How to Draw Car — Free Practice Sheets

REFERENCE / CASE 1

car: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

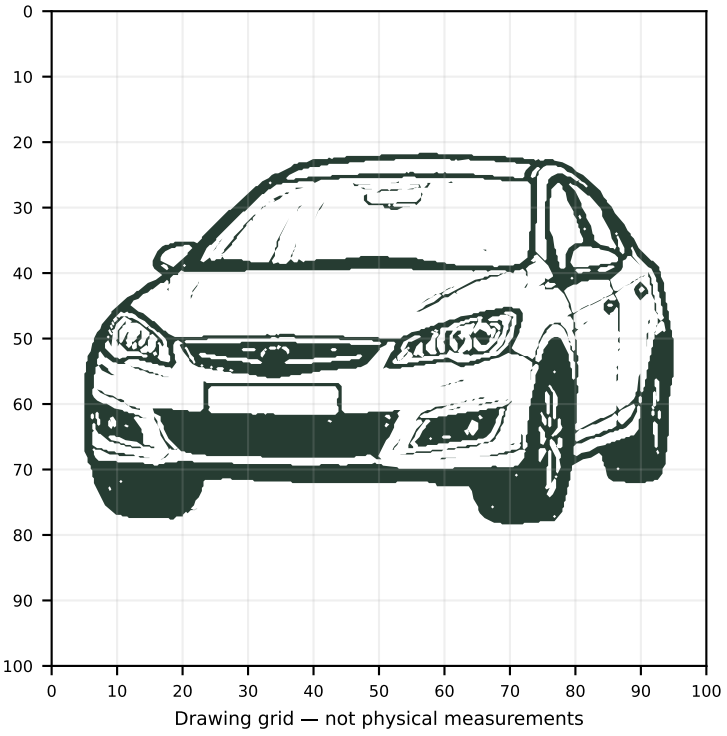

METHOD: Block in the broad front face and the side plane that recedes toward the rear; do not make this three-quarter view mirror-symmetrical. Place the two visible wheels along the near side, making the farther rear wheel smaller. Add the sloping hood, windshield and receding side-window shapes. Place headlights and a grille on the front face, then add mirrors and side-door contours.
Use the separate practice sheet before checking the answer.

How to Draw Car — Free Practice Sheets

REFERENCE / CASE 2

car: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

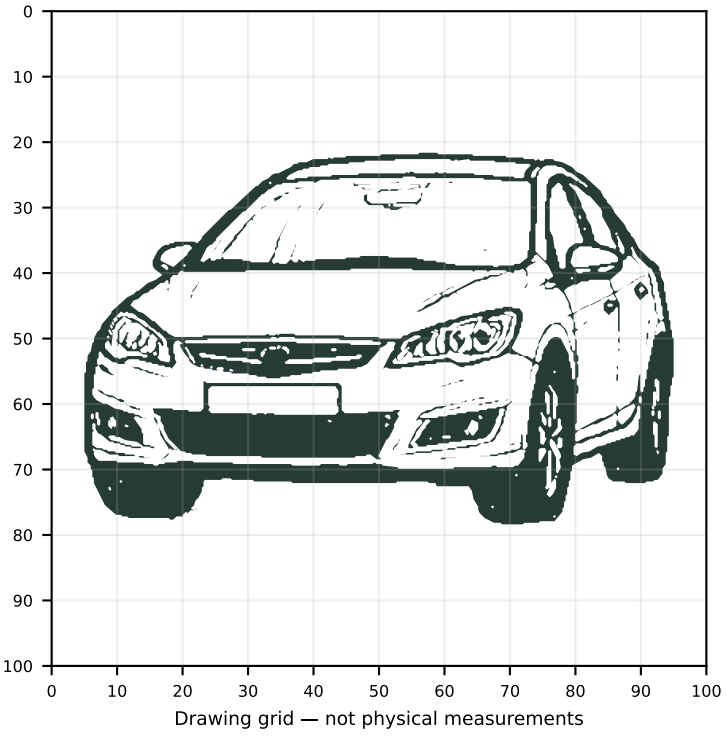

METHOD: Block in the broad front face and the side plane that recedes toward the rear; do not make this three-quarter view mirror-symmetrical. Place the two visible wheels along the near side, making the farther rear wheel smaller. Add the sloping hood, windshield and receding side-window shapes. Place headlights and a grille on the front face, then add mirrors and side-door contours.
Use the separate practice sheet before checking the answer.

How to Draw Car — Free Practice Sheets

REFERENCE / CASE 3

car: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

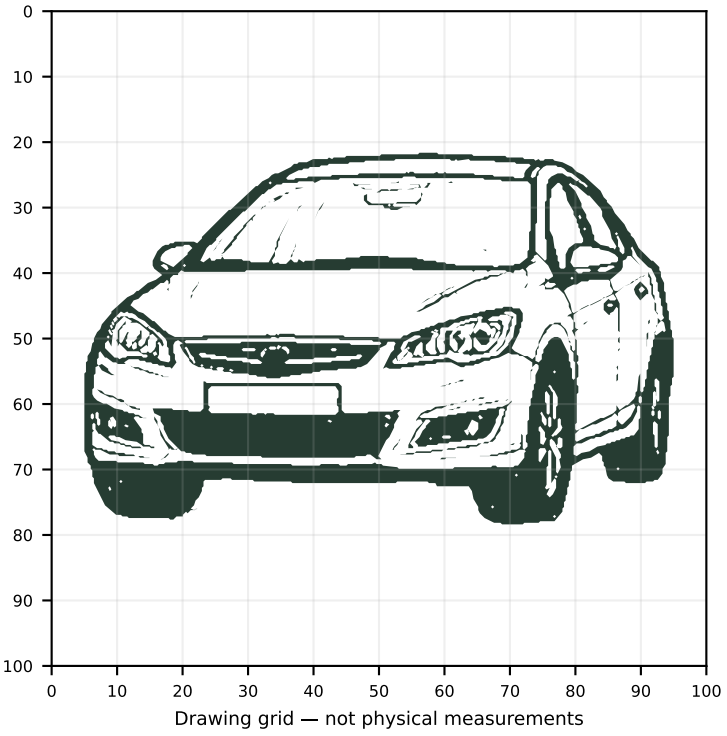

Drawing grid — not physical measurements

METHOD: Block in the broad front face and the side plane that recedes toward the rear; do not make this three-quarter view mirror-symmetrical. Place the two visible wheels along the near side, making the farther rear wheel smaller. Add the sloping hood, windshield and receding side-window shapes. Place headlights and a grille on the front face, then add mirrors and side-door contours.
Use the separate practice sheet before checking the answer.

How to Draw Car — Free Practice Sheets

REFERENCE / CASE 4

car: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Block in the broad front face and the side plane that recedes toward the rear; do not make this three-quarter view mirror-symmetrical. Place the two visible wheels along the near side, making the farther rear wheel smaller. Add the sloping hood, windshield and receding side-window shapes. Place headlights and a grille on the front face, then add mirrors and side-door contours.
Use the separate practice sheet before checking the answer.
