How to Draw Tulip — Free Practice Sheets

ANSWER / CASE 1

tulip: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

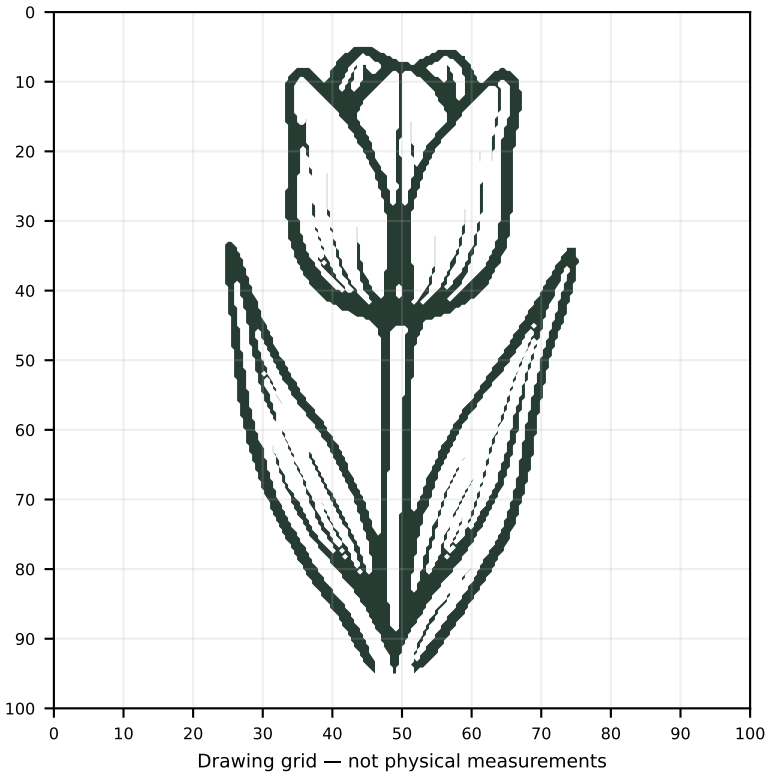

ANSWER: Example solution: preserve cup-shaped bloom with three visible petal lobes, long straight vertical stem, two long pointed leaves attached at the base of the stem. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a vertical center line for the stem.
2. At the top, sketch a cup-shaped outline with three rounded petal lobes meeting at the top center.
3. Add two long, pointed leaves that curve upward from the base of the stem, one on each side.
4. Outline the stem and leaves with clean lines, then add simple interior petal and leaf vein lines.
