How to Draw Tow Truck — Free Practice Sheets

ANSWER / CASE 1

tow truck: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

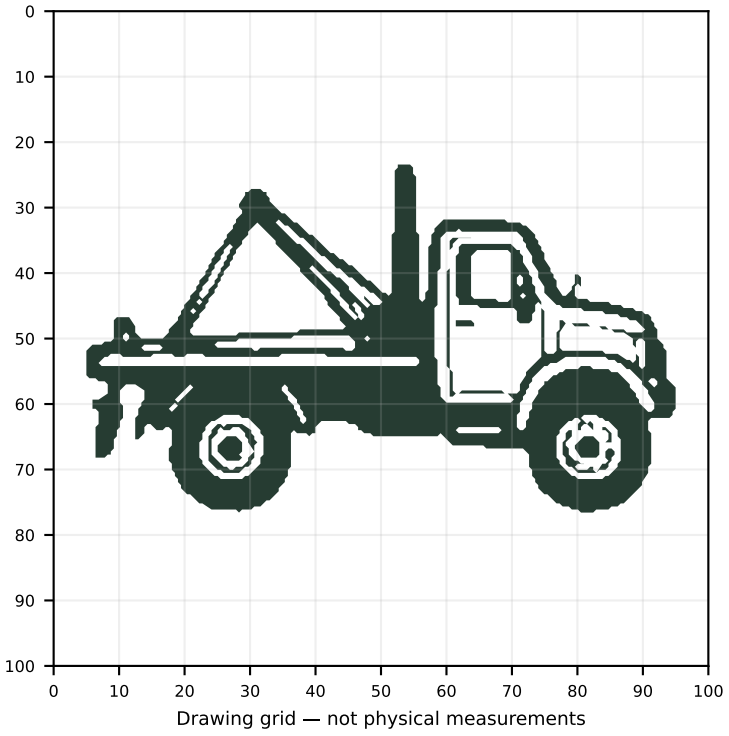

ANSWER: Example solution: preserve cab with boom arm, hook and cable, large rear wheels. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the cab outline with a slanted windshield and side window.
2. Add the flat bed and rear chassis extending behind the cab.
3. Draw the boom arm as a triangular A-frame rising from the bed.
4. Add the hook and cable hanging from the boom, then draw the large rear wheels and front wheel.

How to Draw Tow Truck — Free Practice Sheets

ANSWER / CASE 2

tow truck: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

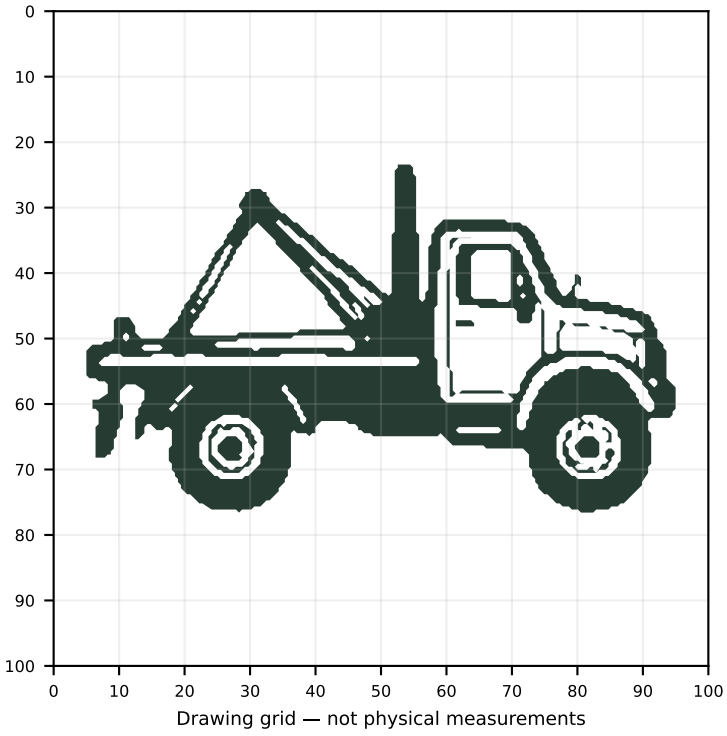

ANSWER: Example solution: preserve cab with boom arm, hook and cable, large rear wheels. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the cab outline with a slanted windshield and side window.
2. Add the flat bed and rear chassis extending behind the cab.
3. Draw the boom arm as a triangular A-frame rising from the bed.
4. Add the hook and cable hanging from the boom, then draw the large rear wheels and front wheel.

How to Draw Tow Truck — Free Practice Sheets

ANSWER / CASE 3

tow truck: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

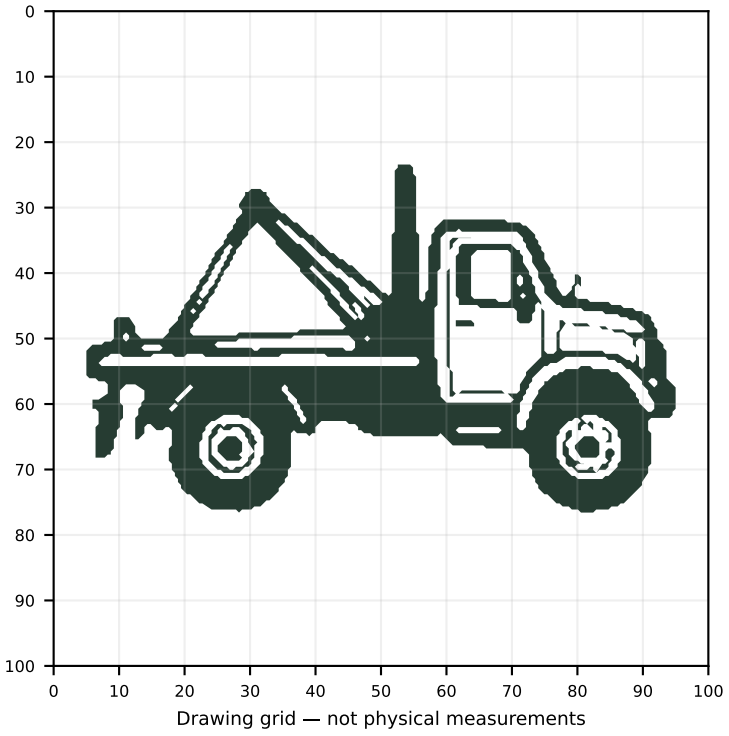

ANSWER: Example solution: preserve cab with boom arm, hook and cable, large rear wheels. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the cab outline with a slanted windshield and side window.
2. Add the flat bed and rear chassis extending behind the cab.
3. Draw the boom arm as a triangular A-frame rising from the bed.
4. Add the hook and cable hanging from the boom, then draw the large rear wheels and front wheel.

How to Draw Tow Truck — Free Practice Sheets

ANSWER / CASE 4

tow truck: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve cab with boom arm, hook and cable, large rear wheels. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the cab outline with a slanted windshield and side window.
2. Add the flat bed and rear chassis extending behind the cab.
3. Draw the boom arm as a triangular A-frame rising from the bed.
4. Add the hook and cable hanging from the boom, then draw the large rear wheels and front wheel.
