How to Draw Fishing Boat — Free Practice Sheets

ANSWER / CASE 1

fishing boat: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

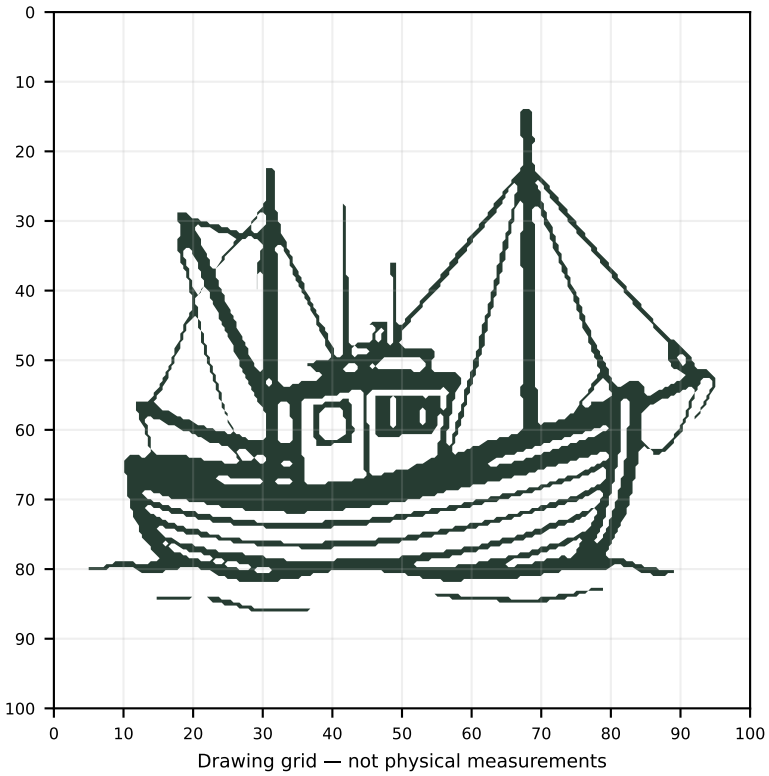

ANSWER: Example solution: preserve curved hull with horizontal planking lines, boxy cabin with rectangular windows, tall mast with rigging lines and boom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide curved hull outline with a flat top deck line and several parallel horizontal lines inside for planking.
2. Place a rectangular cabin on the deck slightly left of center, adding a small roof overhang and two rectangular windows.
3. Draw a tall vertical mast near the right side and a shorter angled mast/boom on the left, connecting them with straight rigging lines.
4. Add a small funnel or vent on the cabin roof and finish with simple wavy water lines beneath the hull.

