How to Draw Roller Coaster — Free Practice Sheets

REFERENCE / CASE 1

roller coaster: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

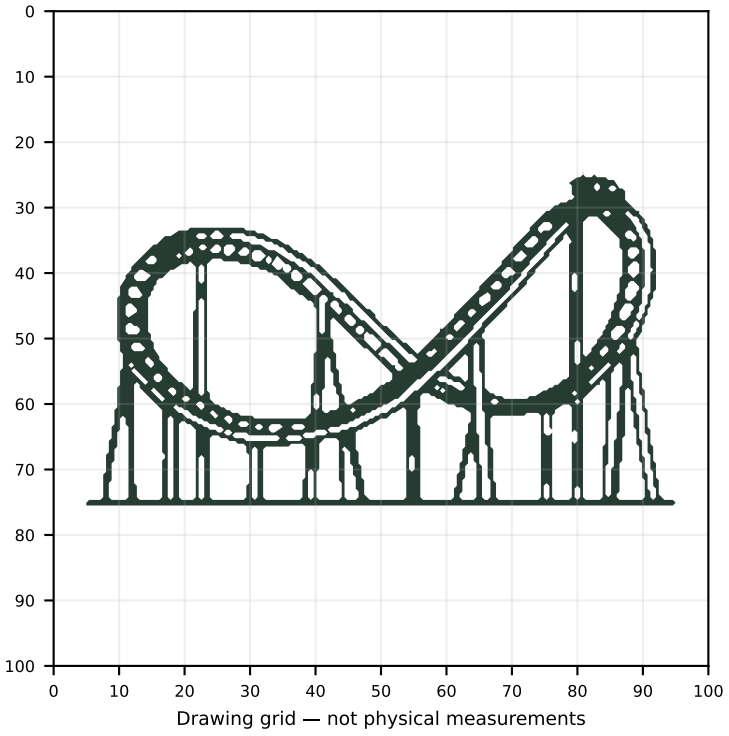

METHOD: Draw a long horizontal ground line. Sketch the track as a continuous curving path: a left loop that dips and rises into a right hill. Add vertical support pillars from the track down to the ground line. Place a small car shape at the crest of the right hill and add cross-tie marks along the track.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

roller coaster: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

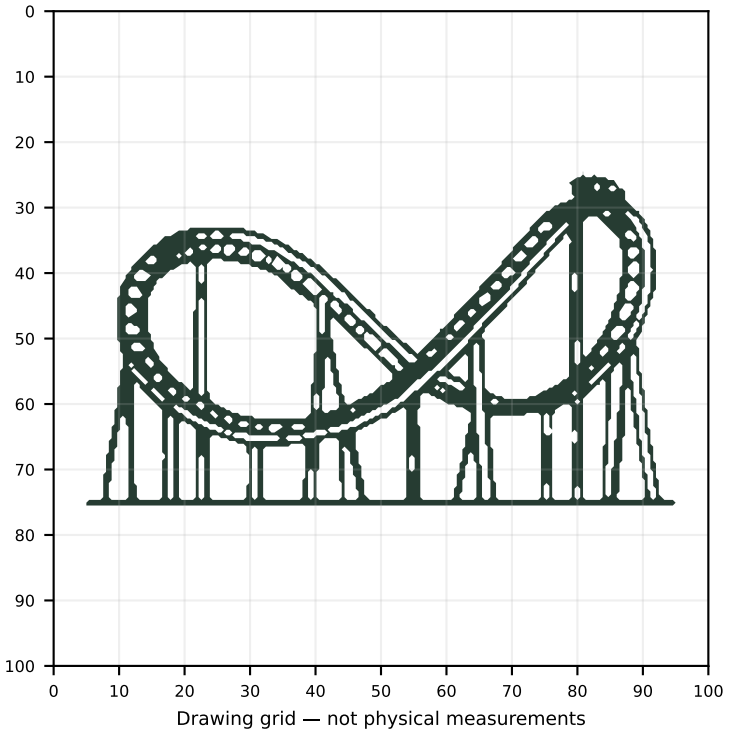

METHOD: Draw a long horizontal ground line. Sketch the track as a continuous curving path: a left loop that dips and rises into a right hill. Add vertical support pillars from the track down to the ground line. Place a small car shape at the crest of the right hill and add cross-tie marks along the track.
Use the separate practice sheet before checking the answer.

How to Draw Roller Coaster — Free Practice Sheets

REFERENCE / CASE 4

roller coaster: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a long horizontal ground line. Sketch the track as a continuous curving path: a left loop that dips and rises into a right hill. Add vertical support pillars from the track down to the ground line. Place a small car shape at the crest of the right hill and add cross-tie marks along the track.
Use the separate practice sheet before checking the answer.
