How to Draw Scooter — Free Practice Sheets

REFERENCE / CASE 1

scooter: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

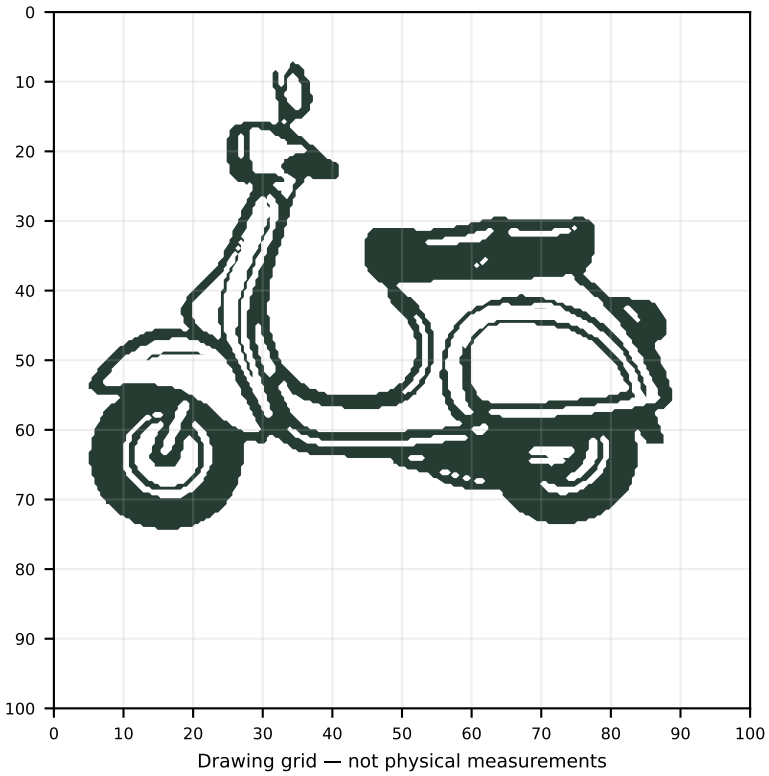

METHOD: Draw two small circles for the front and rear wheels, then add a low horizontal floorboard connecting them. From the front wheel, draw a curved vertical column upward and add the handlebar and small mirror at the top. Add the front leg-shield/fairing curve that flows down toward the floorboard. Draw the long seat above the rear wheel and enclose the rounded rear side panel beneath it.
Use the separate practice sheet before checking the answer.

How to Draw Scooter — Free Practice Sheets

REFERENCE / CASE 2

scooter: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

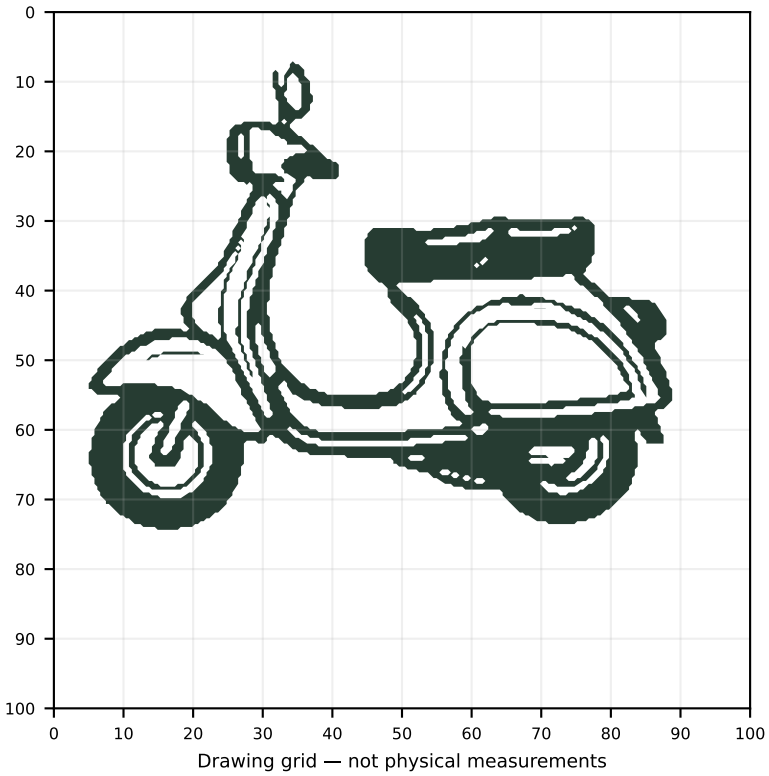

METHOD: Draw two small circles for the front and rear wheels, then add a low horizontal floorboard connecting them. From the front wheel, draw a curved vertical column upward and add the handlebar and small mirror at the top. Add the front leg-shield/fairing curve that flows down toward the floorboard. Draw the long seat above the rear wheel and enclose the rounded rear side panel beneath it.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

scooter: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

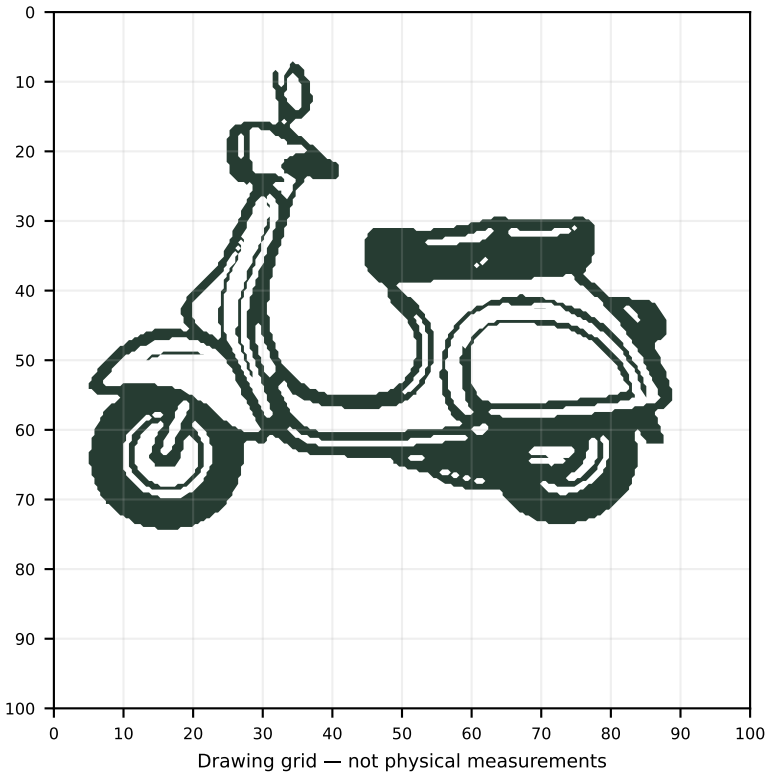

METHOD: Draw two small circles for the front and rear wheels, then add a low horizontal floorboard connecting them. From the front wheel, draw a curved vertical column upward and add the handlebar and small mirror at the top. Add the front leg-shield/fairing curve that flows down toward the floorboard. Draw the long seat above the rear wheel and enclose the rounded rear side panel beneath it.
Use the separate practice sheet before checking the answer.

How to Draw Scooter — Free Practice Sheets

REFERENCE / CASE 4

scooter: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw two small circles for the front and rear wheels, then add a low horizontal floorboard connecting them. From the front wheel, draw a curved vertical column upward and add the handlebar and small mirror at the top. Add the front leg-shield/fairing curve that flows down toward the floorboard. Draw the long seat above the rear wheel and enclose the rounded rear side panel beneath it.
Use the separate practice sheet before checking the answer.
