How to Draw Peapod — Free Practice Sheets

REFERENCE / CASE 1

peapod: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

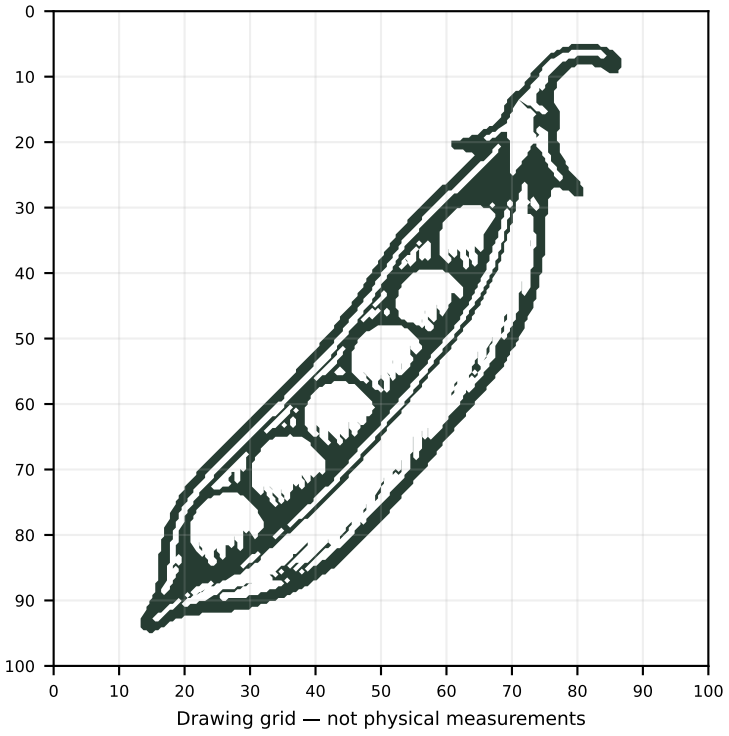

METHOD: Draw a long, gently curved pod outline with a pointed tip at the bottom and a stem/calyx at the top. Add a second inner curved line to define the pod wall and create the open seam. Place a row of round peas along the inside of the pod, following the curve. Add the stem/calyx at the top and simple line shading along the pod edges.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

peapod: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

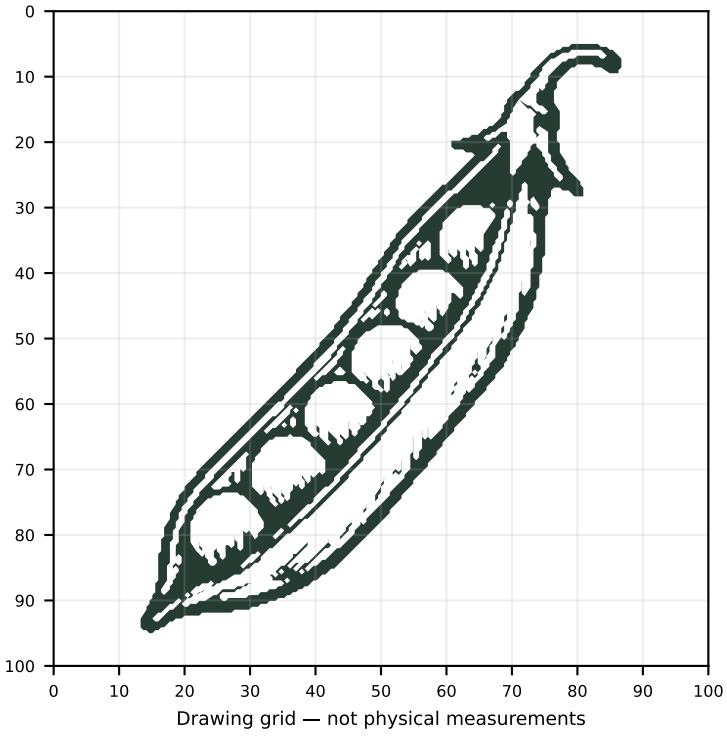

METHOD: Draw a long, gently curved pod outline with a pointed tip at the bottom and a stem/calyx at the top. Add a second inner curved line to define the pod wall and create the open seam. Place a row of round peas along the inside of the pod, following the curve. Add the stem/calyx at the top and simple line shading along the pod edges.
Use the separate practice sheet before checking the answer.
