How to Draw Wagon — Free Practice Sheets

ANSWER / CASE 1

wagon: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

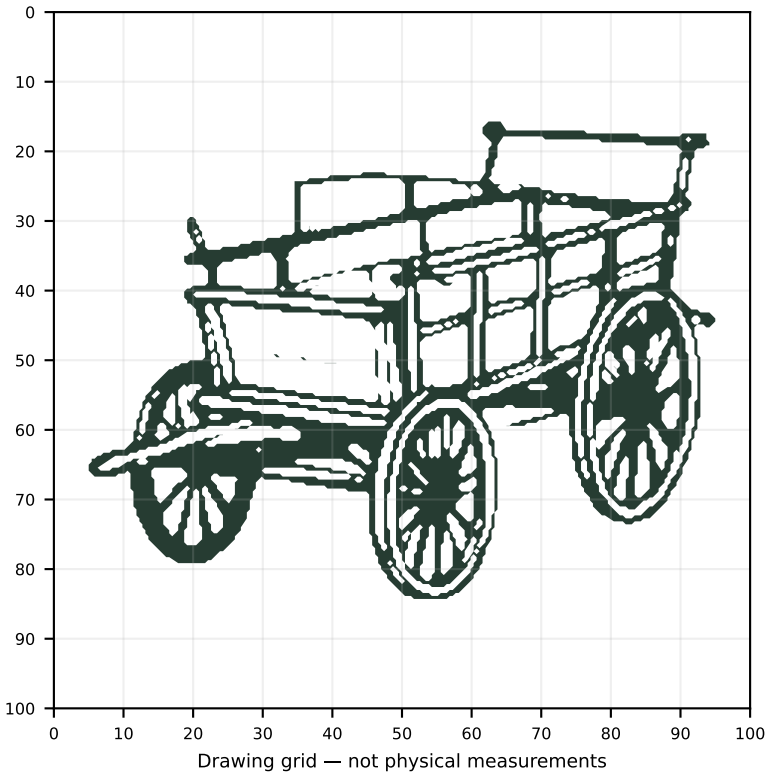

ANSWER: Example solution: preserve four spoked wheels, rectangular slatted bed, pull handle/shaft extending from front. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the rectangular wagon bed with vertical side slats and a raised back rail.
2. Add four circular wheels with radiating spokes, positioning the rear pair larger and the front pair smaller.
3. Attach the long pull handle/shaft to the front axle area, extending forward and slightly down.
4. Connect the bed to the wheels with axle lines and support beams, then outline the full silhouette.

