How to Draw Sleigh — Free Practice Sheets

ANSWER / CASE 1

sleigh: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

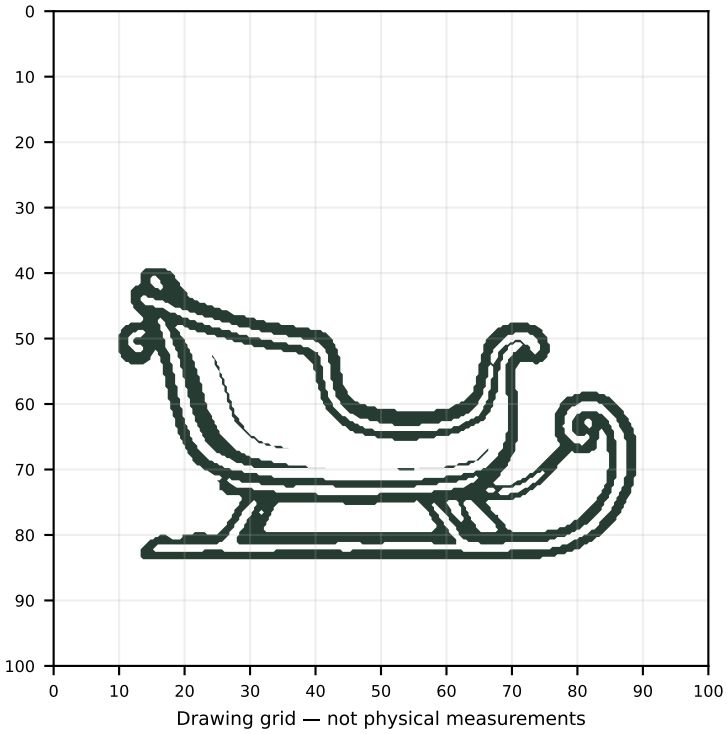

ANSWER: Example solution: preserve curved runner blade along the bottom, open seat body with a scooped interior, front curl at the tip of the runner. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long horizontal runner base with a slight upward curve at the front.
2. Add the front curl by looping the runner tip into a spiral.
3. Build the open seat body above the runner using a scooped U-shaped outline.
4. Add the rear backrest with a scroll curl and connect the body to the runner with short support struts.

How to Draw Sleigh — Free Practice Sheets

ANSWER / CASE 2

sleigh: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

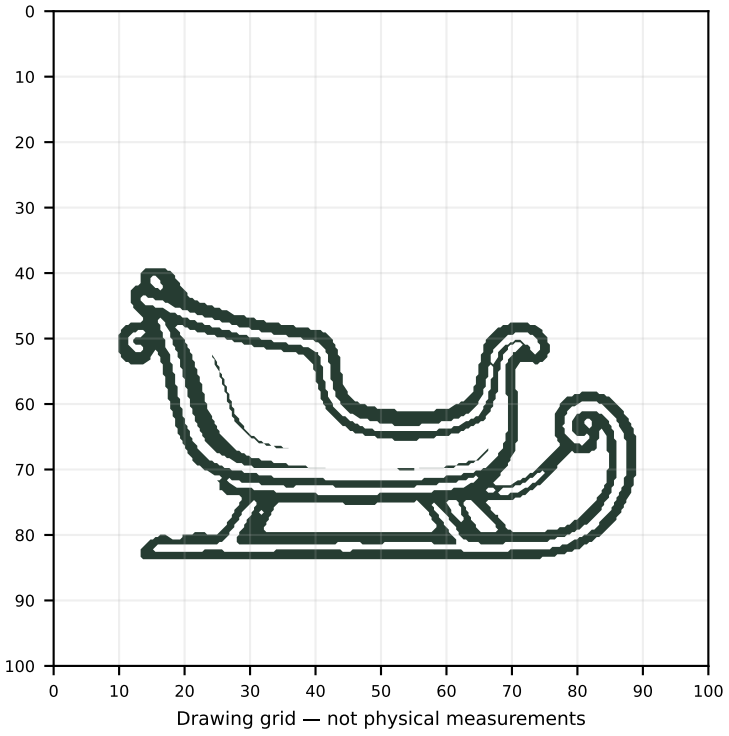

ANSWER: Example solution: preserve curved runner blade along the bottom, open seat body with a scooped interior, front curl at the tip of the runner. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long horizontal runner base with a slight upward curve at the front.
2. Add the front curl by looping the runner tip into a spiral.
3. Build the open seat body above the runner using a scooped U-shaped outline.
4. Add the rear backrest with a scroll curl and connect the body to the runner with short support struts.

How to Draw Sleigh — Free Practice Sheets

ANSWER / CASE 3

sleigh: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

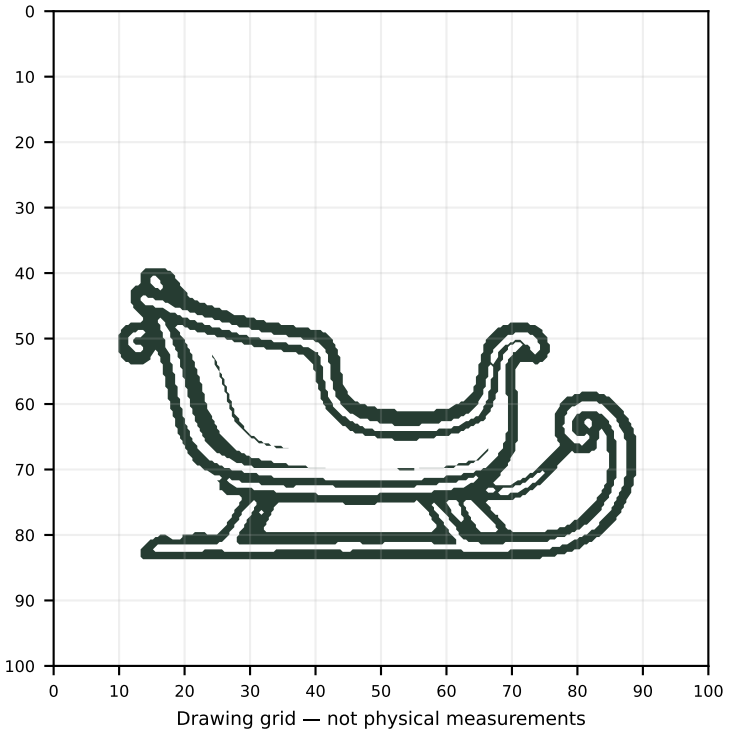

ANSWER: Example solution: preserve curved runner blade along the bottom, open seat body with a scooped interior, front curl at the tip of the runner. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long horizontal runner base with a slight upward curve at the front.
2. Add the front curl by looping the runner tip into a spiral.
3. Build the open seat body above the runner using a scooped U-shaped outline.
4. Add the rear backrest with a scroll curl and connect the body to the runner with short support struts.

How to Draw Sleigh — Free Practice Sheets

ANSWER / CASE 4

sleigh: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve curved runner blade along the bottom, open seat body with a scooped interior, front curl at the tip of the runner. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long horizontal runner base with a slight upward curve at the front.
2. Add the front curl by looping the runner tip into a spiral.
3. Build the open seat body above the runner using a scooped U-shaped outline.
4. Add the rear backrest with a scroll curl and connect the body to the runner with short support struts.
