How to Draw Seedling — Free Practice Sheets

REFERENCE / CASE 1

seedling: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

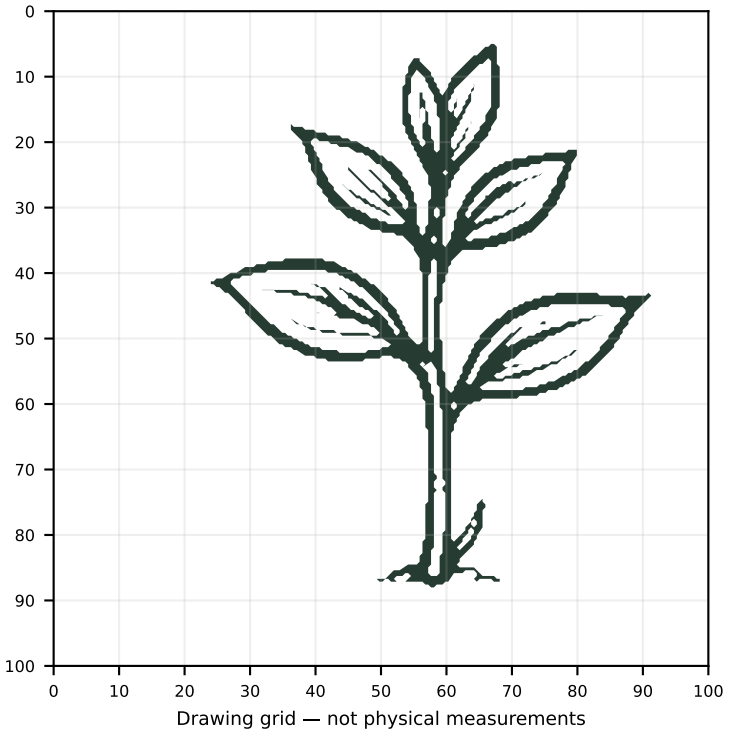

METHOD: Draw a single slightly curved vertical line for the stem, starting at the soil line and ending near the top. Add two lower leaves as pointed ovals branching outward from the stem, one on each side. Add a second pair of leaves higher on the stem, angled upward and outward. Draw a small cluster of pointed leaves at the top of the stem and add short root/soil strokes at the base.
Use the separate practice sheet before checking the answer.

How to Draw Seedling — Free Practice Sheets

REFERENCE / CASE 2

seedling: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

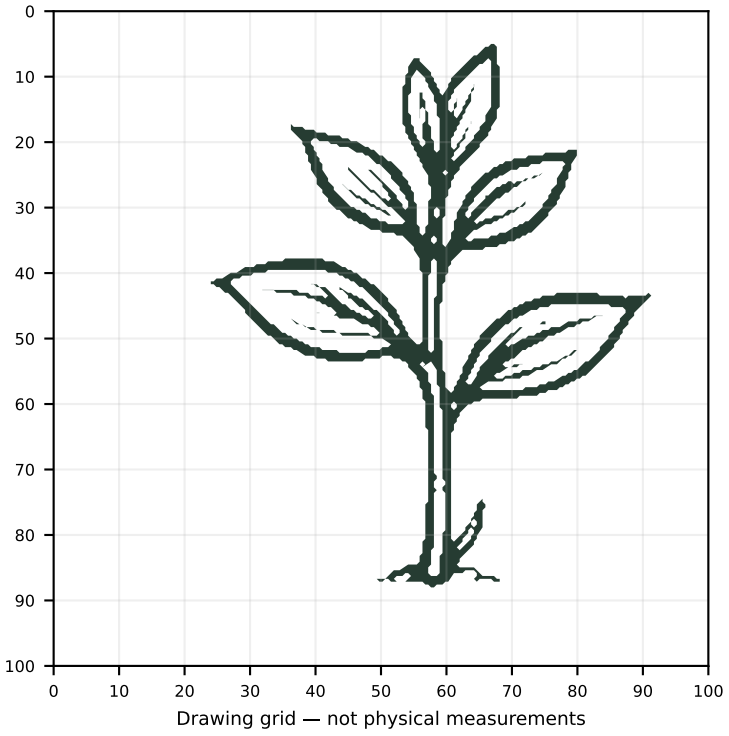

METHOD: Draw a single slightly curved vertical line for the stem, starting at the soil line and ending near the top. Add two lower leaves as pointed ovals branching outward from the stem, one on each side. Add a second pair of leaves higher on the stem, angled upward and outward. Draw a small cluster of pointed leaves at the top of the stem and add short root/soil strokes at the base.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

seedling: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

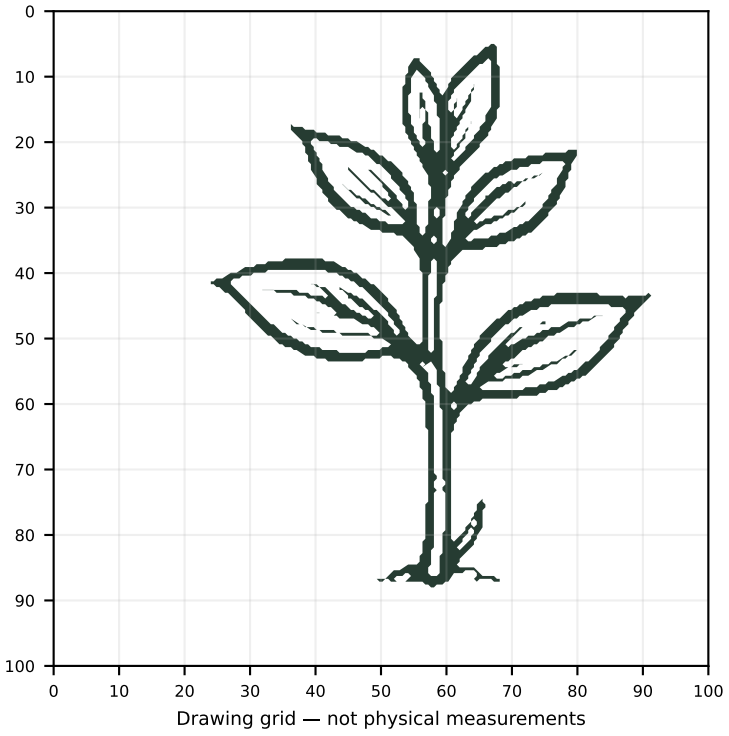

METHOD: Draw a single slightly curved vertical line for the stem, starting at the soil line and ending near the top. Add two lower leaves as pointed ovals branching outward from the stem, one on each side. Add a second pair of leaves higher on the stem, angled upward and outward. Draw a small cluster of pointed leaves at the top of the stem and add short root/soil strokes at the base.
Use the separate practice sheet before checking the answer.

How to Draw Seedling — Free Practice Sheets

REFERENCE / CASE 4

seedling: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a single slightly curved vertical line for the stem, starting at the soil line and ending near the top. Add two lower leaves as pointed ovals branching outward from the stem, one on each side. Add a second pair of leaves higher on the stem, angled upward and outward. Draw a small cluster of pointed leaves at the top of the stem and add short root/soil strokes at the base.
Use the separate practice sheet before checking the answer.
