How to Draw Bonsai — Free Practice Sheets

ANSWER / CASE 1

bonsai: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

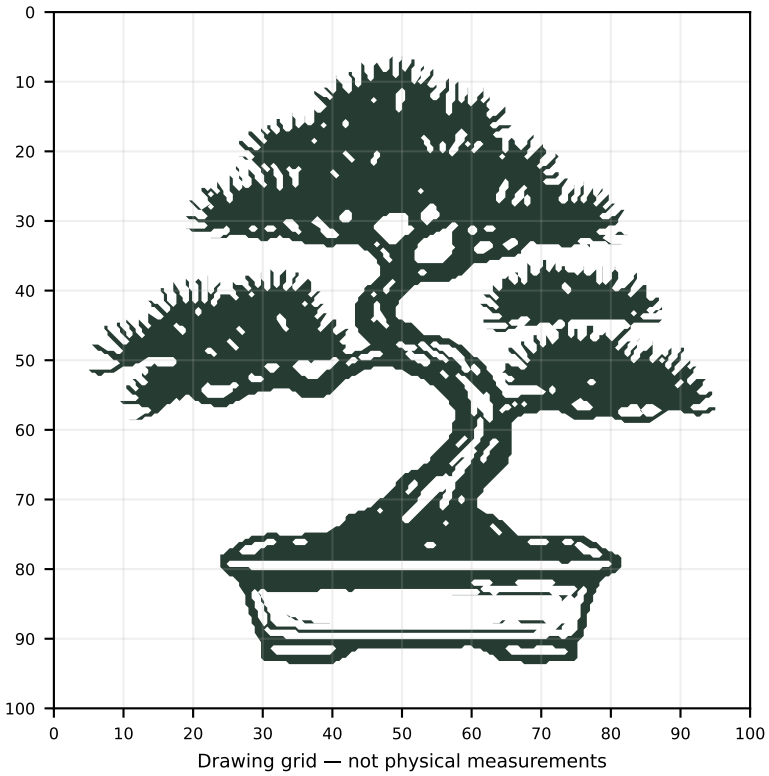

ANSWER: Example solution: preserve S-curved twisted trunk with visible bark texture lines, shallow rectangular pot with small feet, layered, fan-shaped pruned canopy pads. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the shallow rectangular pot with a rim and two small feet at the bottom.
2. Sketch the S-shaped trunk rising from the pot center, adding curved bark lines.
3. Add three main canopy pads: a large top pad, a left pad, and a right pad.
4. Fill each canopy pad with radiating needle strokes to create fan-like foliage clusters.

