How to Draw Wisteria — Free Practice Sheets

ANSWER / CASE 1

wisteria: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

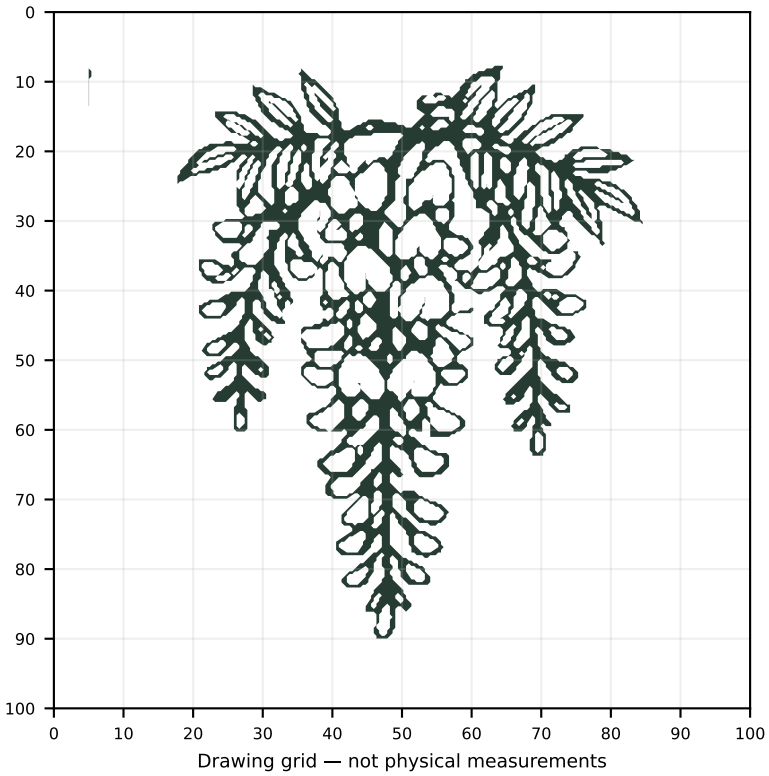

ANSWER: Example solution: preserve Three long drooping racemes of overlapping pea-like blossoms hanging downward, Pinnate compound leaves with many small oval leaflets arranged along stems, Curving twining vine stems connecting the flower clusters and foliage. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.

1. Draw a central curving vine stem with two side branches arching outward and downward.
2. Along each branch, sketch a long teardrop-shaped raceme outline that tapers toward the bottom.
3. Fill each raceme with rows of small overlapping blossom shapes, using simple oval/petal forms.
4. Add pinnate leaves by drawing a midrib and attaching paired small oval leaflets along the upper stems.
