How to Draw Papaya Tree — Free Practice Sheets

REFERENCE / CASE 1

papaya tree: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

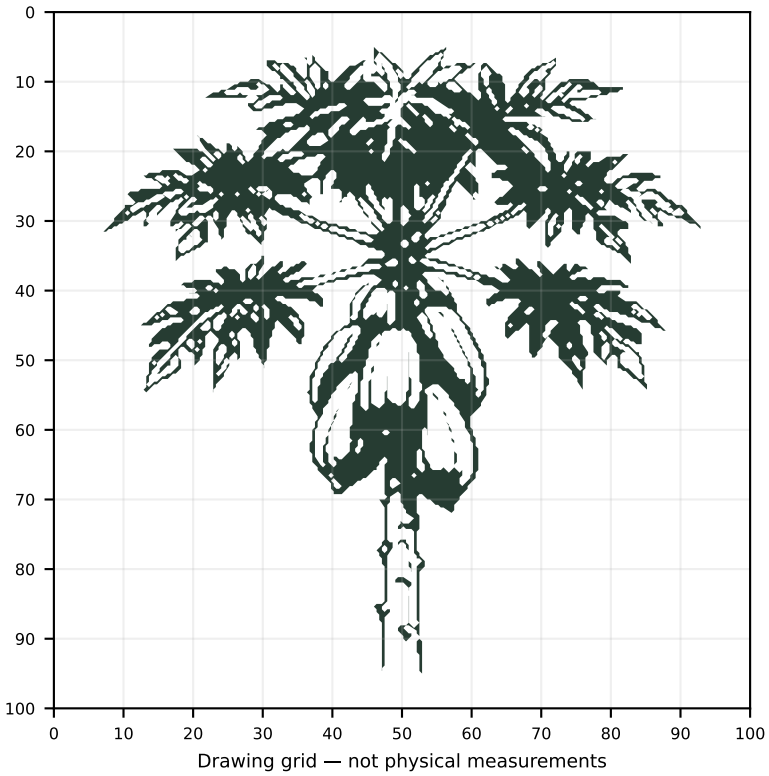

METHOD: Draw a single vertical trunk line with small horizontal scar marks along its length. At the top of the trunk, draw a central junction and radiate several long leaf stalks outward. Attach large palmate, deeply lobed leaf blades to the ends of the stalks. Below the leaf crown, draw a tight cluster of overlapping oval fruit attached to the upper trunk.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

papaya tree: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

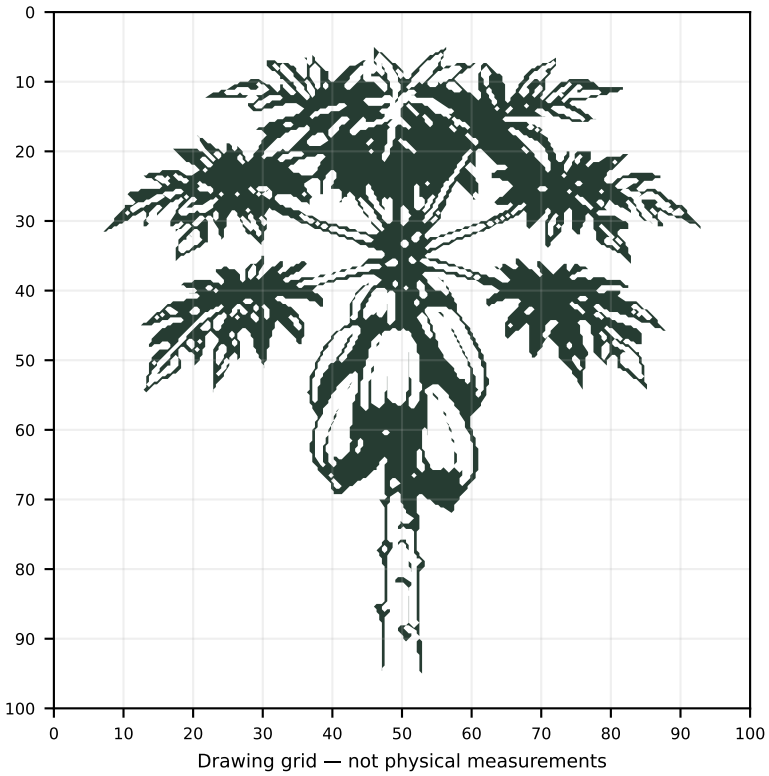

METHOD: Draw a single vertical trunk line with small horizontal scar marks along its length. At the top of the trunk, draw a central junction and radiate several long leaf stalks outward. Attach large palmate, deeply lobed leaf blades to the ends of the stalks. Below the leaf crown, draw a tight cluster of overlapping oval fruit attached to the upper trunk.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

papaya tree: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

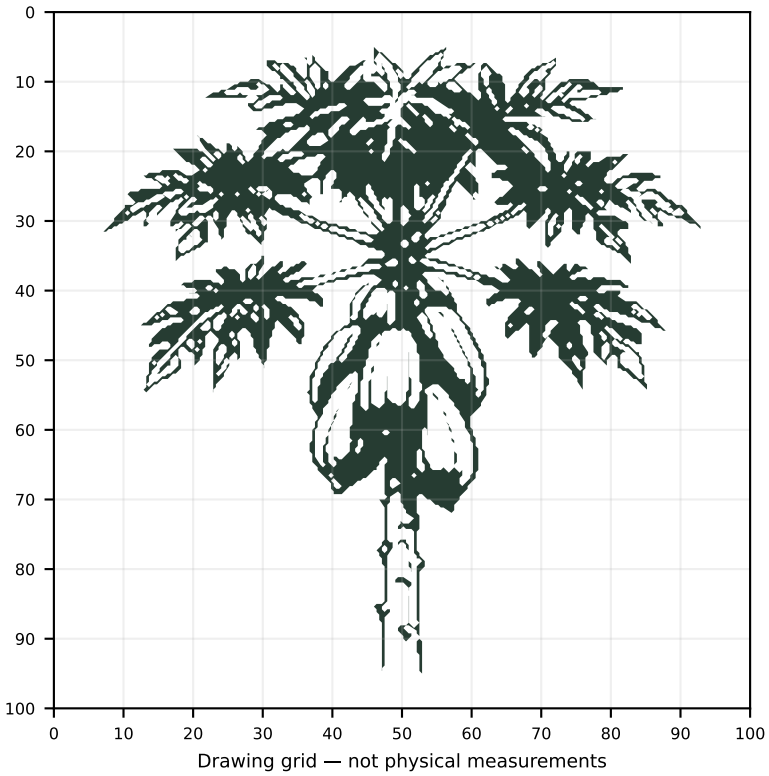

METHOD: Draw a single vertical trunk line with small horizontal scar marks along its length. At the top of the trunk, draw a central junction and radiate several long leaf stalks outward. Attach large palmate, deeply lobed leaf blades to the ends of the stalks. Below the leaf crown, draw a tight cluster of overlapping oval fruit attached to the upper trunk.
Use the separate practice sheet before checking the answer.