How to Draw Bonsai — Free Practice Sheets

ANSWER / CASE 2

bonsai: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

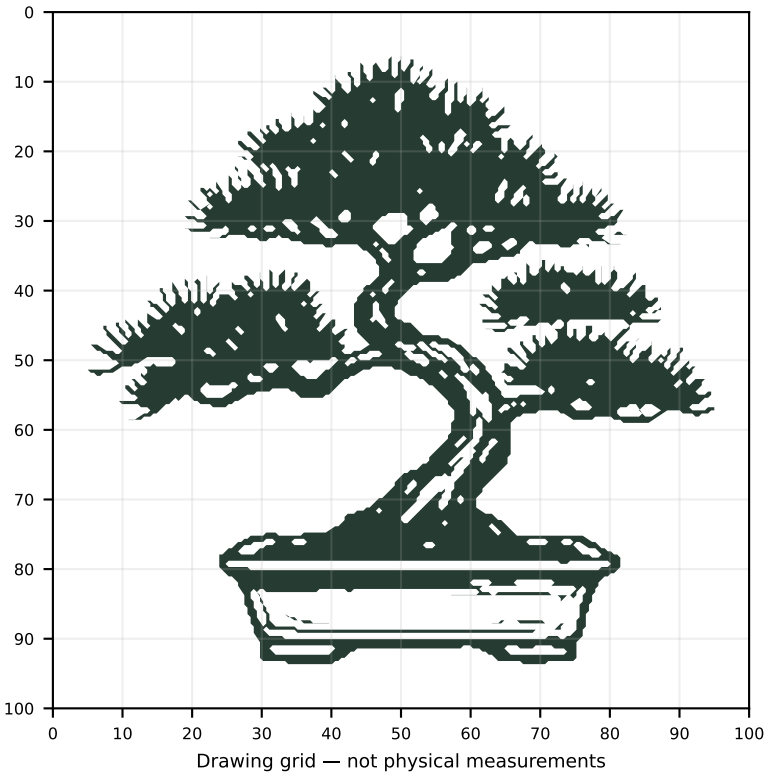

ANSWER: Example solution: preserve S-curved twisted trunk with visible bark texture lines, shallow rectangular pot with small feet, layered, fan-shaped pruned canopy pads. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the shallow rectangular pot with a rim and two small feet at the bottom.
2. Sketch the S-shaped trunk rising from the pot center, adding curved bark lines.
3. Add three main canopy pads: a large top pad, a left pad, and a right pad.
4. Fill each canopy pad with radiating needle strokes to create fan-like foliage clusters.

ANSWER / CASE 3

bonsai: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

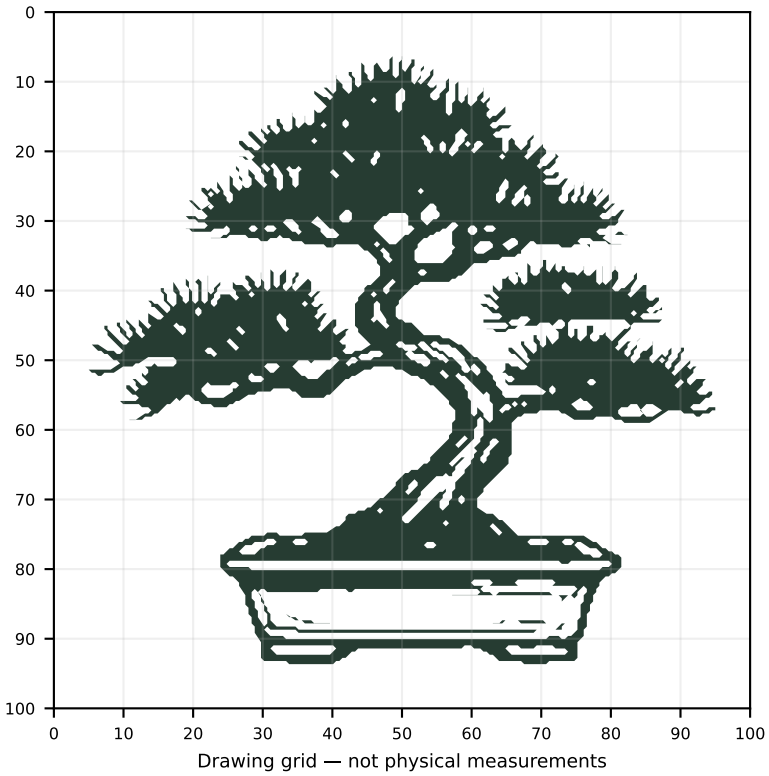

ANSWER: Example solution: preserve S-curved twisted trunk with visible bark texture lines, shallow rectangular pot with small feet, layered, fan-shaped pruned canopy pads. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the shallow rectangular pot with a rim and two small feet at the bottom.
2. Sketch the S-shaped trunk rising from the pot center, adding curved bark lines.
3. Add three main canopy pads: a large top pad, a left pad, and a right pad.
4. Fill each canopy pad with radiating needle strokes to create fan-like foliage clusters.

How to Draw Bonsai — Free Practice Sheets

ANSWER / CASE 4

bonsai: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve S-curved twisted trunk with visible bark texture lines, shallow rectangular pot with small feet, layered, fan-shaped pruned canopy pads. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the shallow rectangular pot with a rim and two small feet at the bottom.
2. Sketch the S-shaped trunk rising from the pot center, adding curved bark lines.
3. Add three main canopy pads: a large top pad, a left pad, and a right pad.
4. Fill each canopy pad with radiating needle strokes to create fan-like foliage clusters.
