How to Draw Rapeseed — Free Practice Sheets

REFERENCE / CASE 1

rapeseed: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

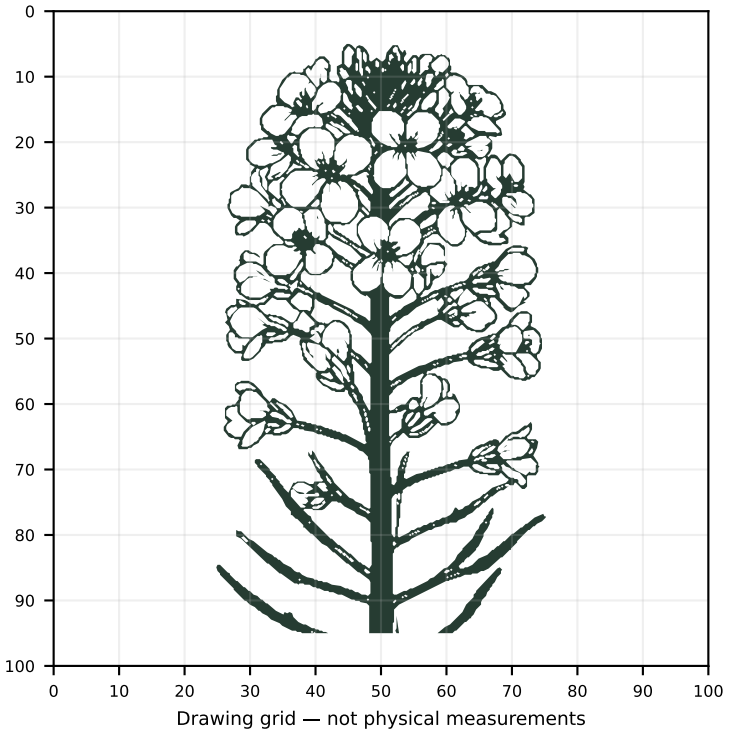

METHOD: Draw a central vertical axis from the base to the top of the composition. Add alternating lateral branches along the upper two-thirds of the stem, decreasing in length toward the apex. Place four-petaled flower outlines in a dense cluster at the top and along the upper branches. Add long, narrow leaf outlines at the base and lower stem, angled downward and outward.
Use the separate practice sheet before checking the answer.

How to Draw Rapeseed — Free Practice Sheets

REFERENCE / CASE 2

rapeseed: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

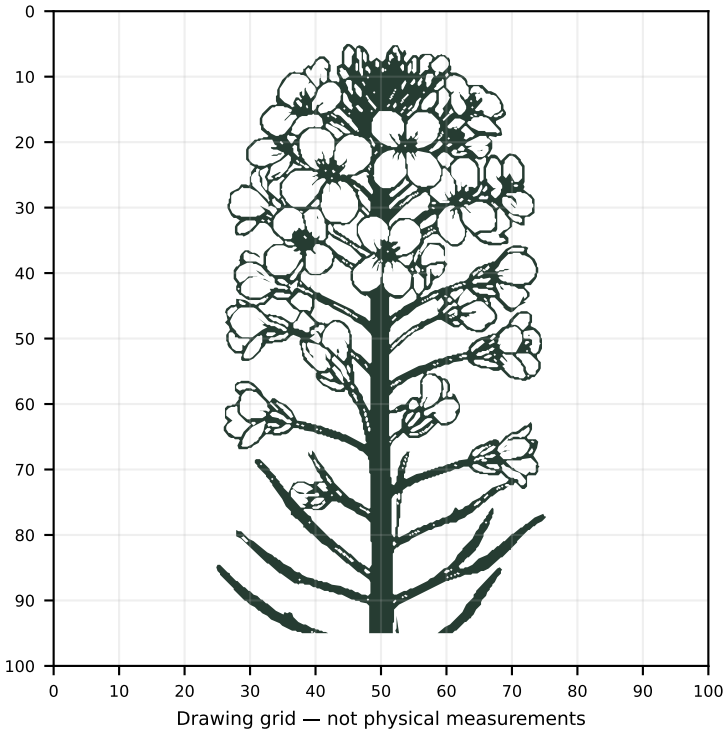

METHOD: Draw a central vertical axis from the base to the top of the composition. Add alternating lateral branches along the upper two-thirds of the stem, decreasing in length toward the apex. Place four-petaled flower outlines in a dense cluster at the top and along the upper branches. Add long, narrow leaf outlines at the base and lower stem, angled downward and outward.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

rapeseed: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

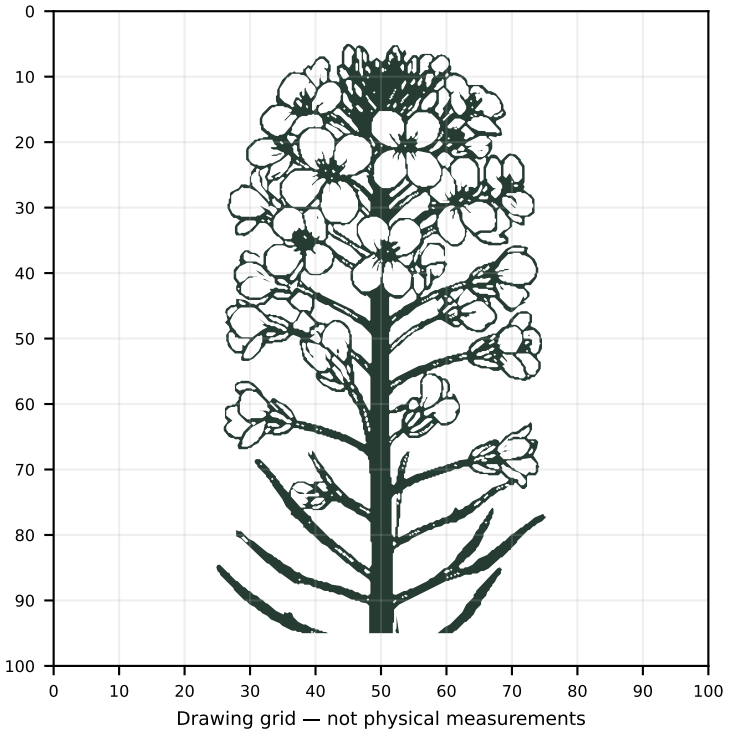

METHOD: Draw a central vertical axis from the base to the top of the composition. Add alternating lateral branches along the upper two-thirds of the stem, decreasing in length toward the apex. Place four-petaled flower outlines in a dense cluster at the top and along the upper branches. Add long, narrow leaf outlines at the base and lower stem, angled downward and outward.
Use the separate practice sheet before checking the answer.

How to Draw Rapeseed — Free Practice Sheets

REFERENCE / CASE 4

rapeseed: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a central vertical axis from the base to the top of the composition. Add alternating lateral branches along the upper two-thirds of the stem, decreasing in length toward the apex. Place four-petaled flower outlines in a dense cluster at the top and along the upper branches. Add long, narrow leaf outlines at the base and lower stem, angled downward and outward.
Use the separate practice sheet before checking the answer.
