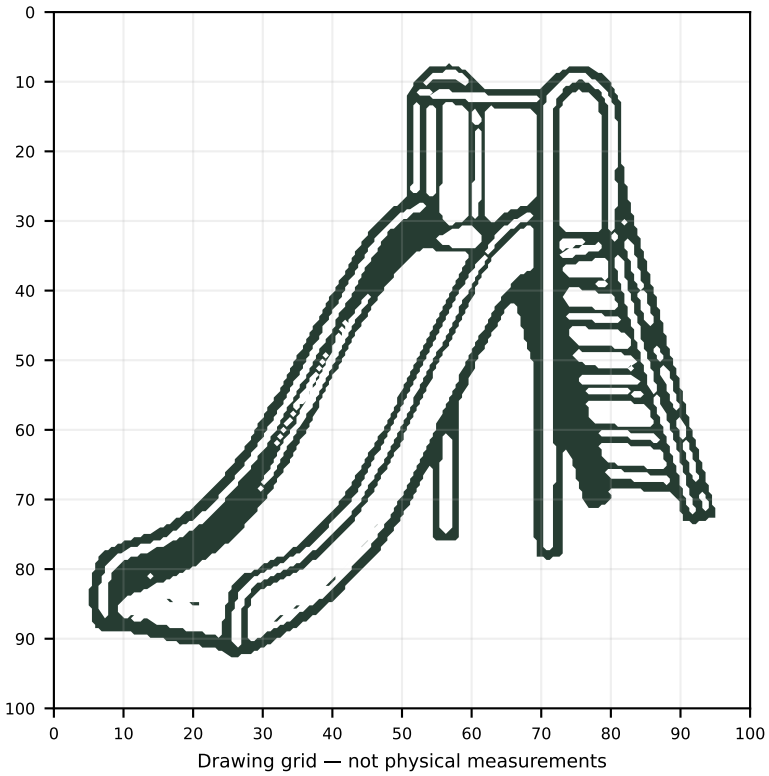

ANSWER: Example solution: preserve curved chute with raised side rails, ladder with horizontal rungs on the right, support frame with vertical posts and a top platform. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.

1. Draw the top platform and the two vertical support posts beneath it.
2. Draw the curved chute sweeping down to the left, adding parallel lines for the side rails.
3. Draw the ladder on the right with evenly spaced horizontal rungs between two side rails.
4. Add the remaining support legs and connect the platform to the chute and ladder.

How to Draw Playground Slide — Free Practice Sheets

ANSWER / CASE 4

playground slide: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve curved chute with raised side rails, ladder with horizontal rungs on the right, support frame with vertical posts and a top platform. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.

1. Draw the top platform and the two vertical support posts beneath it.
2. Draw the curved chute sweeping down to the left, adding parallel lines for the side rails.
3. Draw the ladder on the right with evenly spaced horizontal rungs between two side rails.
4. Add the remaining support legs and connect the platform to the chute and ladder.
