How to Draw Spinach Leaf — Free Practice Sheets

ANSWER / CASE 1

spinach leaf: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

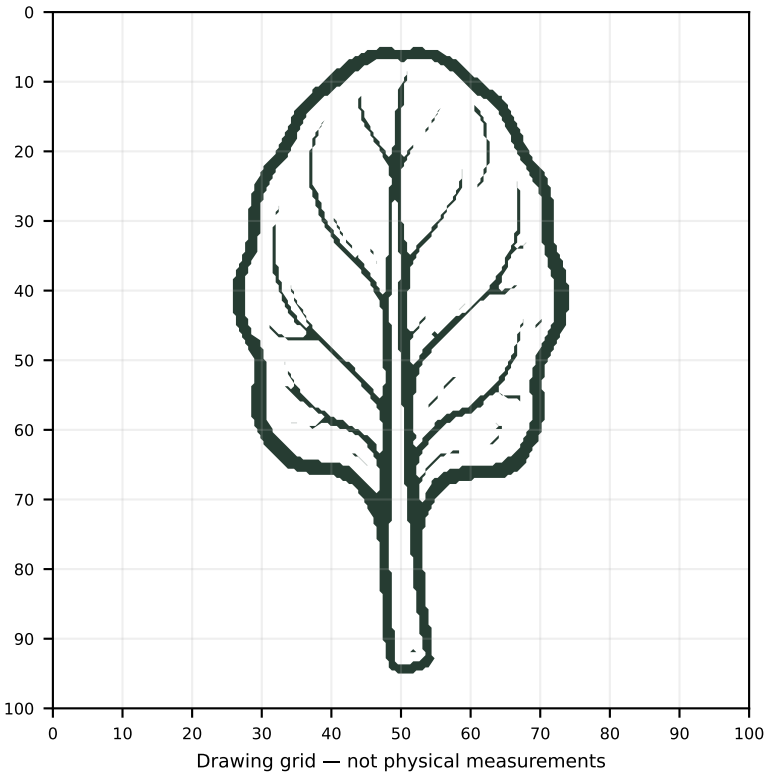

ANSWER: Example solution: preserve rounded lobed leaf outline with wavy margins, central vein network branching from a prominent midrib, tapered stem extending from the leaf base. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a vertical tapered stem at the bottom center.
2. Outline a rounded, wavy-edged leaf blade around the top of the stem.
3. Add a strong central midrib running from the stem up through the blade.
4. Draw curved side veins branching outward from the midrib toward the leaf edges.

