How to Draw Bicycle — Free Practice Sheets

REFERENCE / CASE 1

bicycle: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

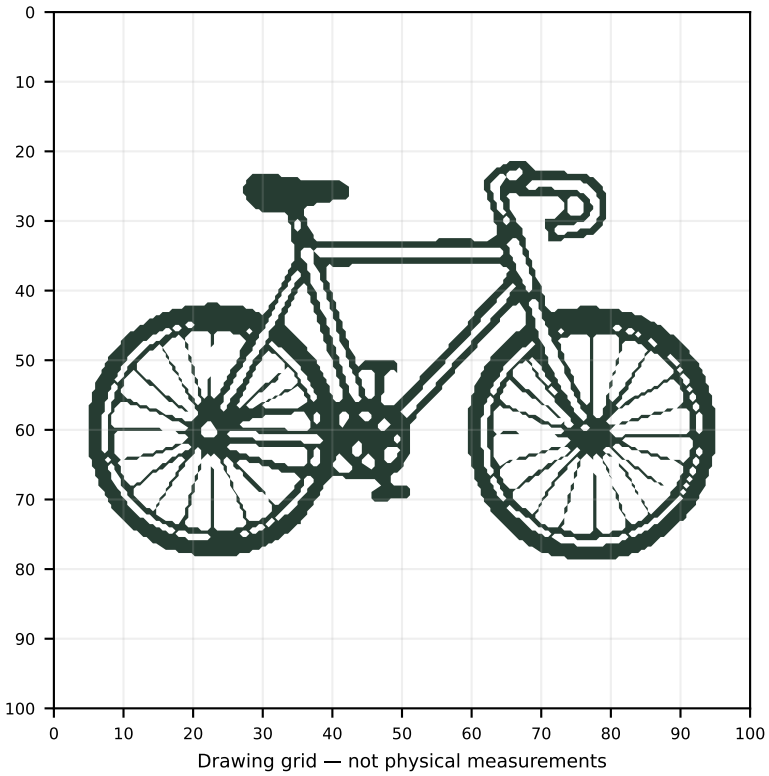

METHOD: Draw two equal circles for the front and rear wheels, then add radial spokes and a central hub to each. Connect the wheel hubs with a chainstay and seatstay to form the rear triangle, and draw the seat tube rising to the saddle. Add the top tube from the seat tube to the head tube, and the down tube from the bottom bracket to the head tube. Draw the fork from the head tube to the front hub, then add curved handlebars, a saddle, and the pedal/crank at the bottom bracket.
Use the separate practice sheet before checking the answer.

