How to Draw Umbrella — Free Practice Sheets

ANSWER / CASE 1

umbrella: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

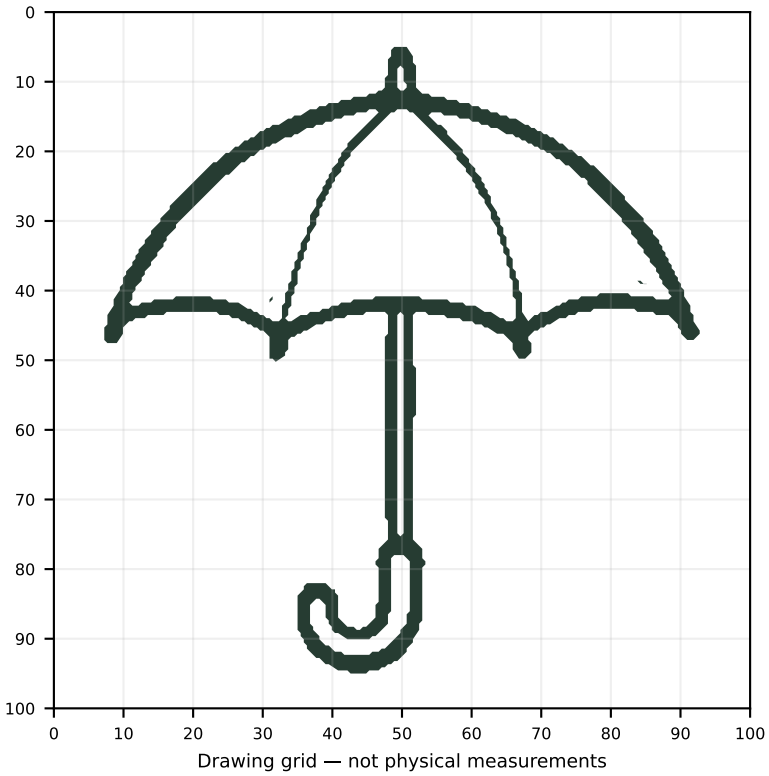

ANSWER: Example solution: preserve curved canopy with scalloped lower edge, central vertical shaft, J-shaped handle hook. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide arc for the top of the canopy.
2. Add a scalloped lower edge connecting to the arc, with small points at the segment ends.
3. Draw a straight vertical shaft downward from the canopy center.
4. Attach a curved J-shaped hook at the bottom of the shaft.

