How to Draw Four-Wheeler — Free Practice Sheets

REFERENCE / CASE 1

four-wheeler: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

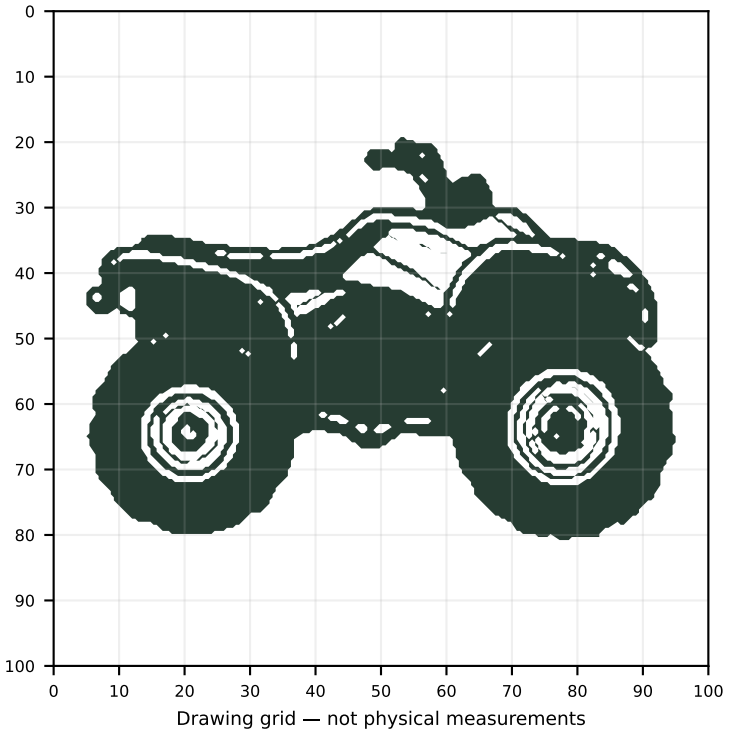

METHOD: Draw two large circular wheels with thick knobby outer edges and concentric inner rims. Connect the wheels with a low, compact body outline that arches over the rear wheel and narrows toward the front. Add the seat and central body panels as layered shapes between the wheels. Draw the handlebars as a small raised stem with grips above the front body area.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

four-wheeler: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

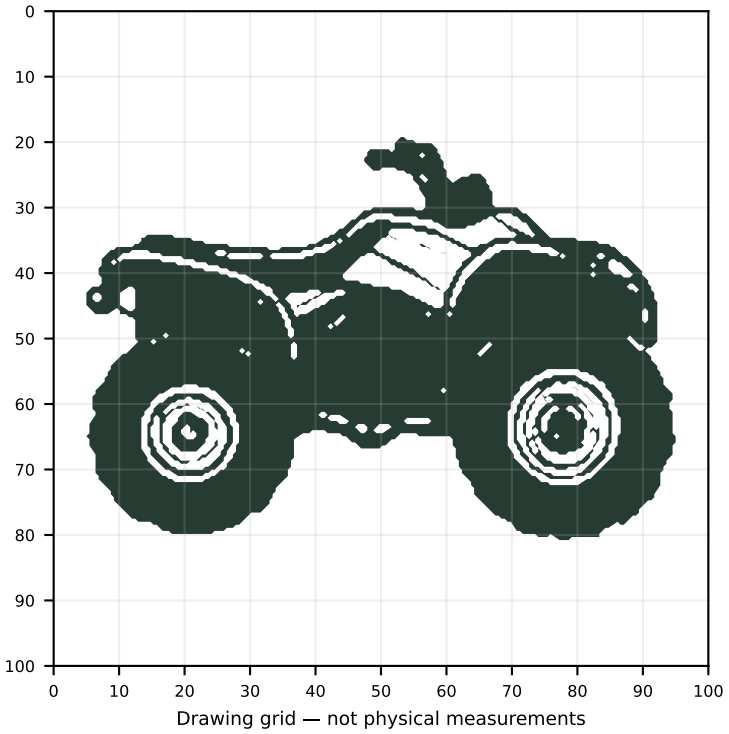

METHOD: Draw two large circular wheels with thick knobby outer edges and concentric inner rims. Connect the wheels with a low, compact body outline that arches over the rear wheel and narrows toward the front. Add the seat and central body panels as layered shapes between the wheels. Draw the handlebars as a small raised stem with grips above the front body area.
Use the separate practice sheet before checking the answer.

How to Draw Four-Wheeler — Free Practice Sheets

REFERENCE / CASE 4

four-wheeler: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw two large circular wheels with thick knobby outer edges and concentric inner rims. Connect the wheels with a low, compact body outline that arches over the rear wheel and narrows toward the front. Add the seat and central body panels as layered shapes between the wheels. Draw the handlebars as a small raised stem with grips above the front body area.
Use the separate practice sheet before checking the answer.
