How to Draw Pop It — Free Practice Sheets

ANSWER / CASE 1

pop it: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

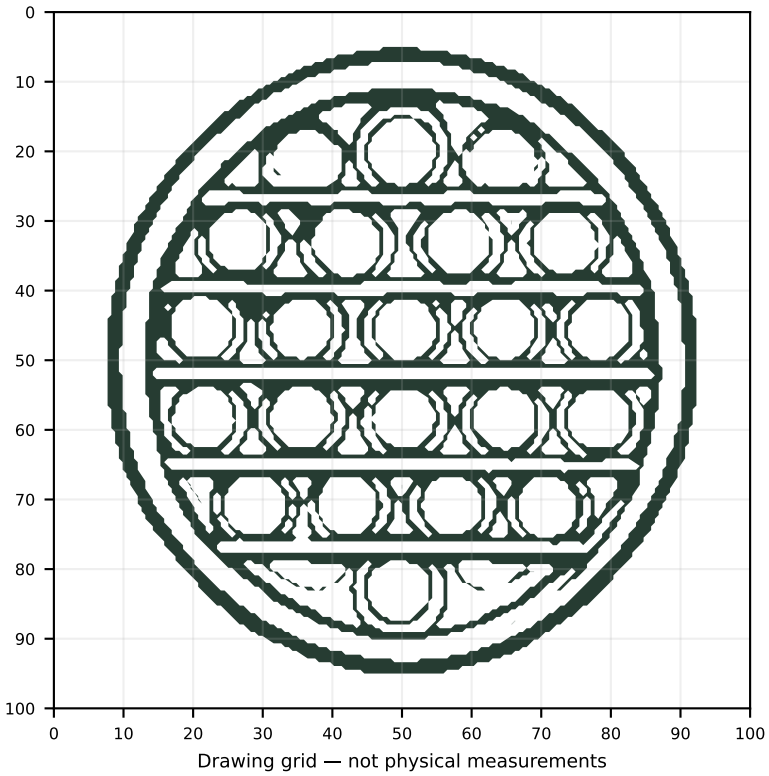

ANSWER: Example solution: preserve circular outer silhouette with a thick rounded rim, horizontal rows of raised circular bubbles inside the frame, repeating dimples/bubble outlines arranged in a grid pattern. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the outer body and add a slightly inset inner circle to form the rounded rim.
2. Lightly sketch horizontal guide lines across the interior to space the bubble rows evenly.
3. Draw rows of circles along the guides, keeping consistent size and spacing to create the repeating dimples.
4. Outline the final bubble shapes with clean lines and erase the guide lines to finish the worksheet reference.

