How to Draw Alfalfa — Free Practice Sheets

ANSWER / CASE 1

alfalfa: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

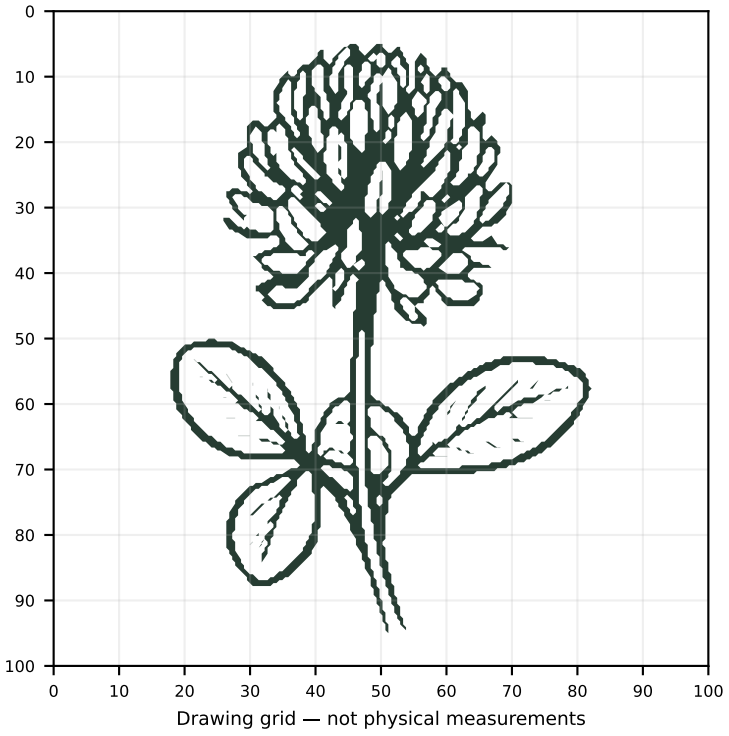

ANSWER: Example solution: preserve clover-like trifoliate leaves with oval leaflets, dense rounded cluster of small overlapping petals at the top, thin stems with a central flower stalk and leaf petioles. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a thin central vertical stem for the flower stalk.
2. At the top, build a rounded cluster by layering many small overlapping petal shapes.
3. Attach three oval leaflets to short petioles on the lower stem to form the trifoliate leaf.
4. Add simple vein lines inside each leaflet and finish the stem lines down to the base.

