How to Draw Submarine — Free Practice Sheets

ANSWER / CASE 1

submarine: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

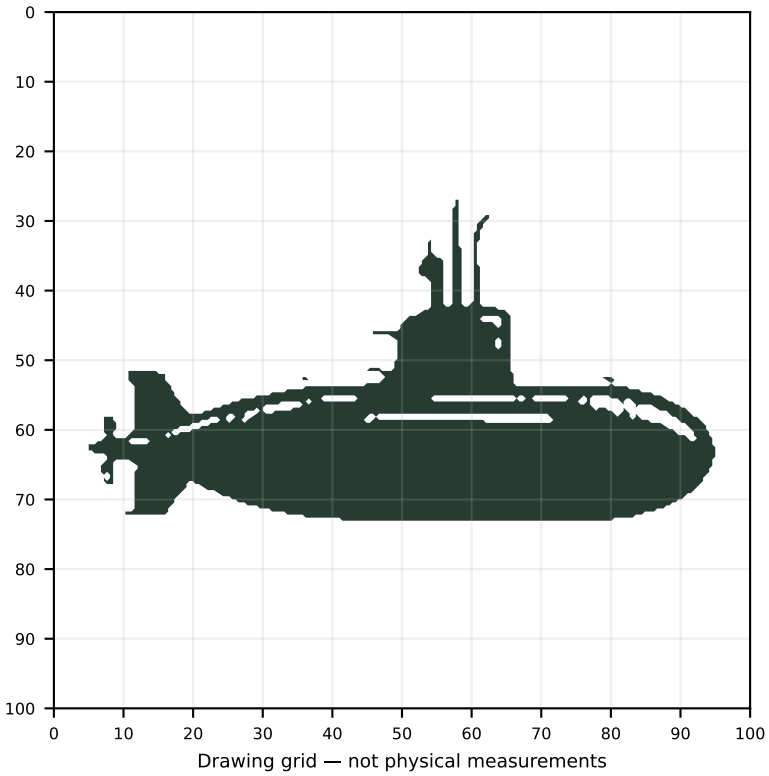

ANSWER: Example solution: preserve long cylindrical hull with rounded bow, conning tower (sail) on top with periscope/mast, propeller and tail fins at the stern. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long horizontal oval for the main hull, tapering slightly toward the stern.
2. Add a rounded rectangular conning tower on top of the hull, roughly one-third from the bow.
3. Draw two thin vertical masts/periscopes rising from the conning tower.
4. At the stern, add a small propeller hub with blades and vertical/horizontal tail fins.

