How to Draw Poppy — Free Practice Sheets

ANSWER / CASE 1

poppy: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

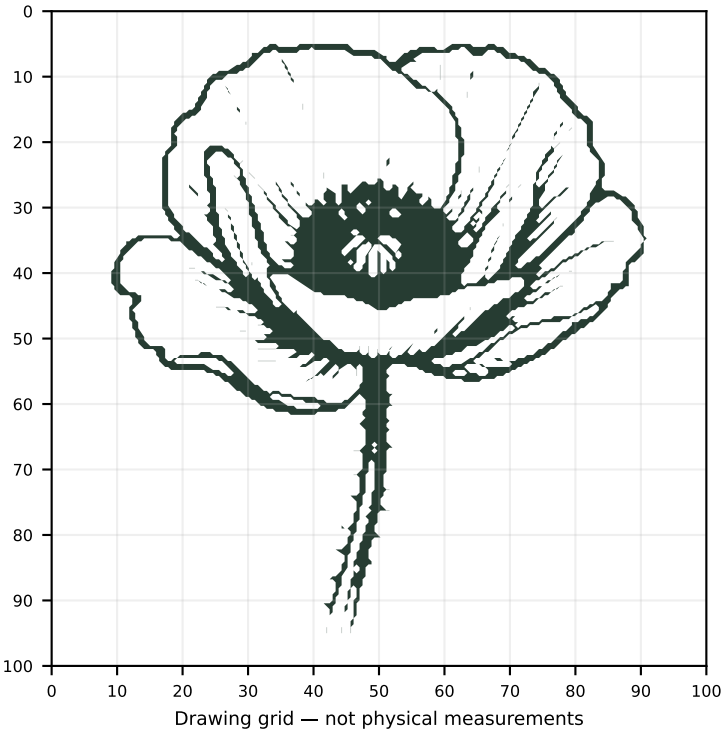

ANSWER: Example solution: preserve four broad overlapping petals with wavy edges, dark central seed pod surrounded by a ring of stamens, thin stem covered in short hairs. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a small circle for the central seed pod.
2. Add a ring of short radiating lines around the pod to form the stamens.
3. Draw four large, overlapping petal shapes around the center, starting with the two back petals.
4. Attach a thin vertical stem below the flower and add short hairs along its length.
