How to Draw Four-Leaf Clover — Free Practice Sheets

ANSWER / CASE 1

four-leaf clover: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

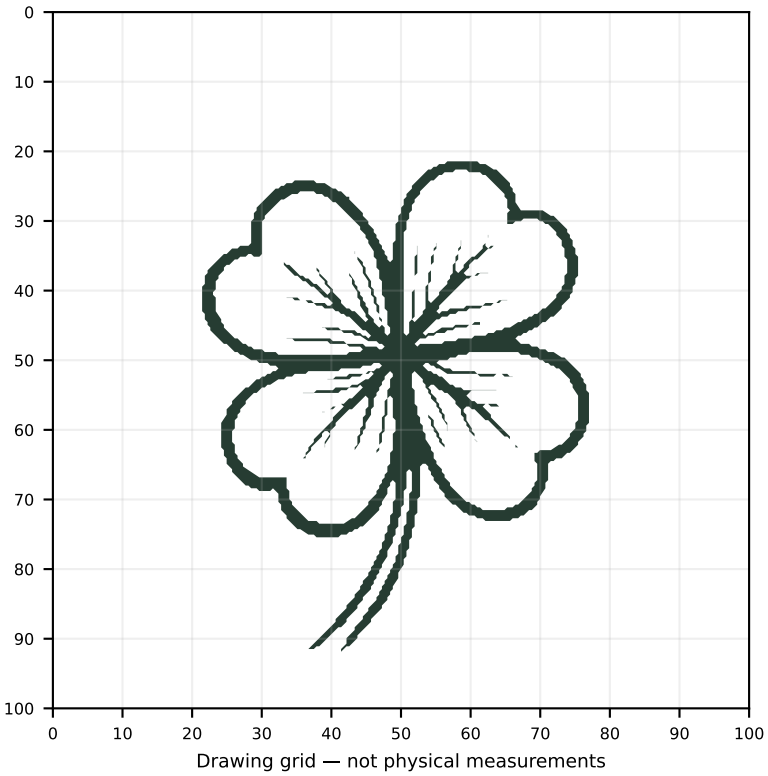

ANSWER: Example solution: preserve four heart-shaped leaves arranged around a center, thin radiating vein lines inside each leaf, curved double-line stem extending downward. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a small central point where all leaves meet.
2. Draw four heart-shaped leaf outlines radiating outward from the center, spaced roughly evenly.
3. Add thin vein lines from the center outward into each leaf.
4. Draw a curved double-line stem downward from the center.
