How to Draw Dandelion — Free Practice Sheets

REFERENCE / CASE 1

dandelion: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

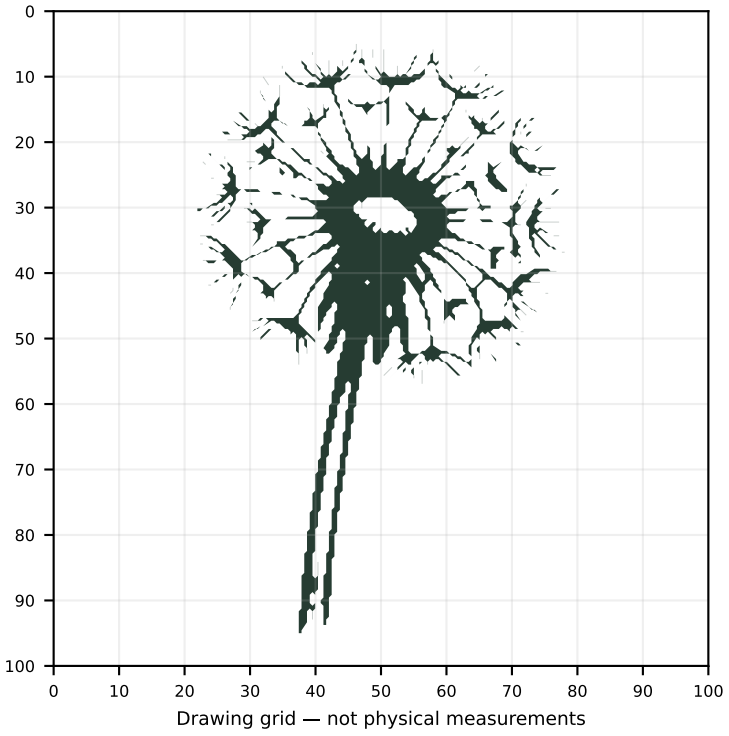

METHOD: Draw a small oval for the central receptacle. Draw a dense ring of short dark radiating stalks around the receptacle. Add longer thin stalks ending in small fan-shaped seed parachutes to form the round head. Draw two parallel lines downward from the receptacle to make the stem.
Use the separate practice sheet before checking the answer.

How to Draw Dandelion — Free Practice Sheets

REFERENCE / CASE 2

dandelion: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

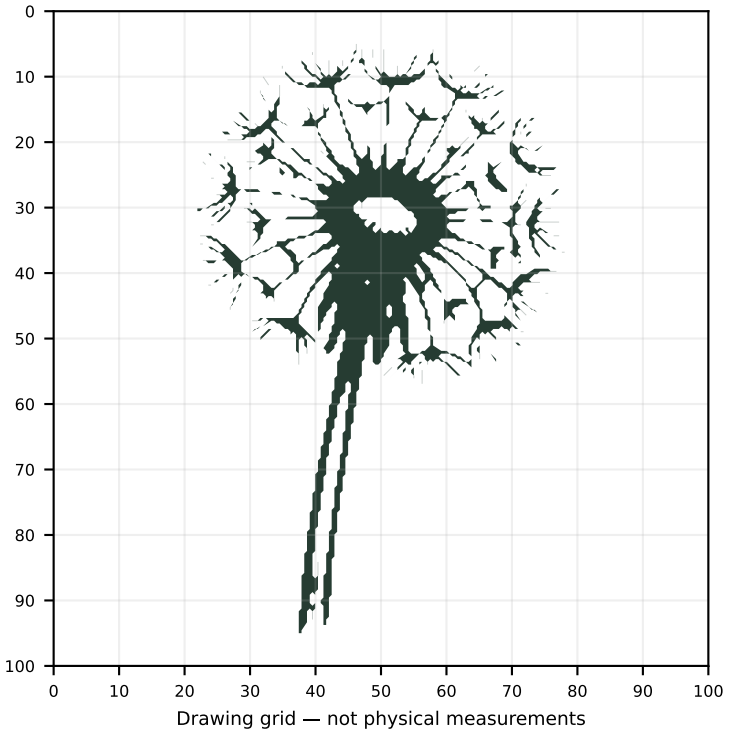

METHOD: Draw a small oval for the central receptacle. Draw a dense ring of short dark radiating stalks around the receptacle. Add longer thin stalks ending in small fan-shaped seed parachutes to form the round head. Draw two parallel lines downward from the receptacle to make the stem.
Use the separate practice sheet before checking the answer.

How to Draw Dandelion — Free Practice Sheets

REFERENCE / CASE 3

dandelion: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

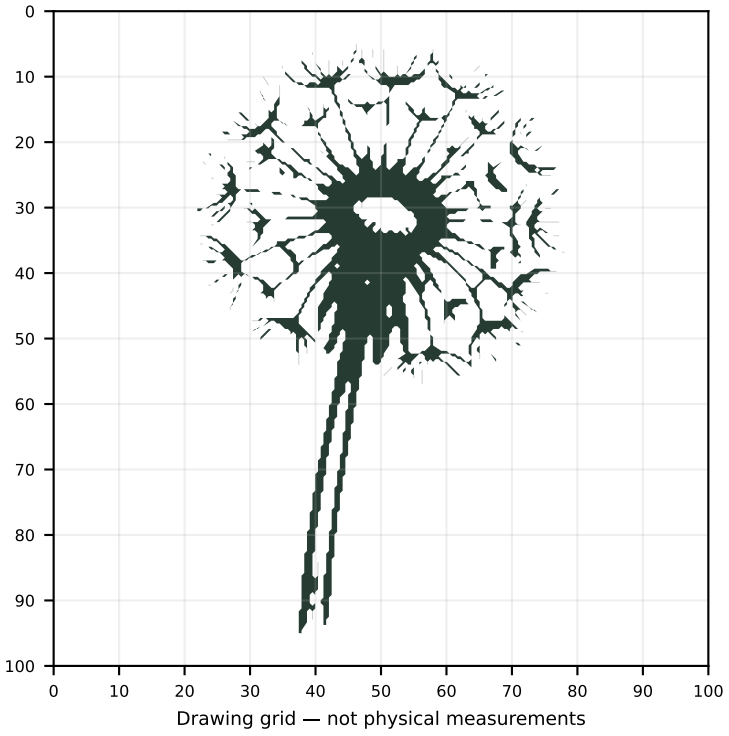

METHOD: Draw a small oval for the central receptacle. Draw a dense ring of short dark radiating stalks around the receptacle. Add longer thin stalks ending in small fan-shaped seed parachutes to form the round head. Draw two parallel lines downward from the receptacle to make the stem.
Use the separate practice sheet before checking the answer.

How to Draw Dandelion — Free Practice Sheets

REFERENCE / CASE 4

dandelion: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a small oval for the central receptacle. Draw a dense ring of short dark radiating stalks around the receptacle. Add longer thin stalks ending in small fan-shaped seed parachutes to form the round head. Draw two parallel lines downward from the receptacle to make the stem.
Use the separate practice sheet before checking the answer.
