How to Draw Water Lily — Free Practice Sheets

REFERENCE / CASE 1

water lily: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

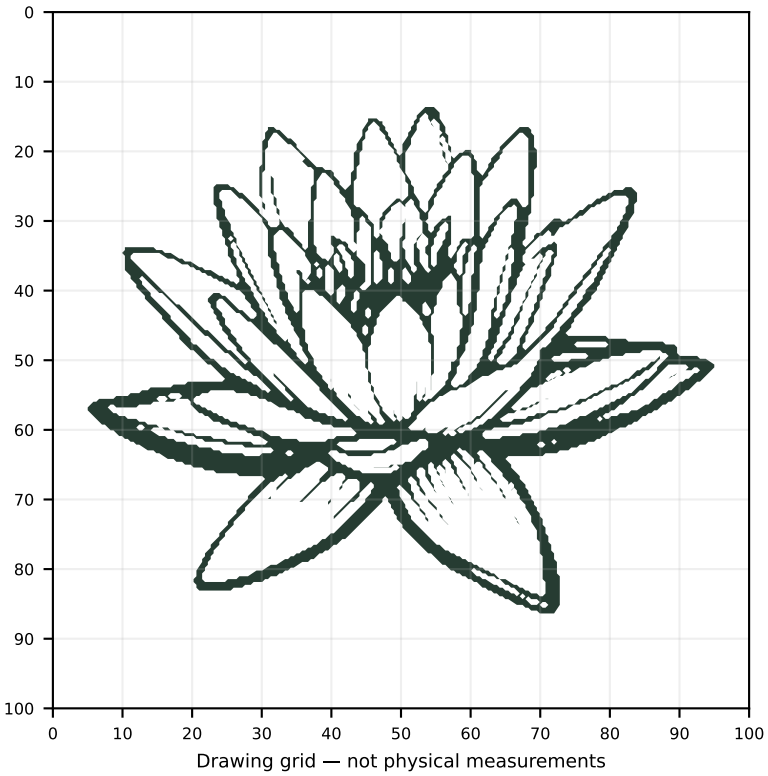

METHOD: Draw a small central oval to mark the stamen cluster. Add a ring of short pointed petals around the center, then layer progressively longer pointed petals outward. Draw broad rounded outer petals at the base, overlapping the inner layers. Add a rounded floating pad shape behind the flower and outline the petals with clean contour lines.
Use the separate practice sheet before checking the answer.

How to Draw Water Lily — Free Practice Sheets

REFERENCE / CASE 2

water lily: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

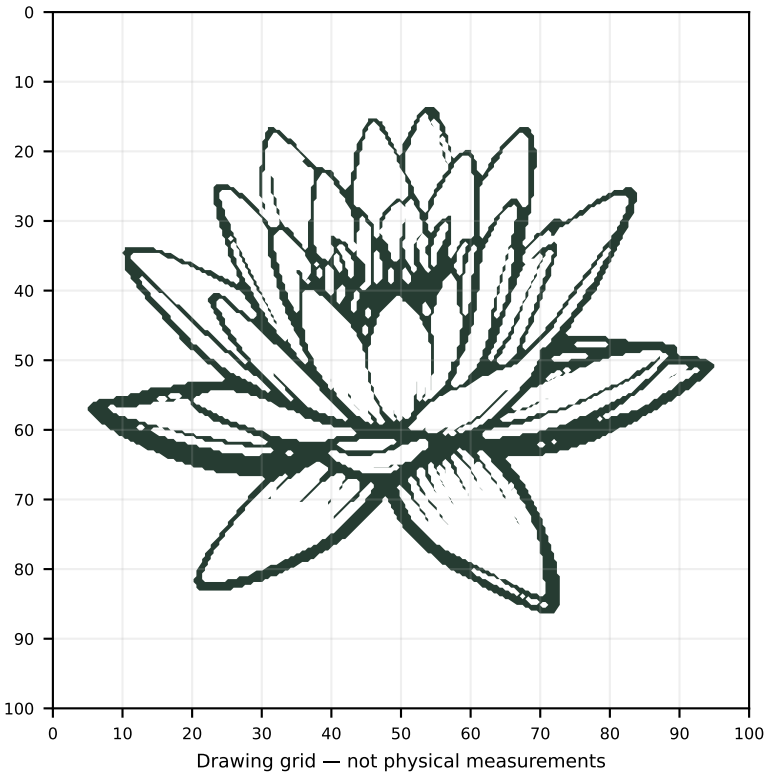

METHOD: Draw a small central oval to mark the stamen cluster. Add a ring of short pointed petals around the center, then layer progressively longer pointed petals outward. Draw broad rounded outer petals at the base, overlapping the inner layers. Add a rounded floating pad shape behind the flower and outline the petals with clean contour lines. Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

water lily: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

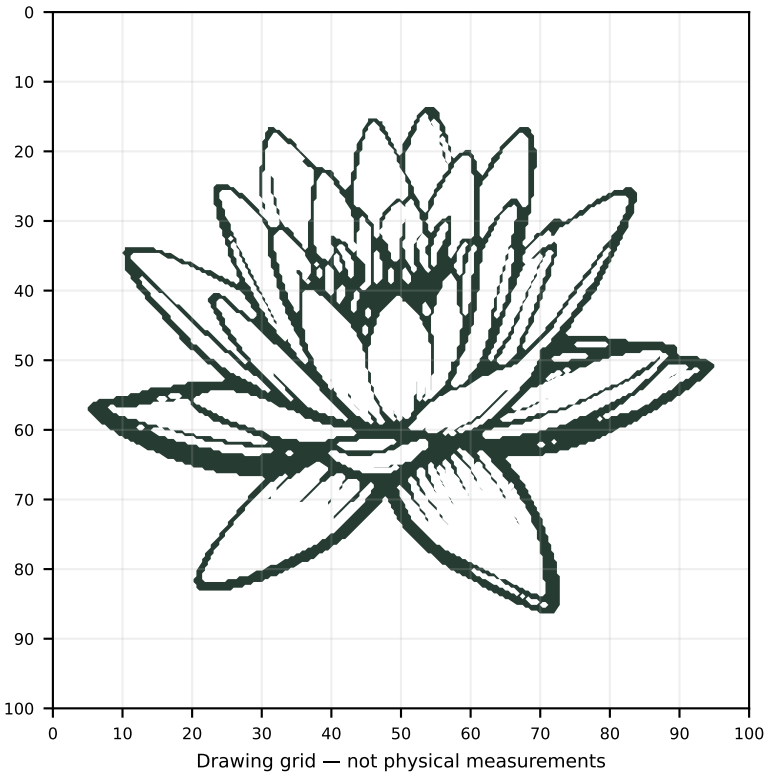

METHOD: Draw a small central oval to mark the stamen cluster. Add a ring of short pointed petals around the center, then layer progressively longer pointed petals outward. Draw broad rounded outer petals at the base, overlapping the inner layers. Add a rounded floating pad shape behind the flower and outline the petals with clean contour lines.
Use the separate practice sheet before checking the answer.

How to Draw Water Lily — Free Practice Sheets

REFERENCE / CASE 4

water lily: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a small central oval to mark the stamen cluster. Add a ring of short pointed petals around the center, then layer progressively longer pointed petals outward. Draw broad rounded outer petals at the base, overlapping the inner layers. Add a rounded floating pad shape behind the flower and outline the petals with clean contour lines.
Use the separate practice sheet before checking the answer.
