How to Draw Daisy — Free Practice Sheets

ANSWER / CASE 1

daisy: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

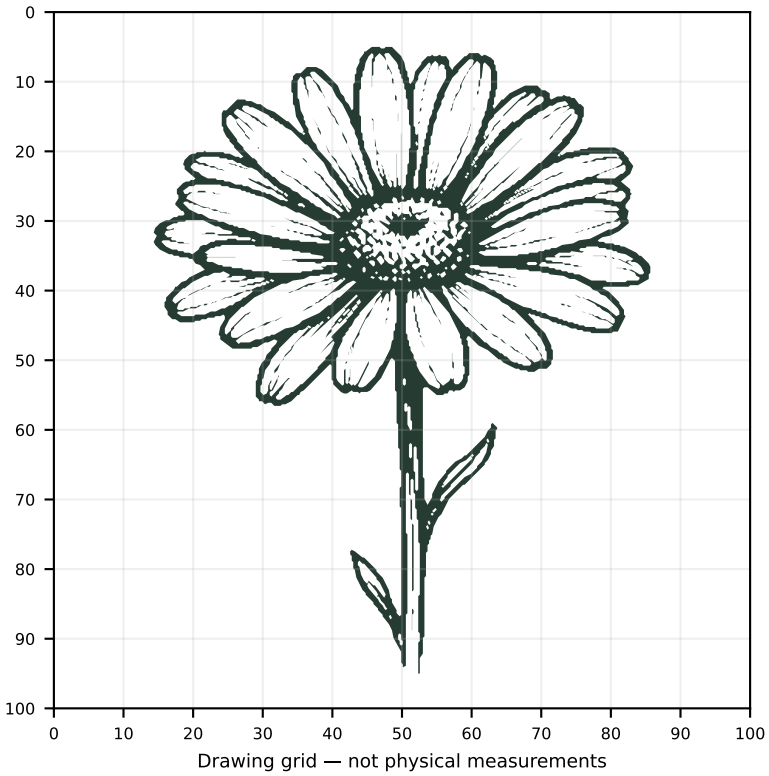

ANSWER: Example solution: preserve radiating petals arranged in a full ring around the center, central disk with a textured dotted surface, thin straight stem with two small leaves. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a small circle for the central disk.
2. Draw elongated petals radiating outward from the disk, overlapping slightly.
3. Add a thin vertical stem extending down from the flower head.
4. Attach two small pointed leaves to the stem and add texture dots to the central disk.
