How to Draw Viking Boat — Free Practice Sheets

ANSWER / CASE 1

viking boat: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

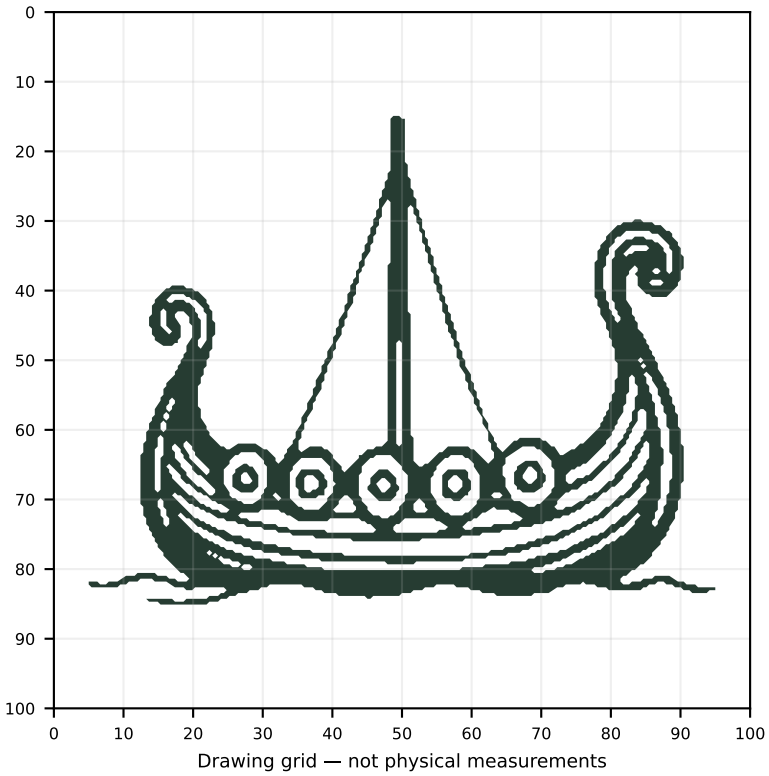

ANSWER: Example solution: preserve curved hull with layered planking lines, spiral-curled prow and stern posts, row of five circular oar ports along the hull side. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long shallow curved hull outline with several parallel curved lines inside to suggest planking.
2. Add a tall central mast and two diagonal rigging lines running down to the hull.
3. Draw five evenly spaced circles in a row along the upper hull for oar ports.
4. Add upward-curving spiral posts at both ends of the hull, then place a wavy water line under the boat.