How to Draw Alfalfa — Free Practice Sheets

ANSWER / CASE 2

alfalfa: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

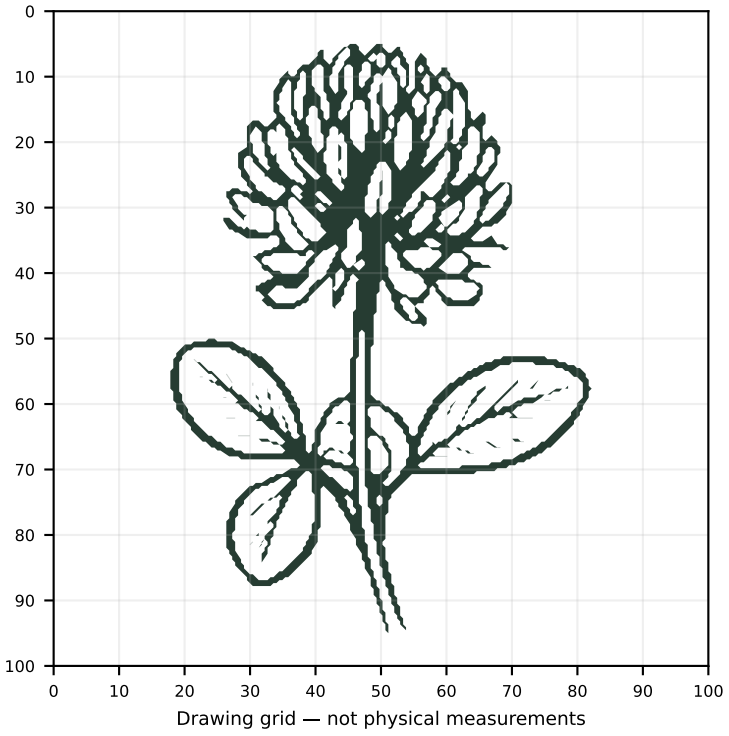

ANSWER: Example solution: preserve clover-like trifoliate leaves with oval leaflets, dense rounded cluster of small overlapping petals at the top, thin stems with a central flower stalk and leaf petioles. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a thin central vertical stem for the flower stalk.
2. At the top, build a rounded cluster by layering many small overlapping petal shapes.
3. Attach three oval leaflets to short petioles on the lower stem to form the trifoliate leaf.
4. Add simple vein lines inside each leaflet and finish the stem lines down to the base.

ANSWER / CASE 3

alfalfa: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

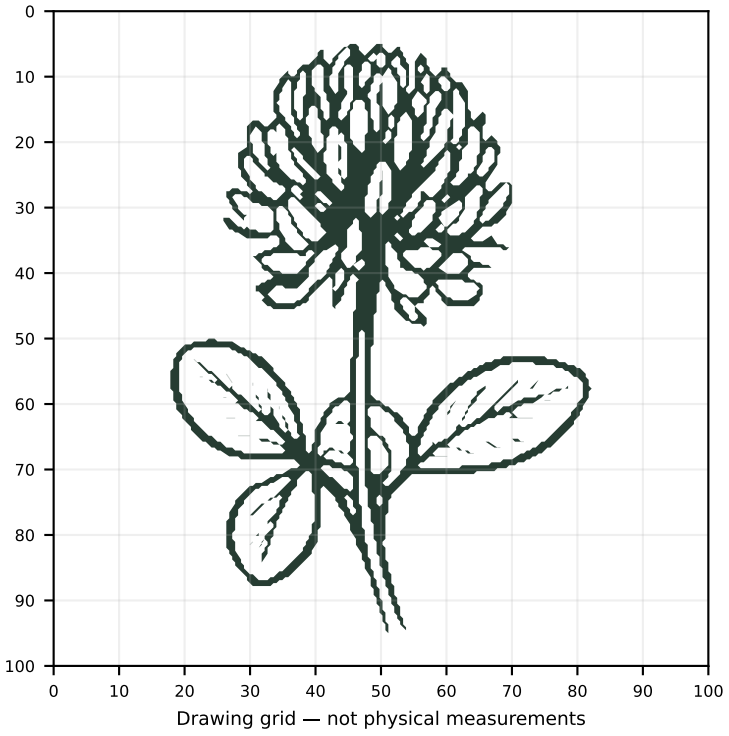

ANSWER: Example solution: preserve clover-like trifoliate leaves with oval leaflets, dense rounded cluster of small overlapping petals at the top, thin stems with a central flower stalk and leaf petioles. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a thin central vertical stem for the flower stalk.
2. At the top, build a rounded cluster by layering many small overlapping petal shapes.
3. Attach three oval leaflets to short petioles on the lower stem to form the trifoliate leaf.
4. Add simple vein lines inside each leaflet and finish the stem lines down to the base.

How to Draw Alfalfa — Free Practice Sheets

ANSWER / CASE 4

alfalfa: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve clover-like trifoliate leaves with oval leaflets, dense rounded cluster of small overlapping petals at the top, thin stems with a central flower stalk and leaf petioles. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a thin central vertical stem for the flower stalk.
2. At the top, build a rounded cluster by layering many small overlapping petal shapes.
3. Attach three oval leaflets to short petioles on the lower stem to form the trifoliate leaf.
4. Add simple vein lines inside each leaflet and finish the stem lines down to the base.