How to Draw Submarine — Free Practice Sheets

ANSWER / CASE 2

submarine: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

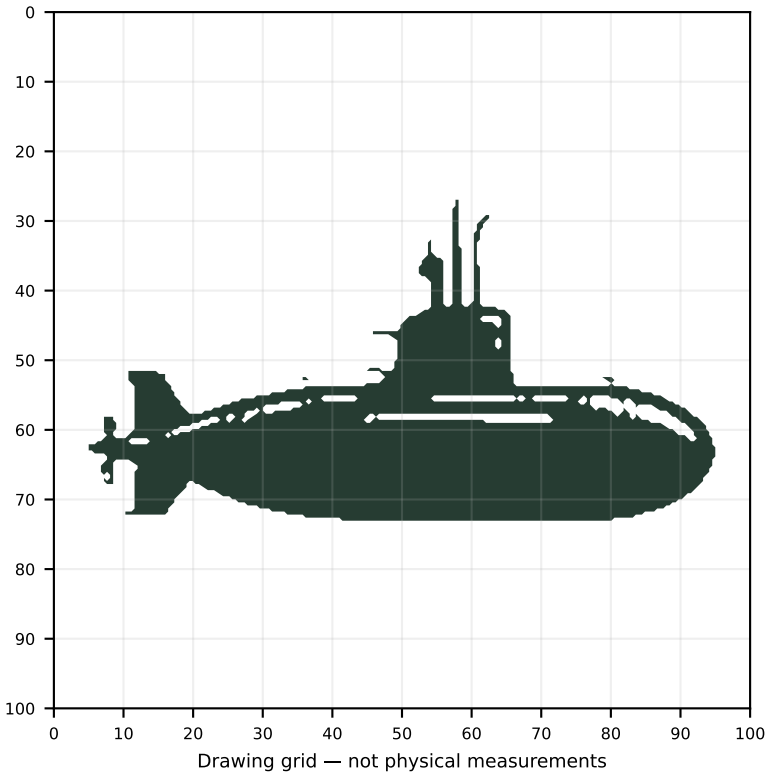

ANSWER: Example solution: preserve long cylindrical hull with rounded bow, conning tower (sail) on top with periscope/mast, propeller and tail fins at the stern. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long horizontal oval for the main hull, tapering slightly toward the stern.
2. Add a rounded rectangular conning tower on top of the hull, roughly one-third from the bow.
3. Draw two thin vertical masts/periscopes rising from the conning tower.
4. At the stern, add a small propeller hub with blades and vertical/horizontal tail fins.

How to Draw Submarine — Free Practice Sheets

ANSWER / CASE 3

submarine: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

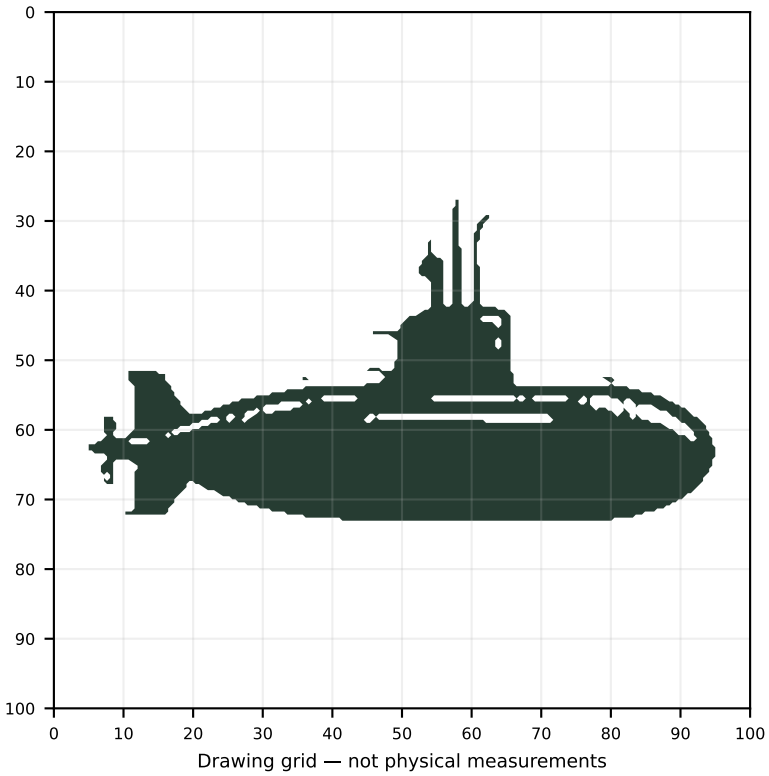

ANSWER: Example solution: preserve long cylindrical hull with rounded bow, conning tower (sail) on top with periscope/mast, propeller and tail fins at the stern. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long horizontal oval for the main hull, tapering slightly toward the stern.
2. Add a rounded rectangular conning tower on top of the hull, roughly one-third from the bow.
3. Draw two thin vertical masts/periscopes rising from the conning tower.
4. At the stern, add a small propeller hub with blades and vertical/horizontal tail fins.

How to Draw Submarine — Free Practice Sheets

ANSWER / CASE 4

submarine: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve long cylindrical hull with rounded bow, conning tower (sail) on top with periscope/mast, propeller and tail fins at the stern. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long horizontal oval for the main hull, tapering slightly toward the stern.
2. Add a rounded rectangular conning tower on top of the hull, roughly one-third from the bow.
3. Draw two thin vertical masts/periscopes rising from the conning tower.
4. At the stern, add a small propeller hub with blades and vertical/horizontal tail fins.