How to Draw Viking Boat — Free Practice Sheets

ANSWER / CASE 2

viking boat: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

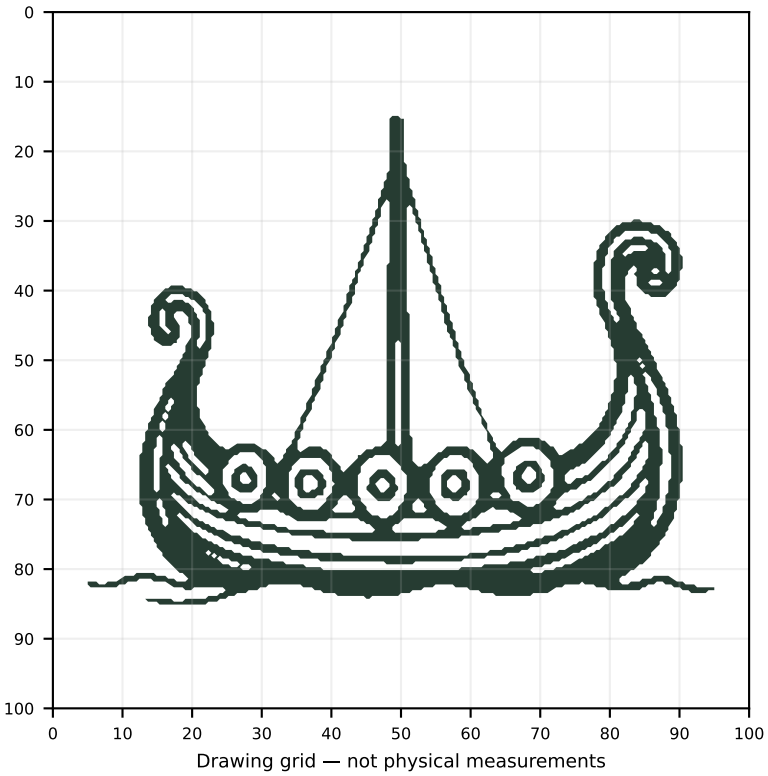

ANSWER: Example solution: preserve curved hull with layered planking lines, spiral-curled prow and stern posts, row of five circular oar ports along the hull side. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.

1. Draw a long shallow curved hull outline with several parallel curved lines inside to suggest planking.
2. Add a tall central mast and two diagonal rigging lines running down to the hull.
3. Draw five evenly spaced circles in a row along the upper hull for oar ports.
4. Add upward-curving spiral posts at both ends of the hull, then place a wavy water line under the boat.

ANSWER / CASE 3

viking boat: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

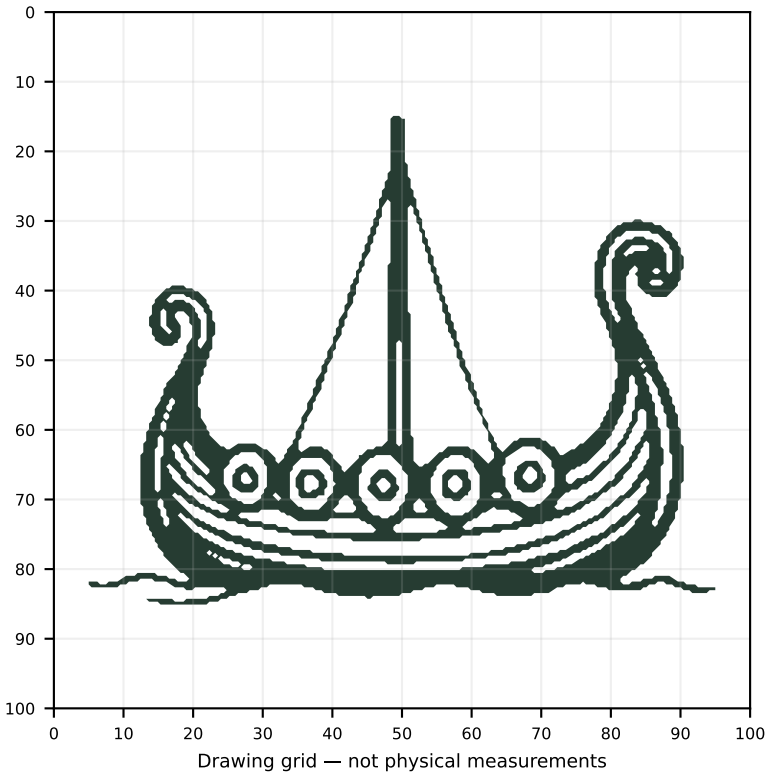

ANSWER: Example solution: preserve curved hull with layered planking lines, spiral-curled prow and stern posts, row of five circular oar ports along the hull side. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long shallow curved hull outline with several parallel curved lines inside to suggest planking.
2. Add a tall central mast and two diagonal rigging lines running down to the hull.
3. Draw five evenly spaced circles in a row along the upper hull for oar ports.
4. Add upward-curving spiral posts at both ends of the hull, then place a wavy water line under the boat.

How to Draw Viking Boat — Free Practice Sheets

ANSWER / CASE 4

viking boat: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve curved hull with layered planking lines, spiral-curled prow and stern posts, row of five circular oar ports along the hull side. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.

1. Draw a long shallow curved hull outline with several parallel curved lines inside to suggest planking.
2. Add a tall central mast and two diagonal rigging lines running down to the hull.
3. Draw five evenly spaced circles in a row along the upper hull for oar ports.
4. Add upward-curving spiral posts at both ends of the hull, then place a wavy water line under the boat.
