How to Draw Mushroom — Free Practice Sheets

REFERENCE / CASE 1

mushroom: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

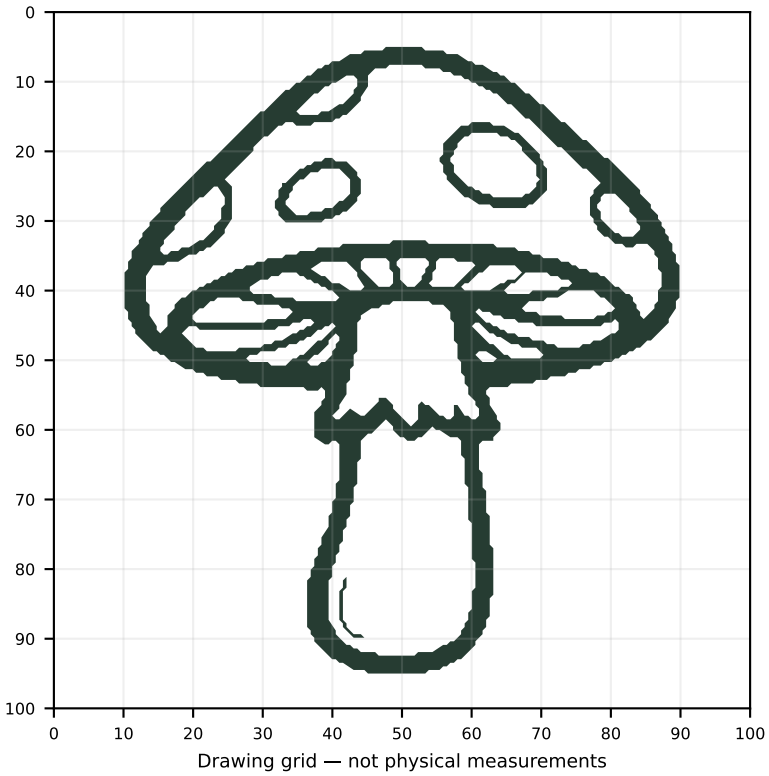

METHOD: Draw a wide rounded dome for the cap, then add several circles/ovals on its surface for spots. Sketch a horizontal ellipse under the cap to define the underside opening. Draw radiating lines from the stem outward to the cap edge to form the gills. Add a vertical stem below the center, with a jagged collar/ring near the top and a slightly bulbous base. Use the separate practice sheet before checking the answer.

How to Draw Mushroom — Free Practice Sheets

REFERENCE / CASE 2

mushroom: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

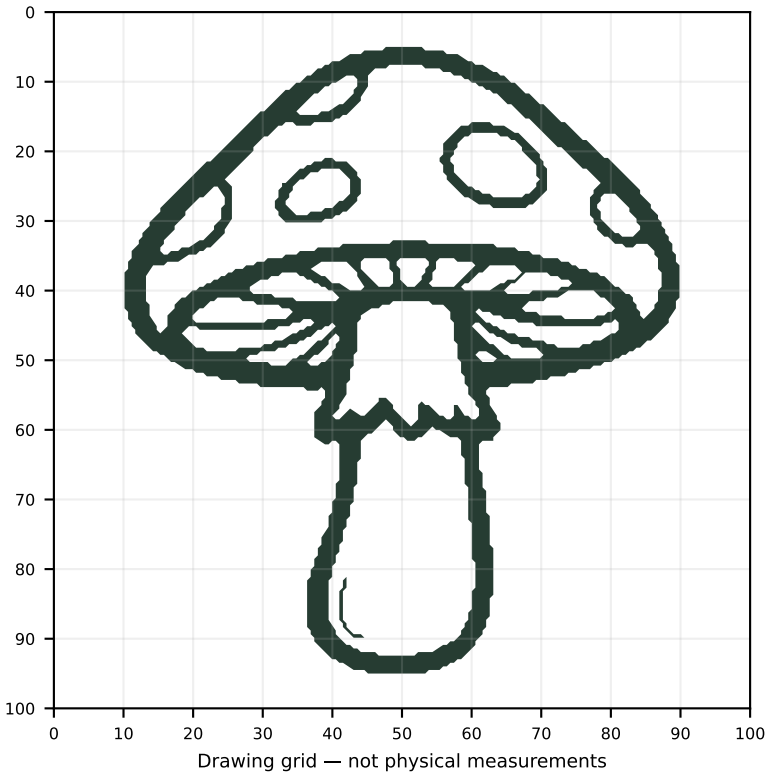

METHOD: Draw a wide rounded dome for the cap, then add several circles/ovals on its surface for spots. Sketch a horizontal ellipse under the cap to define the underside opening. Draw radiating lines from the stem outward to the cap edge to form the gills. Add a vertical stem below the center, with a jagged collar/ring near the top and a slightly bulbous base. Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

mushroom: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

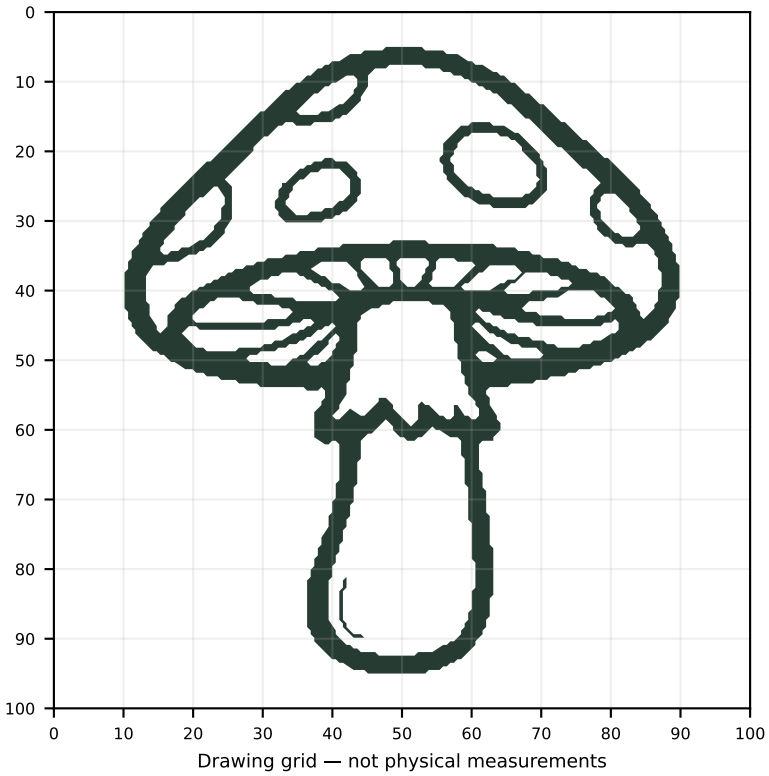

METHOD: Draw a wide rounded dome for the cap, then add several circles/ovals on its surface for spots. Sketch a horizontal ellipse under the cap to define the underside opening. Draw radiating lines from the stem outward to the cap edge to form the gills. Add a vertical stem below the center, with a jagged collar/ring near the top and a slightly bulbous base. Use the separate practice sheet before checking the answer.

How to Draw Mushroom — Free Practice Sheets

REFERENCE / CASE 4

mushroom: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a wide rounded dome for the cap, then add several circles/ovals on its surface for spots. Sketch a horizontal ellipse under the cap to define the underside opening. Draw radiating lines from the stem outward to the cap edge to form the gills. Add a vertical stem below the center, with a jagged collar/ring near the top and a slightly bulbous base. Use the separate practice sheet before checking the answer.
