# How to Draw Kayak — Free Practice Sheets

**REFERENCE / CASE 1**

kayak: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

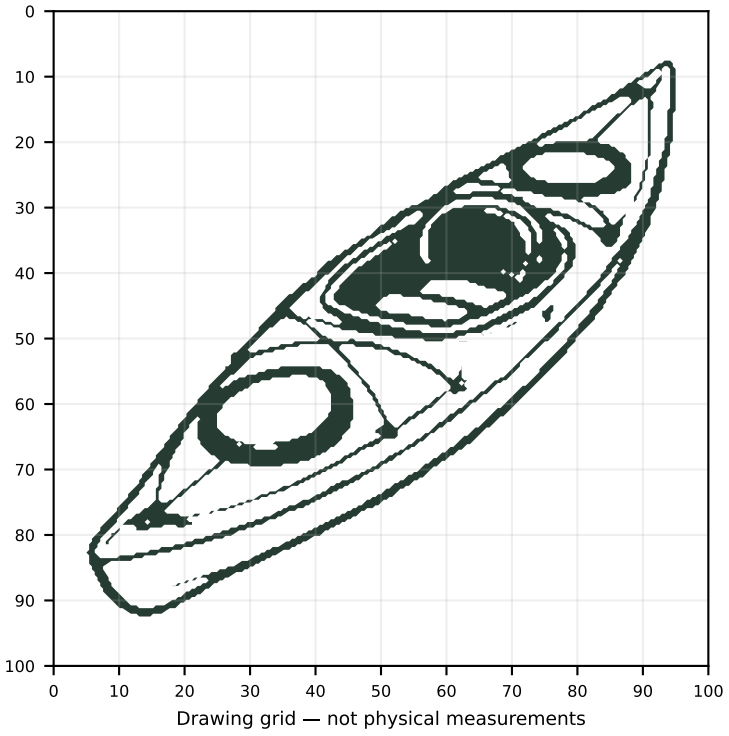

METHOD: Draw a long, narrow pointed oval outline for the hull, tapering to sharp points at both ends. Add the central cockpit opening as a rounded rectangular recess with an inner seat and backrest shape. Draw two circular hatch outlines on the deck, one near the bow and one near the stern. Add deck rigging lines (bungee cords) crossing the hull between the cockpit and hatches, then outline the hull edge for thickness.
Use the separate practice sheet before checking the answer.

# How to Draw Kayak — Free Practice Sheets

**REFERENCE / CASE 2**

kayak: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

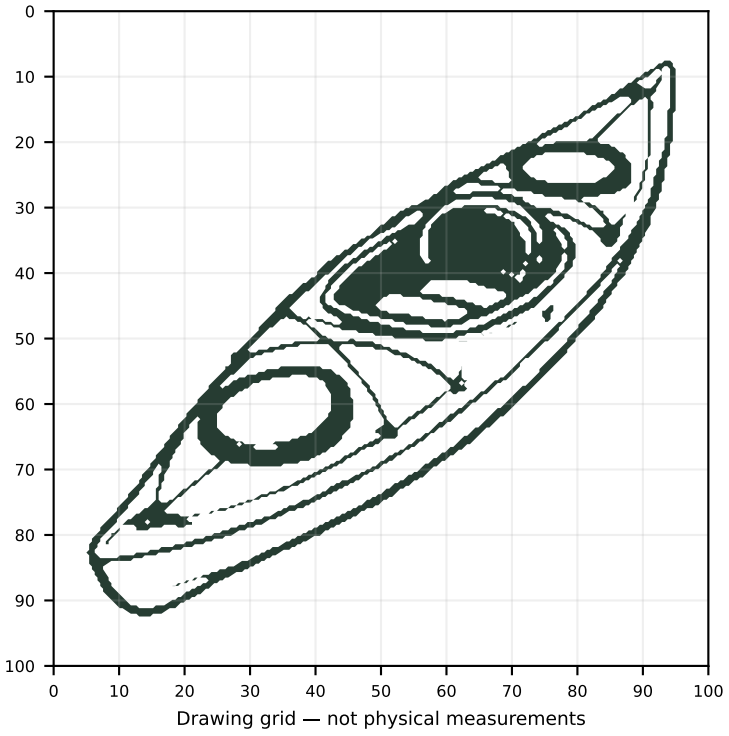

METHOD: Draw a long, narrow pointed oval outline for the hull, tapering to sharp points at both ends. Add the central cockpit opening as a rounded rectangular recess with an inner seat and backrest shape. Draw two circular hatch outlines on the deck, one near the bow and one near the stern. Add deck rigging lines (bungee cords) crossing the hull between the cockpit and hatches, then outline the hull edge for thickness.
Use the separate practice sheet before checking the answer.

# How to Draw Kayak — Free Practice Sheets

**REFERENCE / CASE 3**

kayak: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

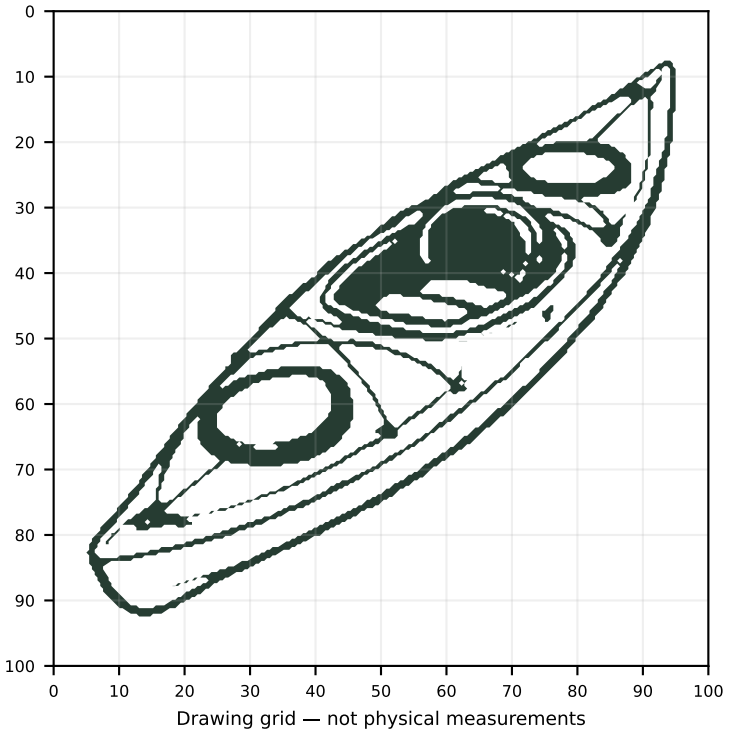

METHOD: Draw a long, narrow pointed oval outline for the hull, tapering to sharp points at both ends. Add the central cockpit opening as a rounded rectangular recess with an inner seat and backrest shape. Draw two circular hatch outlines on the deck, one near the bow and one near the stern. Add deck rigging lines (bungee cords) crossing the hull between the cockpit and hatches, then outline the hull edge for thickness.
Use the separate practice sheet before checking the answer.

# How to Draw Kayak — Free Practice Sheets

**REFERENCE / CASE 4**

kayak: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a long, narrow pointed oval outline for the hull, tapering to sharp points at both ends. Add the central cockpit opening as a rounded rectangular recess with an inner seat and backrest shape. Draw two circular hatch outlines on the deck, one near the bow and one near the stern. Add deck rigging lines (bungee cords) crossing the hull between the cockpit and hatches, then outline the hull edge for thickness.
Use the separate practice sheet before checking the answer.