How to Draw Bicycle — Free Practice Sheets

REFERENCE / CASE 2

bicycle: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

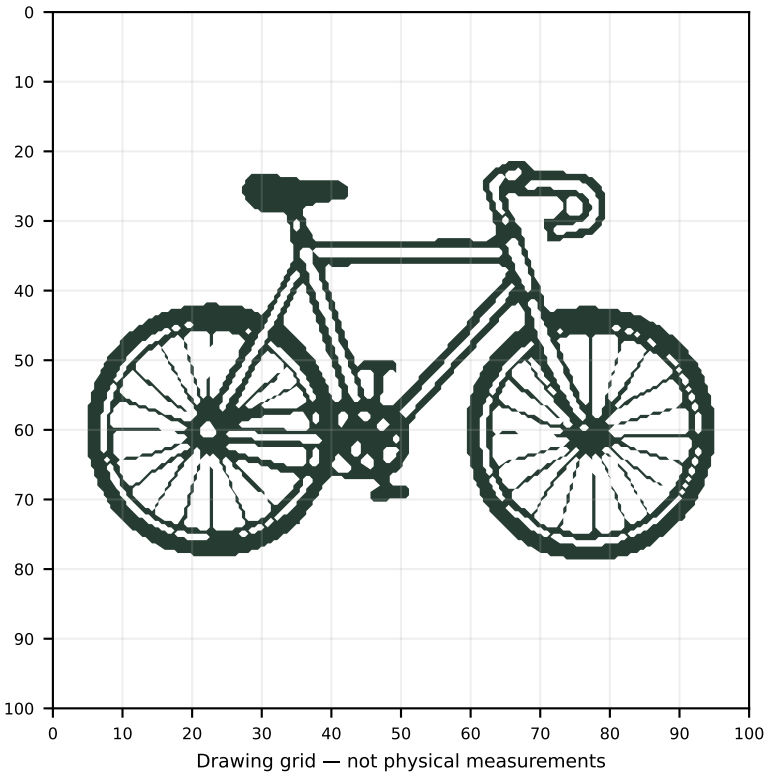

METHOD: Draw two equal circles for the front and rear wheels, then add radial spokes and a central hub to each. Connect the wheel hubs with a chainstay and seatstay to form the rear triangle, and draw the seat tube rising to the saddle. Add the top tube from the seat tube to the head tube, and the down tube from the bottom bracket to the head tube. Draw the fork from the head tube to the front hub, then add curved handlebars, a saddle, and the pedal/crank at the bottom bracket.
Use the separate practice sheet before checking the answer.

How to Draw Bicycle — Free Practice Sheets

REFERENCE / CASE 3

bicycle: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

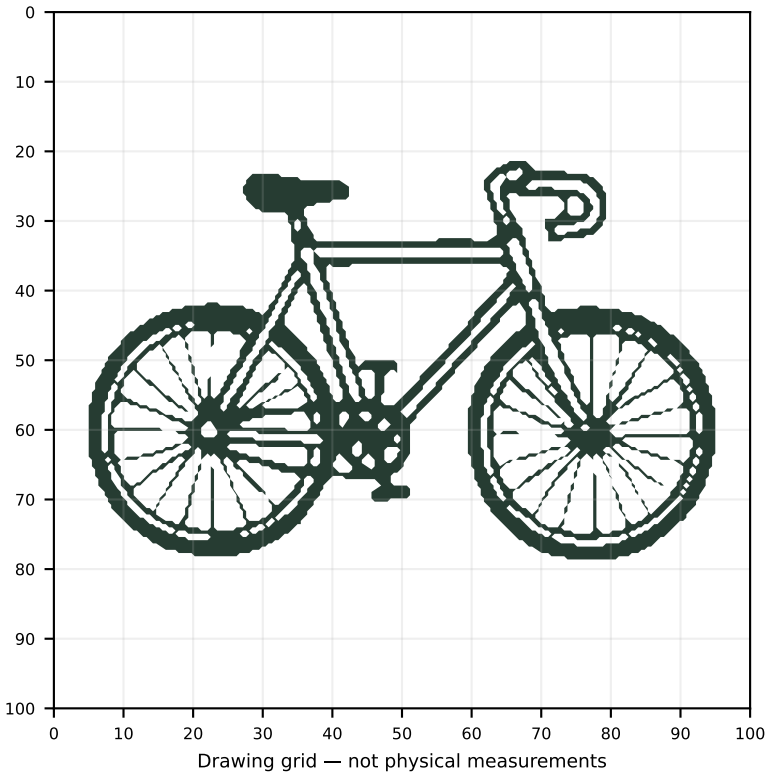

METHOD: Draw two equal circles for the front and rear wheels, then add radial spokes and a central hub to each. Connect the wheel hubs with a chainstay and seatstay to form the rear triangle, and draw the seat tube rising to the saddle. Add the top tube from the seat tube to the head tube, and the down tube from the bottom bracket to the head tube. Draw the fork from the head tube to the front hub, then add curved handlebars, a saddle, and the pedal/crank at the bottom bracket.
Use the separate practice sheet before checking the answer.

How to Draw Bicycle — Free Practice Sheets

REFERENCE / CASE 4

bicycle: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw two equal circles for the front and rear wheels, then add radial spokes and a central hub to each. Connect the wheel hubs with a chainstay and seatstay to form the rear triangle, and draw the seat tube rising to the saddle. Add the top tube from the seat tube to the head tube, and the down tube from the bottom bracket to the head tube. Draw the fork from the head tube to the front hub, then add curved handlebars, a saddle, and the pedal/crank at the bottom bracket.
Use the separate practice sheet before checking the answer.