How to Draw Wagon — Free Practice Sheets

ANSWER / CASE 2

wagon: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

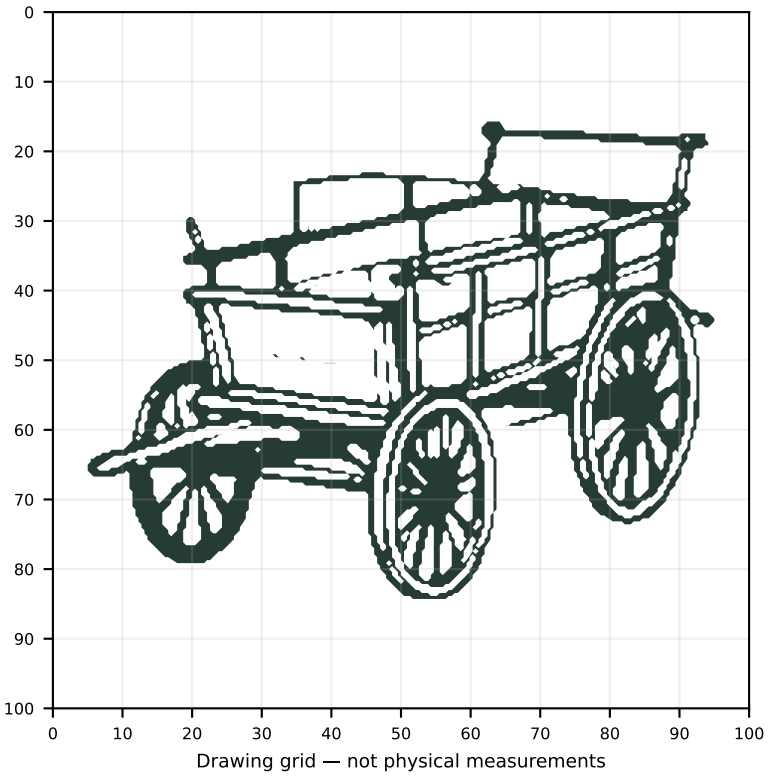

ANSWER: Example solution: preserve four spoked wheels, rectangular slatted bed, pull handle/shaft extending from front. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the rectangular wagon bed with vertical side slats and a raised back rail.
2. Add four circular wheels with radiating spokes, positioning the rear pair larger and the front pair smaller.
3. Attach the long pull handle/shaft to the front axle area, extending forward and slightly down.
4. Connect the bed to the wheels with axle lines and support beams, then outline the full silhouette.

How to Draw Wagon — Free Practice Sheets

ANSWER / CASE 3

wagon: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

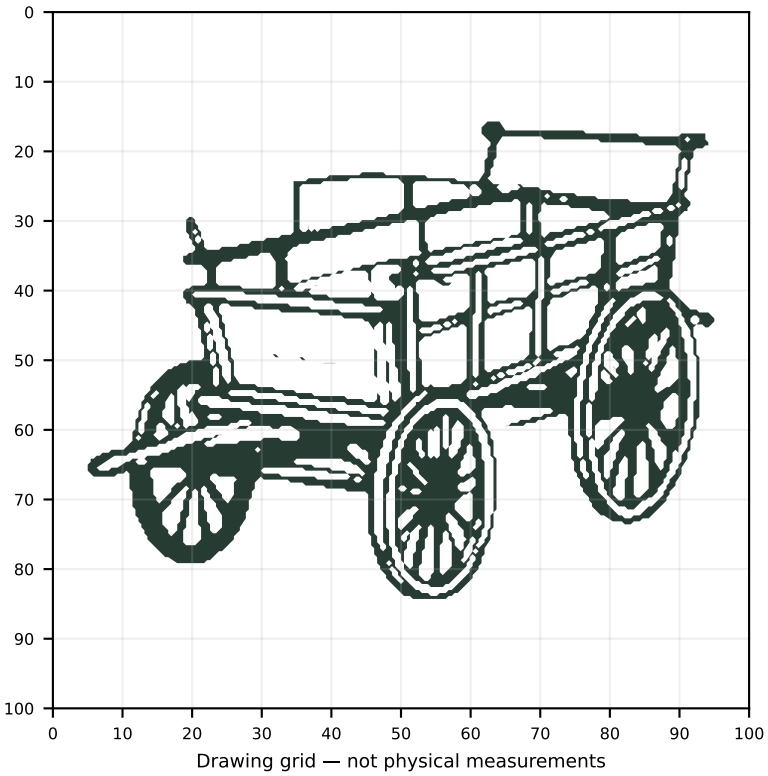

ANSWER: Example solution: preserve four spoked wheels, rectangular slatted bed, pull handle/shaft extending from front. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the rectangular wagon bed with vertical side slats and a raised back rail.
2. Add four circular wheels with radiating spokes, positioning the rear pair larger and the front pair smaller.
3. Attach the long pull handle/shaft to the front axle area, extending forward and slightly down.
4. Connect the bed to the wheels with axle lines and support beams, then outline the full silhouette.

How to Draw Wagon — Free Practice Sheets

ANSWER / CASE 4

wagon: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve four spoked wheels, rectangular slatted bed, pull handle/shaft extending from front. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the rectangular wagon bed with vertical side slats and a raised back rail.
2. Add four circular wheels with radiating spokes, positioning the rear pair larger and the front pair smaller.
3. Attach the long pull handle/shaft to the front axle area, extending forward and slightly down.
4. Connect the bed to the wheels with axle lines and support beams, then outline the full silhouette.