How to Draw Pop It — Free Practice Sheets

ANSWER / CASE 2

pop it: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

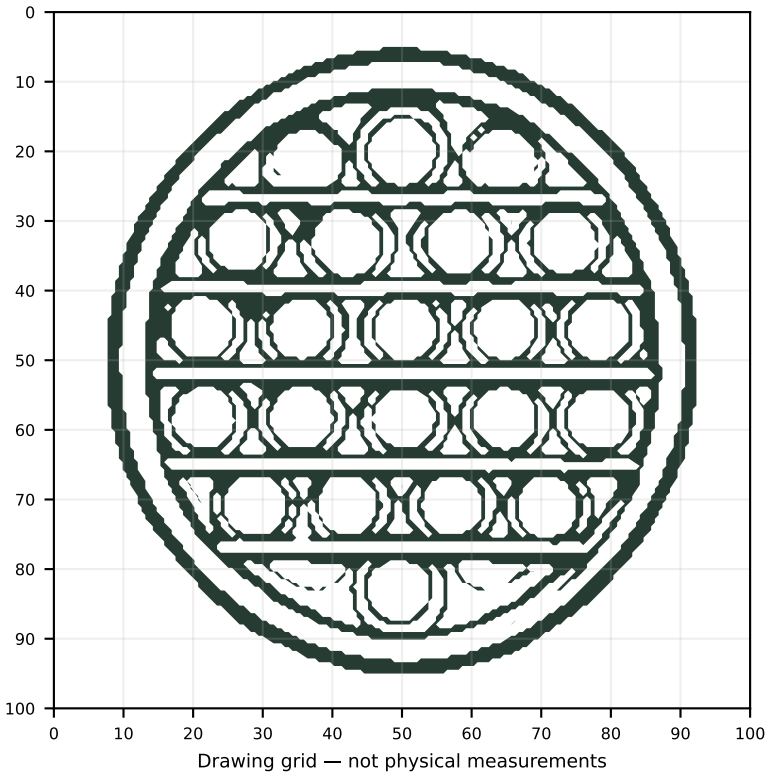

ANSWER: Example solution: preserve circular outer silhouette with a thick rounded rim, horizontal rows of raised circular bubbles inside the frame, repeating dimples/bubble outlines arranged in a grid pattern. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the outer body and add a slightly inset inner circle to form the rounded rim.
2. Lightly sketch horizontal guide lines across the interior to space the bubble rows evenly.
3. Draw rows of circles along the guides, keeping consistent size and spacing to create the repeating dimples.
4. Outline the final bubble shapes with clean lines and erase the guide lines to finish the worksheet reference.

ANSWER / CASE 3

pop it: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

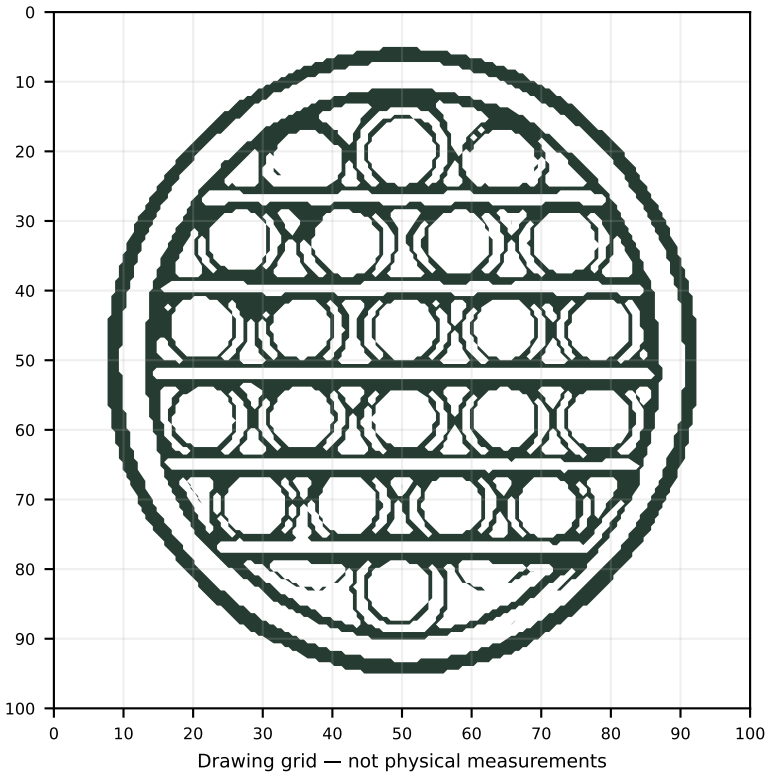

ANSWER: Example solution: preserve circular outer silhouette with a thick rounded rim, horizontal rows of raised circular bubbles inside the frame, repeating dimples/bubble outlines arranged in a grid pattern. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the outer body and add a slightly inset inner circle to form the rounded rim.
2. Lightly sketch horizontal guide lines across the interior to space the bubble rows evenly.
3. Draw rows of circles along the guides, keeping consistent size and spacing to create the repeating dimples.
4. Outline the final bubble shapes with clean lines and erase the guide lines to finish the worksheet reference.

How to Draw Pop It — Free Practice Sheets

ANSWER / CASE 4

pop it: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve circular outer silhouette with a thick rounded rim, horizontal rows of raised circular bubbles inside the frame, repeating dimples/bubble outlines arranged in a grid pattern. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the outer body and add a slightly inset inner circle to form the rounded rim.
2. Lightly sketch horizontal guide lines across the interior to space the bubble rows evenly.
3. Draw rows of circles along the guides, keeping consistent size and spacing to create the repeating dimples.
4. Outline the final bubble shapes with clean lines and erase the guide lines to finish the worksheet reference.
