How to Draw Backhoe — Free Practice Sheets

REFERENCE / CASE 1

backhoe: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

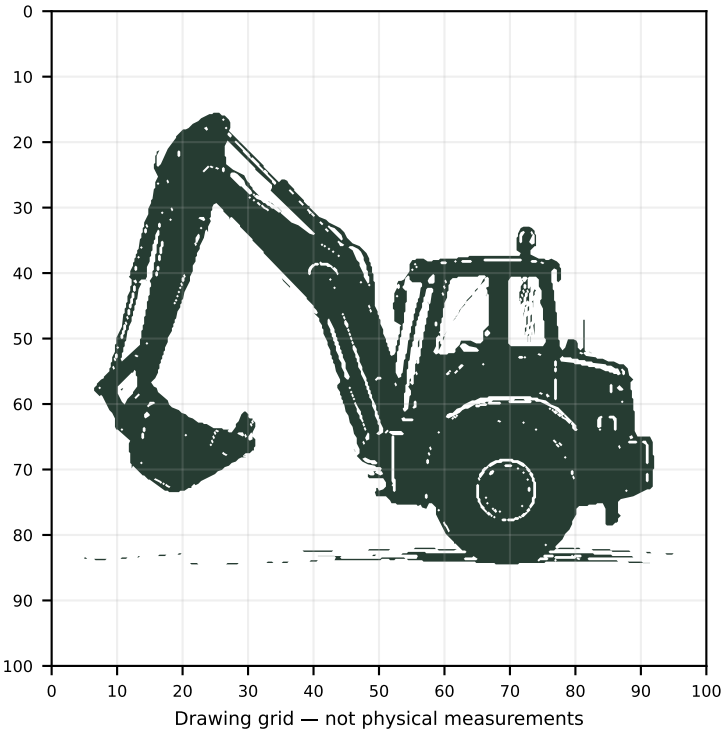

METHOD: Draw the large rear wheel as a circle with a smaller inner hub circle. Sketch the cab body above and slightly forward of the rear wheel, using a boxy outline with window divisions. Extend the articulated arm from the rear of the cab upward and forward, drawing two connected segments with hinge points. Attach the bucket shape at the end of the arm, then add the front stabilizer/loader arm and ground line.
Use the separate practice sheet before checking the answer.

How to Draw Backhoe — Free Practice Sheets

REFERENCE / CASE 2

backhoe: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

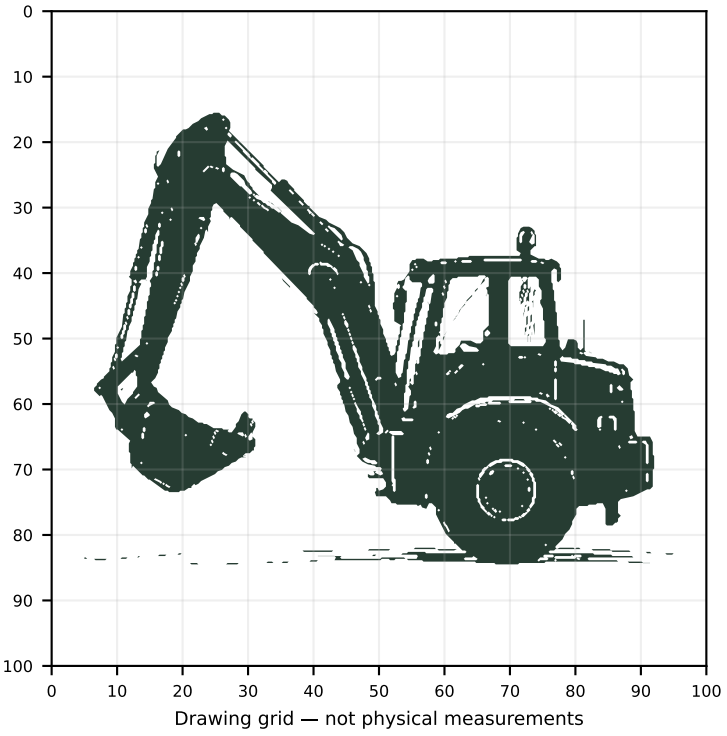

METHOD: Draw the large rear wheel as a circle with a smaller inner hub circle. Sketch the cab body above and slightly forward of the rear wheel, using a boxy outline with window divisions. Extend the articulated arm from the rear of the cab upward and forward, drawing two connected segments with hinge points. Attach the bucket shape at the end of the arm, then add the front stabilizer/loader arm and ground line.
Use the separate practice sheet before checking the answer.

How to Draw Backhoe — Free Practice Sheets

REFERENCE / CASE 3

backhoe: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

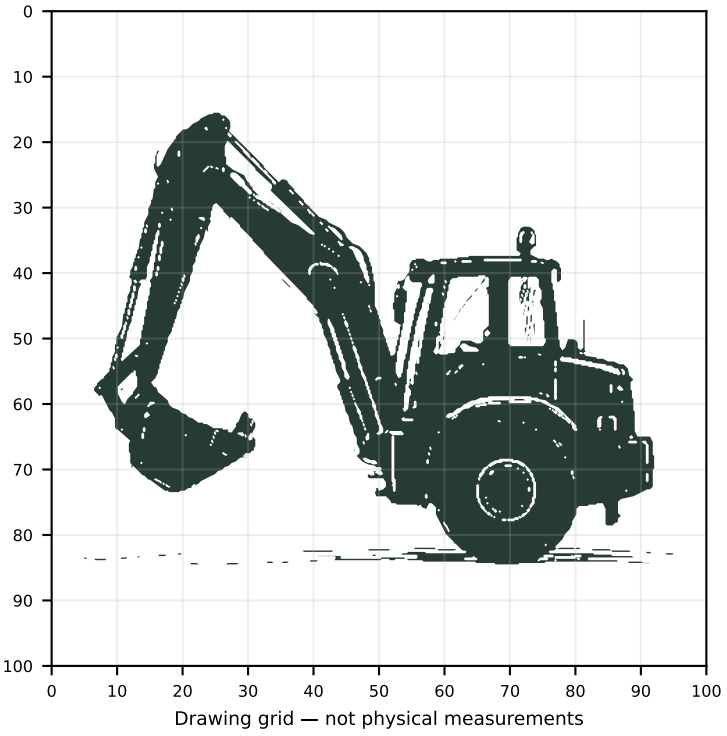

METHOD: Draw the large rear wheel as a circle with a smaller inner hub circle. Sketch the cab body above and slightly forward of the rear wheel, using a boxy outline with window divisions. Extend the articulated arm from the rear of the cab upward and forward, drawing two connected segments with hinge points. Attach the bucket shape at the end of the arm, then add the front stabilizer/loader arm and ground line.
Use the separate practice sheet before checking the answer.

How to Draw Backhoe — Free Practice Sheets

REFERENCE / CASE 4

backhoe: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw the large rear wheel as a circle with a smaller inner hub circle. Sketch the cab body above and slightly forward of the rear wheel, using a boxy outline with window divisions. Extend the articulated arm from the rear of the cab upward and forward, drawing two connected segments with hinge points. Attach the bucket shape at the end of the arm, then add the front stabilizer/loader arm and ground line.
Use the separate practice sheet before checking the answer.
