How to Draw Lotus Flower — Free Practice Sheets

REFERENCE / CASE 1

lotus flower: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

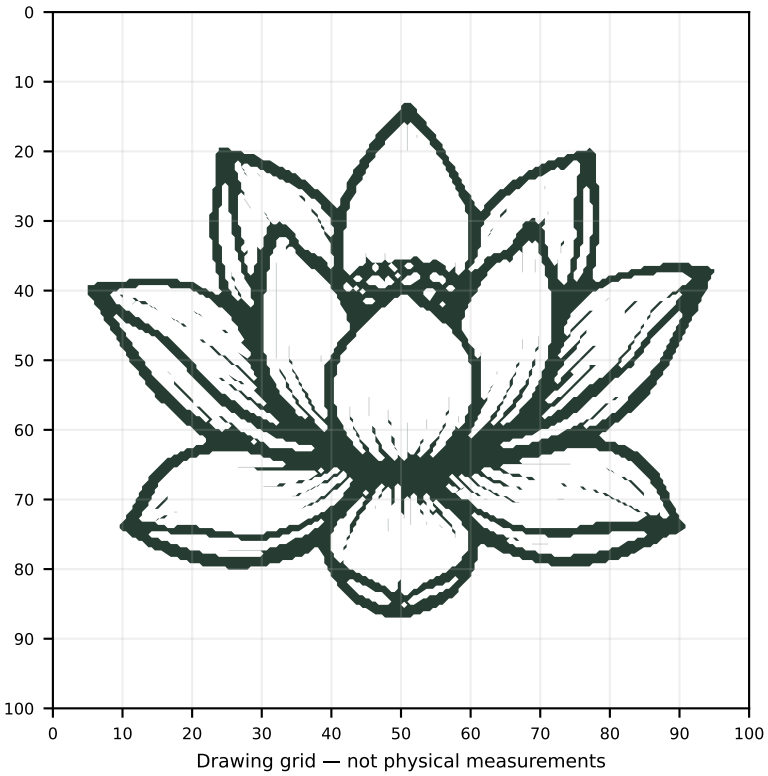

METHOD: Draw a small central oval or cluster of tiny circles to represent the seed pod. Draw the innermost ring of pointed petals radiating outward from the seed pod, overlapping at their bases. Add successive outer layers of larger, wider pointed petals, offsetting each layer to create radial symmetry. Outline the full silhouette with a bold contour and add interior vein lines running from petal base to tip.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

lotus flower: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.
