How to Draw Blimp — Free Practice Sheets

REFERENCE / CASE 1

blimp: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

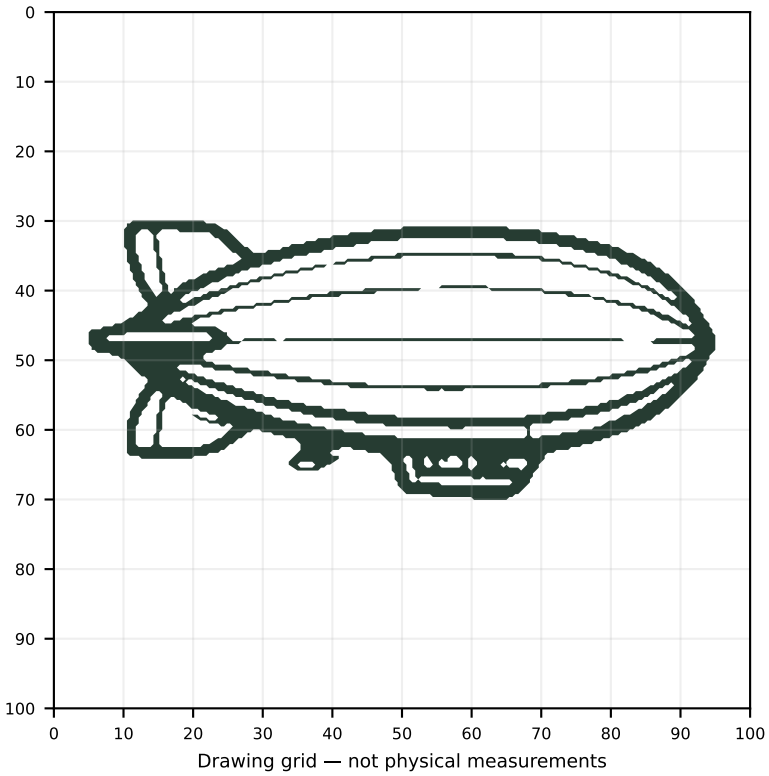

METHOD: Draw a large horizontal oval/cigar shape for the main envelope, tapering toward the rear. Add 2-3 curved longitudinal lines running from nose to tail to suggest the envelope's rounded volume. Attach a small rectangular gondola underneath the envelope near the front-middle, with simple window marks. Draw tail fins at the rear: an upper vertical fin and a lower vertical fin connected to the envelope tip.
Use the separate practice sheet before checking the answer.
