How to Draw Mushroom — Free Practice Sheets

ANSWER / CASE 1

mushroom: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

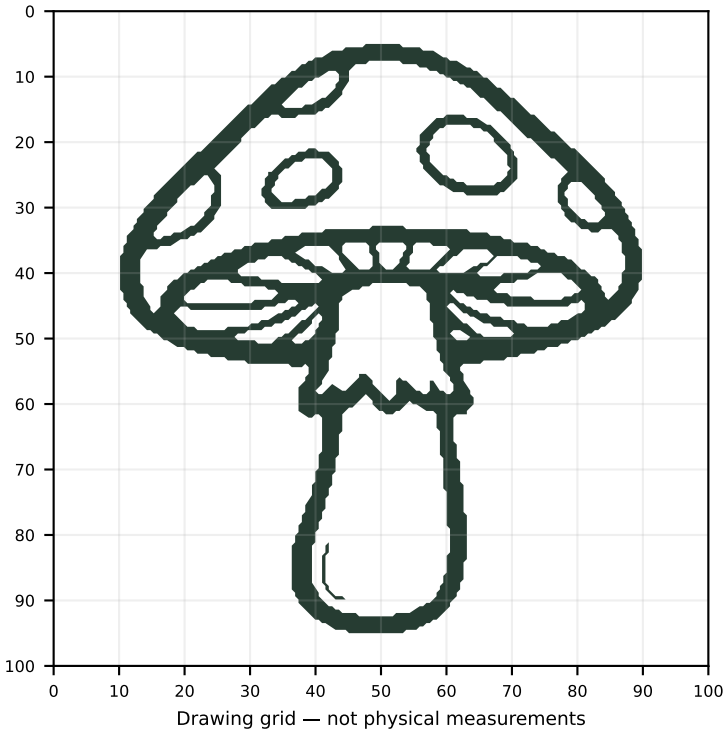

ANSWER: Example solution: preserve rounded dome-shaped cap with circular spots, central stem with a jagged ring/skirt near the top, radiating gill lines visible under the cap.
Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide rounded dome for the cap, then add several circles/ovals on its surface for spots.
2. Sketch a horizontal ellipse under the cap to define the underside opening.
3. Draw radiating lines from the stem outward to the cap edge to form the gills.
4. Add a vertical stem below the center, with a jagged collar/ring near the top and a slightly bulbous base.

How to Draw Mushroom — Free Practice Sheets

ANSWER / CASE 2

mushroom: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

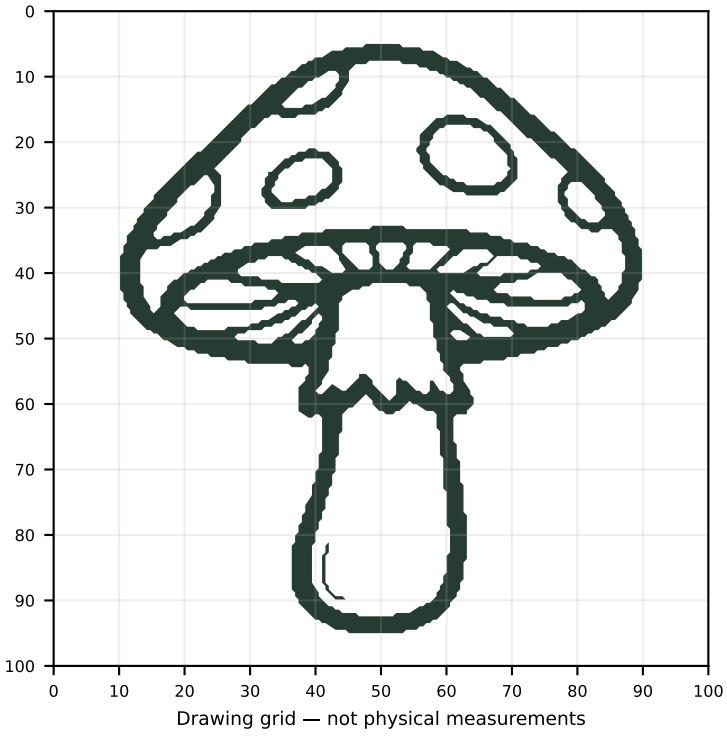

ANSWER: Example solution: preserve rounded dome-shaped cap with circular spots, central stem with a jagged ring/skirt near the top, radiating gill lines visible under the cap. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide rounded dome for the cap, then add several circles/ovals on its surface for spots.
2. Sketch a horizontal ellipse under the cap to define the underside opening.
3. Draw radiating lines from the stem outward to the cap edge to form the gills.
4. Add a vertical stem below the center, with a jagged collar/ring near the top and a slightly bulbous base.

How to Draw Mushroom — Free Practice Sheets

ANSWER / CASE 3

mushroom: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

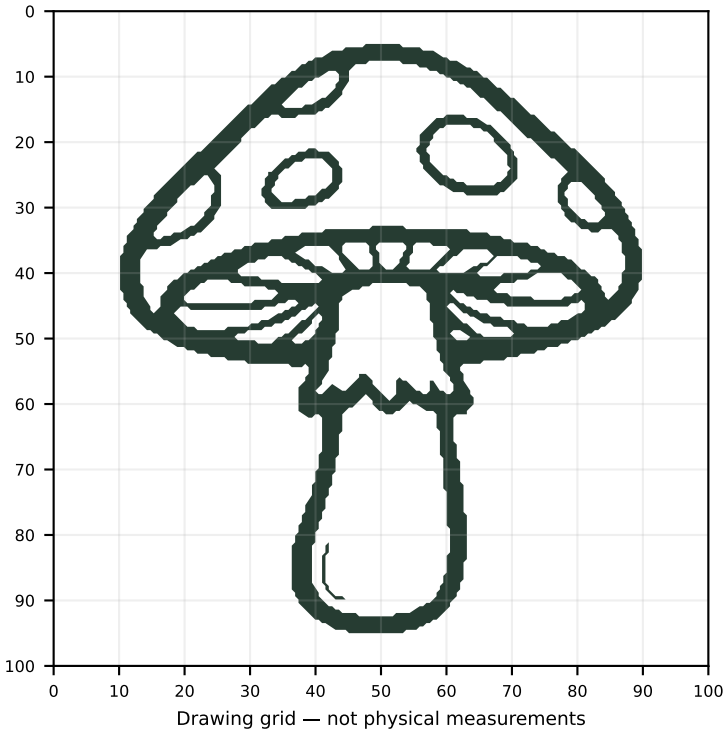

ANSWER: Example solution: preserve rounded dome-shaped cap with circular spots, central stem with a jagged ring/skirt near the top, radiating gill lines visible under the cap.
Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide rounded dome for the cap, then add several circles/ovals on its surface for spots.
2. Sketch a horizontal ellipse under the cap to define the underside opening.
3. Draw radiating lines from the stem outward to the cap edge to form the gills.
4. Add a vertical stem below the center, with a jagged collar/ring near the top and a slightly bulbous base.

How to Draw Mushroom — Free Practice Sheets

ANSWER / CASE 4

mushroom: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve rounded dome-shaped cap with circular spots, central stem with a jagged ring/skirt near the top, radiating gill lines visible under the cap.
Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide rounded dome for the cap, then add several circles/ovals on its surface for spots.
2. Sketch a horizontal ellipse under the cap to define the underside opening.
3. Draw radiating lines from the stem outward to the cap edge to form the gills.
4. Add a vertical stem below the center, with a jagged collar/ring near the top and a slightly bulbous base.