ANSWER / CASE 2

fishing boat: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

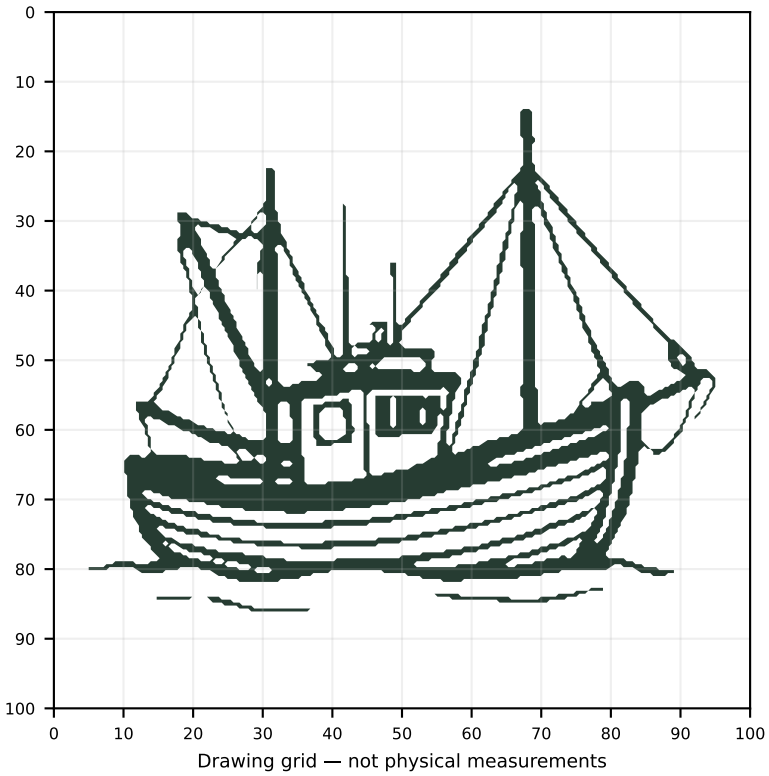

ANSWER: Example solution: preserve curved hull with horizontal planking lines, boxy cabin with rectangular windows, tall mast with rigging lines and boom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide curved hull outline with a flat top deck line and several parallel horizontal lines inside for planking.
2. Place a rectangular cabin on the deck slightly left of center, adding a small roof overhang and two rectangular windows.
3. Draw a tall vertical mast near the right side and a shorter angled mast/boom on the left, connecting them with straight rigging lines.
4. Add a small funnel or vent on the cabin roof and finish with simple wavy water lines beneath the hull.

ANSWER / CASE 3

fishing boat: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

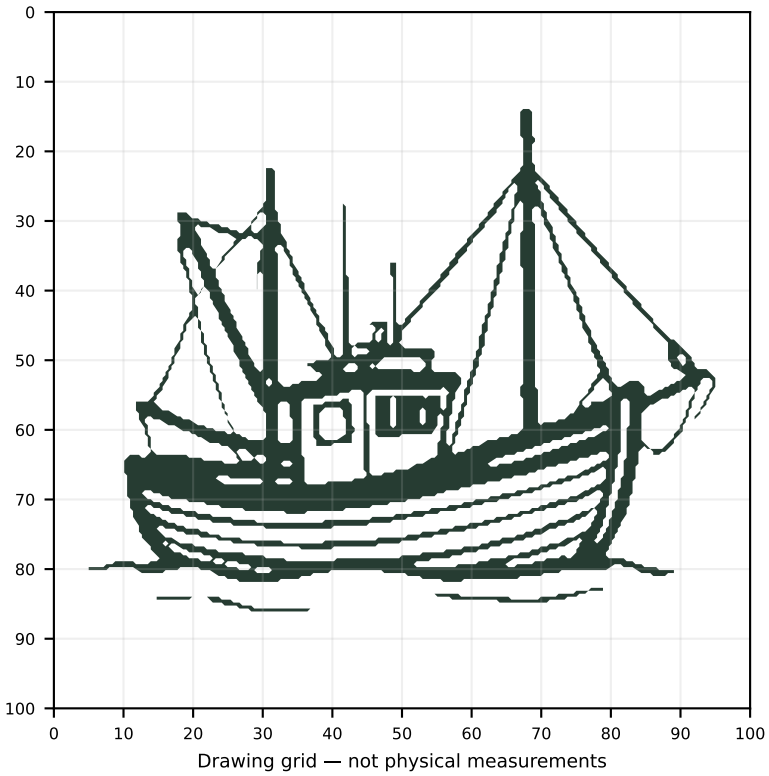

ANSWER: Example solution: preserve curved hull with horizontal planking lines, boxy cabin with rectangular windows, tall mast with rigging lines and boom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide curved hull outline with a flat top deck line and several parallel horizontal lines inside for planking.
2. Place a rectangular cabin on the deck slightly left of center, adding a small roof overhang and two rectangular windows.
3. Draw a tall vertical mast near the right side and a shorter angled mast/boom on the left, connecting them with straight rigging lines.
4. Add a small funnel or vent on the cabin roof and finish with simple wavy water lines beneath the hull.

How to Draw Fishing Boat — Free Practice Sheets

ANSWER / CASE 4

fishing boat: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve curved hull with horizontal planking lines, boxy cabin with rectangular windows, tall mast with rigging lines and boom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide curved hull outline with a flat top deck line and several parallel horizontal lines inside for planking.
2. Place a rectangular cabin on the deck slightly left of center, adding a small roof overhang and two rectangular windows.
3. Draw a tall vertical mast near the right side and a shorter angled mast/boom on the left, connecting them with straight rigging lines.
4. Add a small funnel or vent on the cabin roof and finish with simple wavy water lines beneath the hull.
