How to Draw Maple Tree — Free Practice Sheets

REFERENCE / CASE 1

maple tree: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

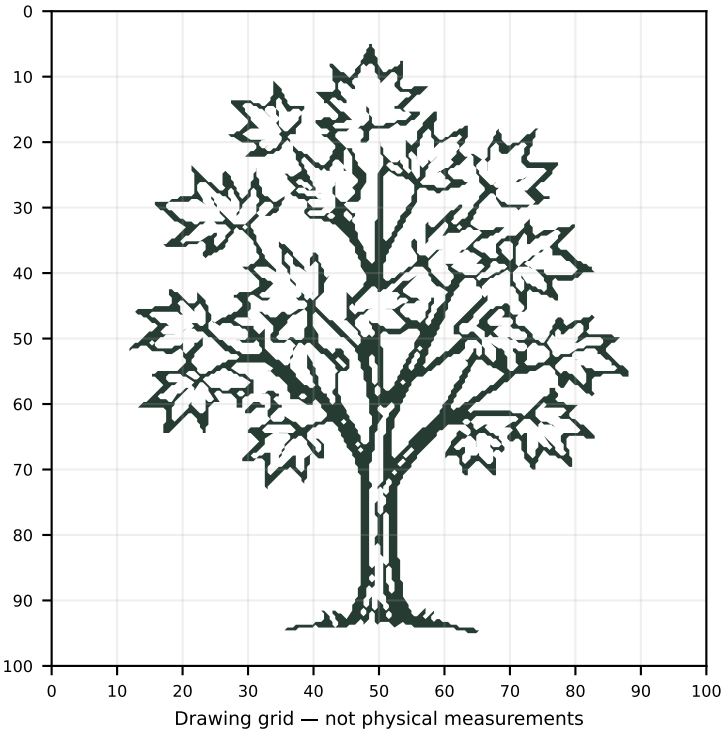

METHOD: Draw a short vertical trunk with slight flare at the base and a few ground lines. Split the trunk into several main branches that fan upward and outward. Attach star-shaped lobed leaves along and at the ends of the branches to build a rounded canopy. Add a few interior leaf outlines and branch lines to suggest depth while keeping the silhouette clean.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

maple tree: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

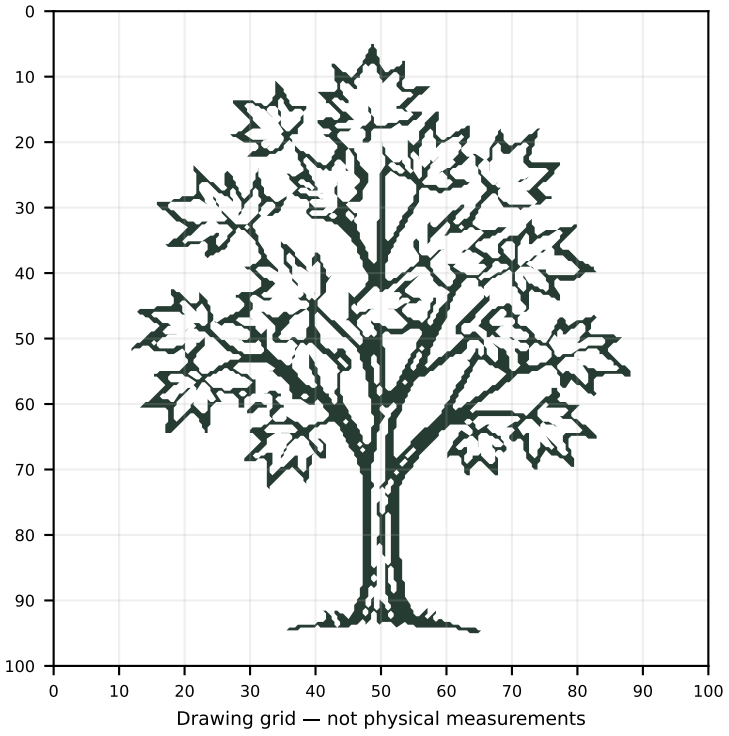

METHOD: Draw a short vertical trunk with slight flare at the base and a few ground lines. Split the trunk into several main branches that fan upward and outward. Attach star-shaped lobed leaves along and at the ends of the branches to build a rounded canopy. Add a few interior leaf outlines and branch lines to suggest depth while keeping the silhouette clean.
Use the separate practice sheet before checking the answer.

How to Draw Maple Tree — Free Practice Sheets

REFERENCE / CASE 4

maple tree: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a short vertical trunk with slight flare at the base and a few ground lines. Split the trunk into several main branches that fan upward and outward. Attach star-shaped lobed leaves along and at the ends of the branches to build a rounded canopy. Add a few interior leaf outlines and branch lines to suggest depth while keeping the silhouette clean.
Use the separate practice sheet before checking the answer.
