How to Draw Maple Leaf — Free Practice Sheets

REFERENCE / CASE 1

maple leaf: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

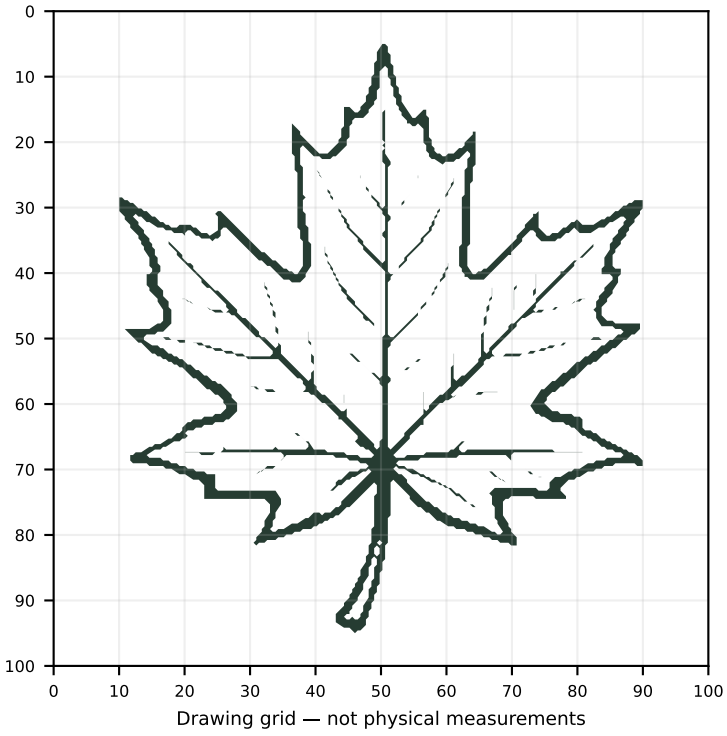

METHOD: Draw a long curved stem at the bottom center. From the top of the stem, draw five main veins radiating outward in a palmate pattern. Outline each lobe around the veins with pointed tips and serrated edges. Add secondary vein lines branching from the main veins inside each lobe.
Use the separate practice sheet before checking the answer.