How to Draw Umbrella — Free Practice Sheets

ANSWER / CASE 2

umbrella: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

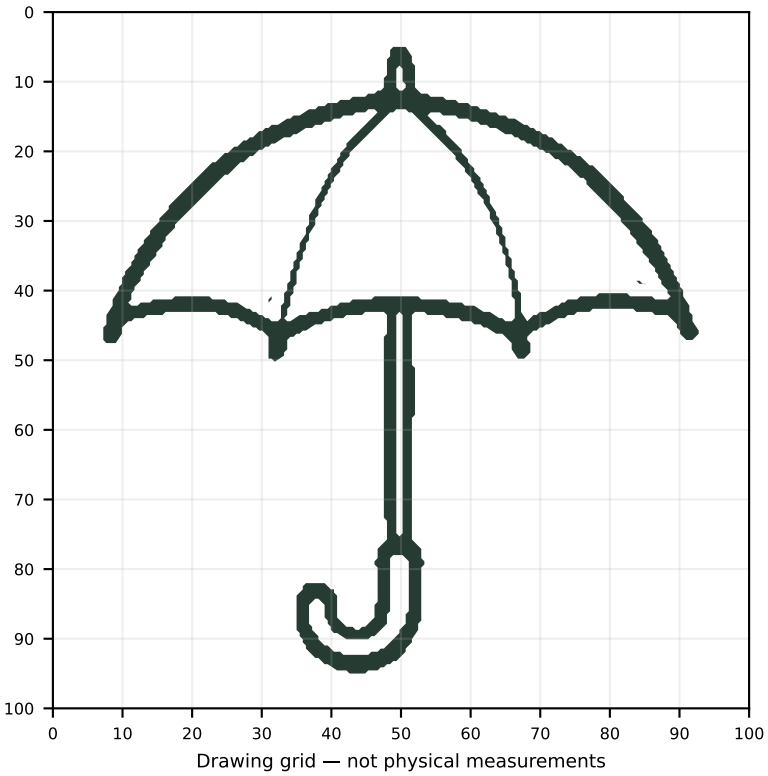

ANSWER: Example solution: preserve curved canopy with scalloped lower edge, central vertical shaft, J-shaped handle hook. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide arc for the top of the canopy.
2. Add a scalloped lower edge connecting to the arc, with small points at the segment ends.
3. Draw a straight vertical shaft downward from the canopy center.
4. Attach a curved J-shaped hook at the bottom of the shaft.

How to Draw Umbrella — Free Practice Sheets

ANSWER / CASE 3

umbrella: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

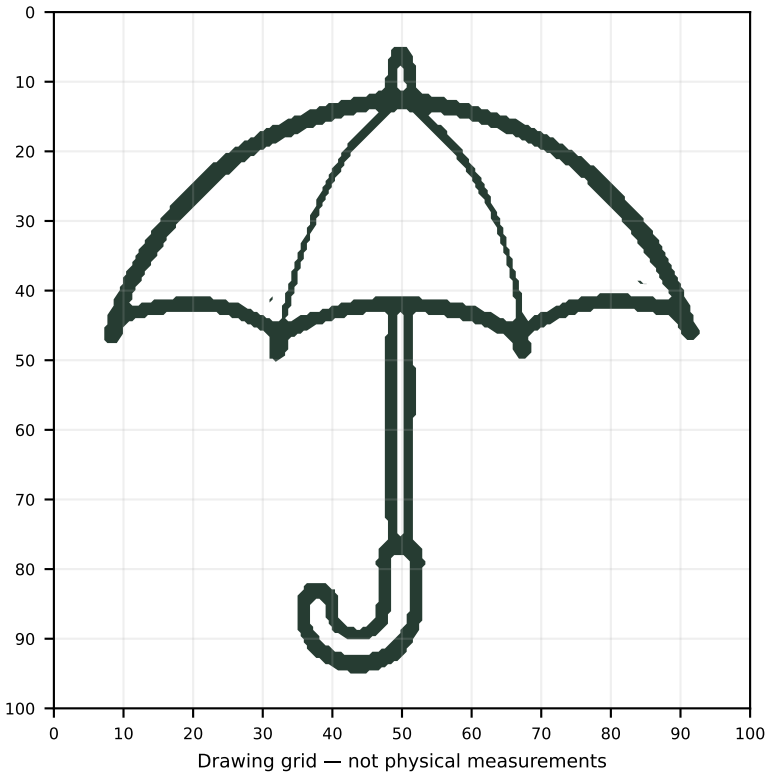

ANSWER: Example solution: preserve curved canopy with scalloped lower edge, central vertical shaft, J-shaped handle hook. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide arc for the top of the canopy.
2. Add a scalloped lower edge connecting to the arc, with small points at the segment ends.
3. Draw a straight vertical shaft downward from the canopy center.
4. Attach a curved J-shaped hook at the bottom of the shaft.

How to Draw Umbrella — Free Practice Sheets

ANSWER / CASE 4

umbrella: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve curved canopy with scalloped lower edge, central vertical shaft, J-shaped handle hook. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide arc for the top of the canopy.
2. Add a scalloped lower edge connecting to the arc, with small points at the segment ends.
3. Draw a straight vertical shaft downward from the canopy center.
4. Attach a curved J-shaped hook at the bottom of the shaft.
