# How to Draw Mistletoe — Free Practice Sheets

### ANSWER / CASE 1

mistletoe: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

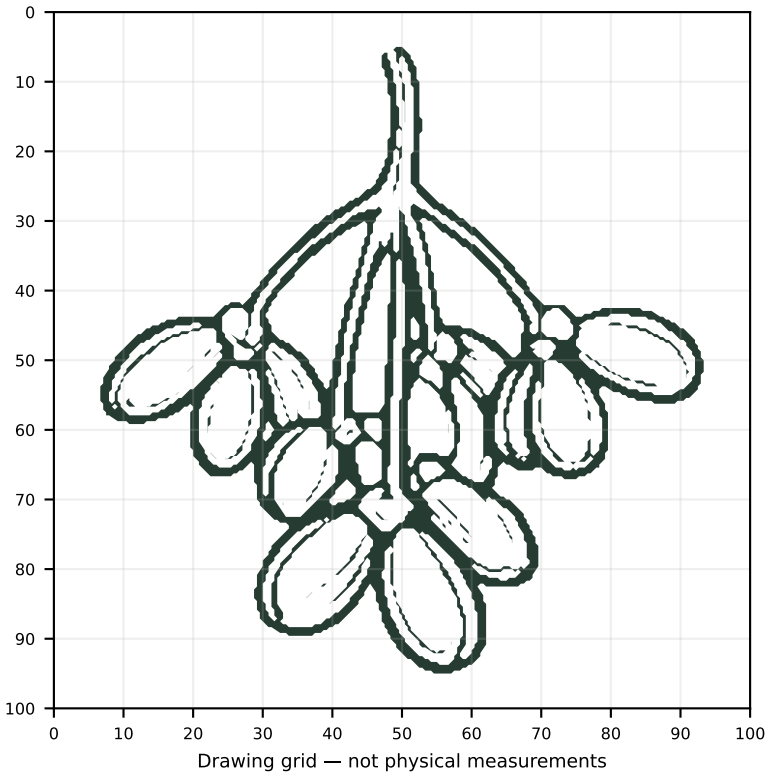

ANSWER: Example solution: preserve paired oval leaves attached at nodes, small round berries clustered near stem junctions, branching stem with a central vertical stalk and side branches. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a central vertical stem with a slight curve.
2. Add side branches that fork outward from the main stem.
3. At branch nodes, draw paired oval leaves with pointed tips.
4. Attach small round berries at the junctions between leaves and stems.

### ANSWER / CASE 2

mistletoe: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

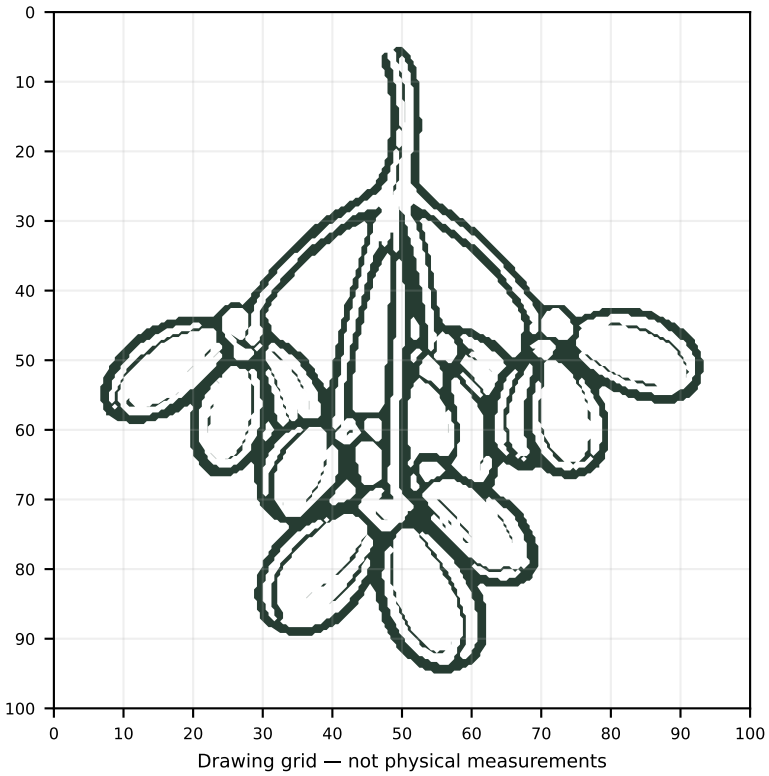

ANSWER: Example solution: preserve paired oval leaves attached at nodes, small round berries clustered near stem junctions, branching stem with a central vertical stalk and side branches. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.

1. Draw a central vertical stem with a slight curve.
2. Add side branches that fork outward from the main stem.
3. At branch nodes, draw paired oval leaves with pointed tips.
4. Attach small round berries at the junctions between leaves and stems.

### ANSWER / CASE 3

mistletoe: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

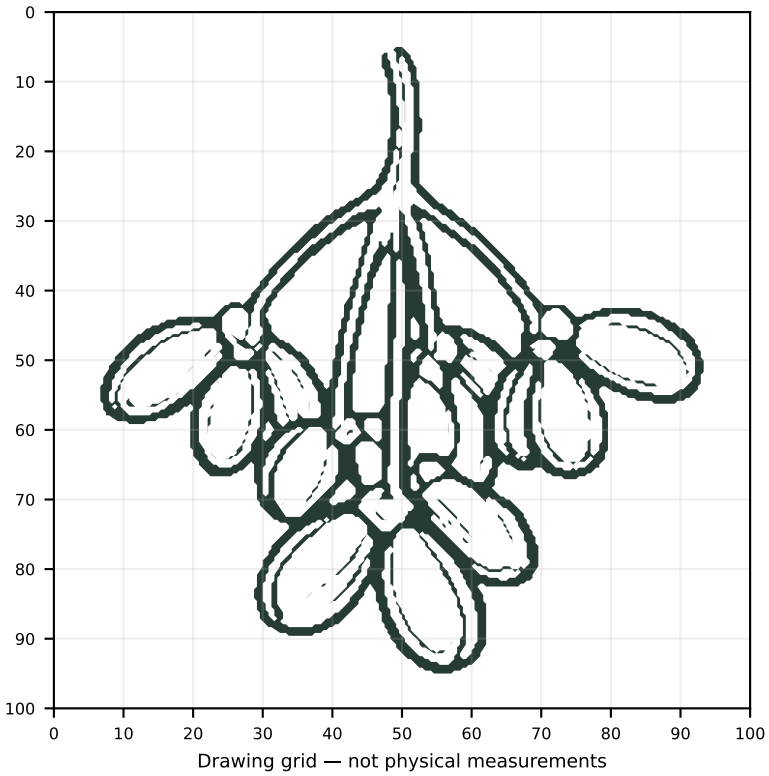

ANSWER: Example solution: preserve paired oval leaves attached at nodes, small round berries clustered near stem junctions, branching stem with a central vertical stalk and side branches. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a central vertical stem with a slight curve.
2. Add side branches that fork outward from the main stem.
3. At branch nodes, draw paired oval leaves with pointed tips.
4. Attach small round berries at the junctions between leaves and stems.

### ANSWER / CASE 4

mistletoe: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve paired oval leaves attached at nodes, small round berries clustered near stem junctions, branching stem with a central vertical stalk and side branches. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a central vertical stem with a slight curve.
2. Add side branches that fork outward from the main stem.
3. At branch nodes, draw paired oval leaves with pointed tips.
4. Attach small round berries at the junctions between leaves and stems.