How to Draw Spinach Leaf — Free Practice Sheets

ANSWER / CASE 2

spinach leaf: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

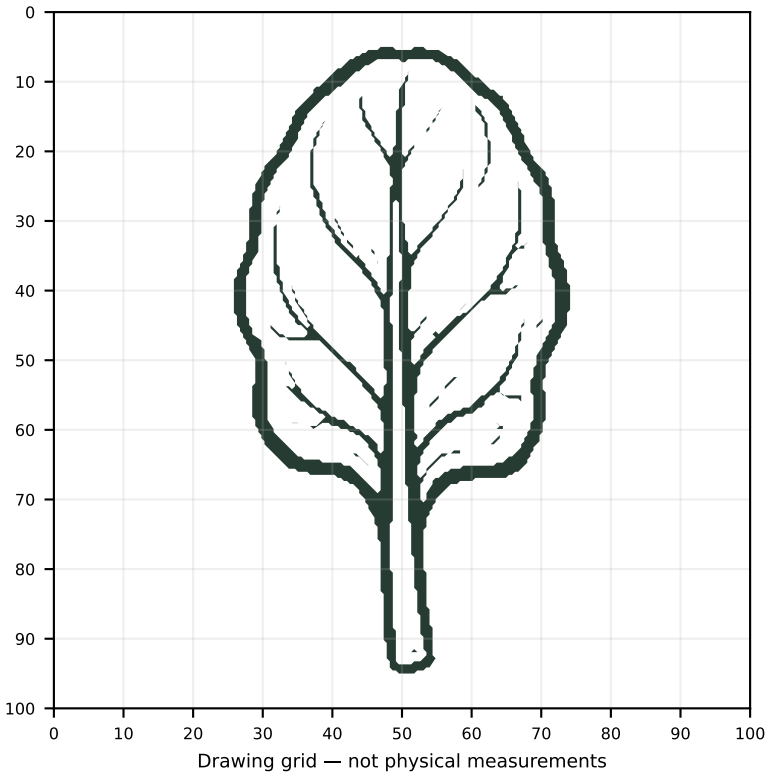

ANSWER: Example solution: preserve rounded lobed leaf outline with wavy margins, central vein network branching from a prominent midrib, tapered stem extending from the leaf base. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a vertical tapered stem at the bottom center.
2. Outline a rounded, wavy-edged leaf blade around the top of the stem.
3. Add a strong central midrib running from the stem up through the blade.
4. Draw curved side veins branching outward from the midrib toward the leaf edges.

How to Draw Spinach Leaf — Free Practice Sheets

ANSWER / CASE 3

spinach leaf: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

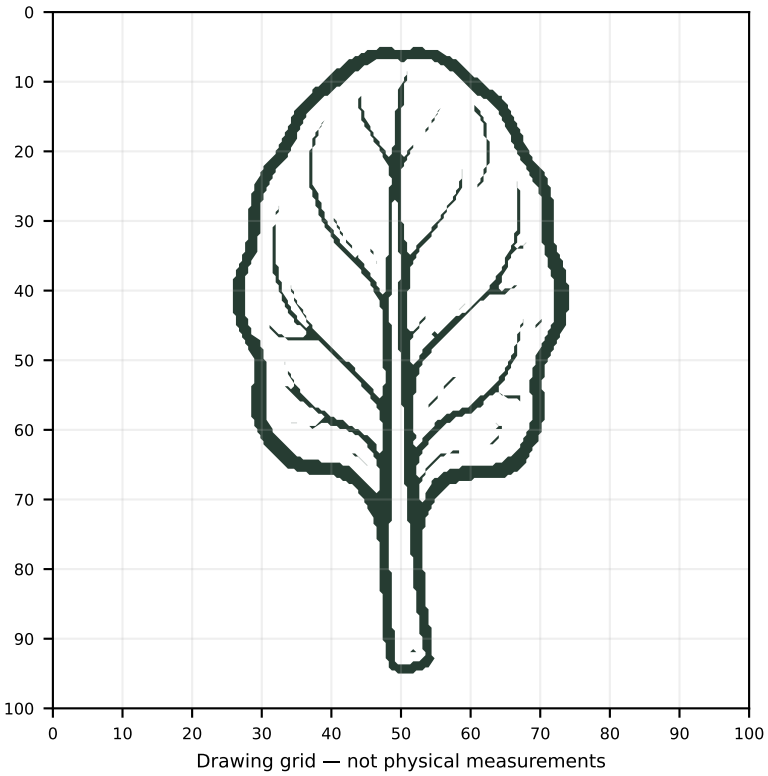

ANSWER: Example solution: preserve rounded lobed leaf outline with wavy margins, central vein network branching from a prominent midrib, tapered stem extending from the leaf base. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a vertical tapered stem at the bottom center.
2. Outline a rounded, wavy-edged leaf blade around the top of the stem.
3. Add a strong central midrib running from the stem up through the blade.
4. Draw curved side veins branching outward from the midrib toward the leaf edges.

How to Draw Spinach Leaf — Free Practice Sheets

ANSWER / CASE 4

spinach leaf: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve rounded lobed leaf outline with wavy margins, central vein network branching from a prominent midrib, tapered stem extending from the leaf base. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a vertical tapered stem at the bottom center.
2. Outline a rounded, wavy-edged leaf blade around the top of the stem.
3. Add a strong central midrib running from the stem up through the blade.
4. Draw curved side veins branching outward from the midrib toward the leaf edges.
