How to Draw Cargo Ship — Free Practice Sheets

REFERENCE / CASE 1

cargo ship: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

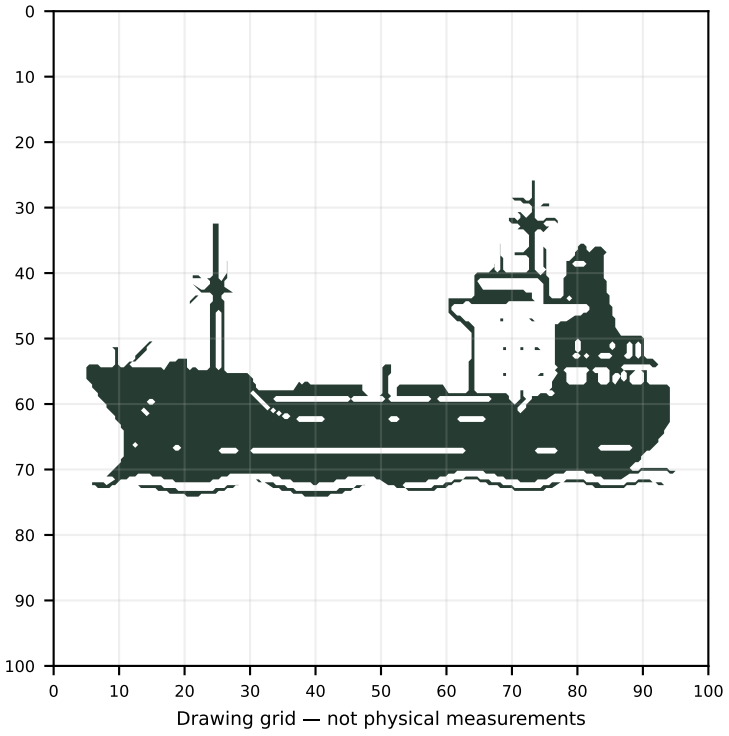

METHOD: Draw a long horizontal hull outline with a pointed bow on the left and a rounded stern on the right. Add a wavy water line under the hull and a small circular porthole near the bow. Place a row of low rectangular container blocks along the deck between bow and stern. Build the bridge tower near the stern as stacked rectangles, then add the mast, antenna, and funnel above it.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

cargo ship: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

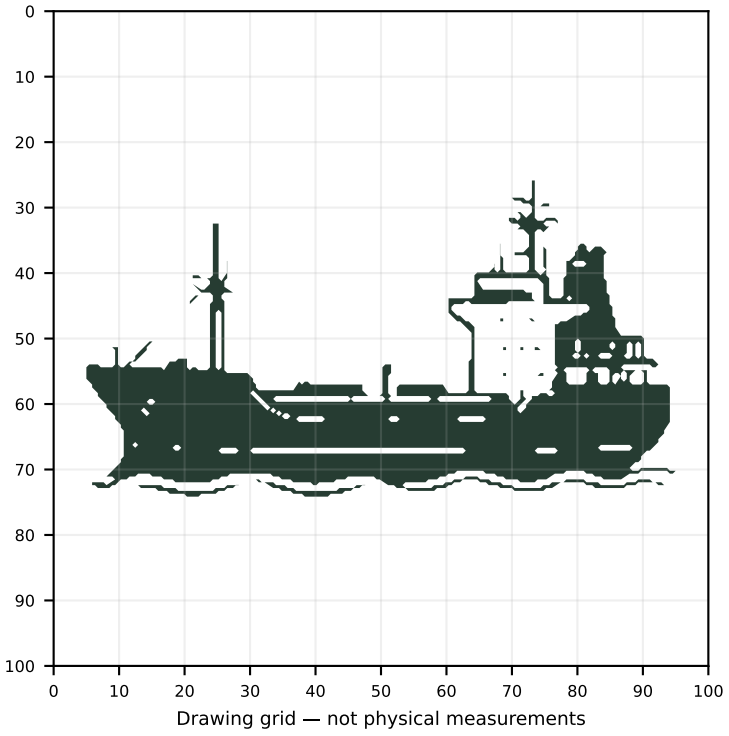

METHOD: Draw a long horizontal hull outline with a pointed bow on the left and a rounded stern on the right. Add a wavy water line under the hull and a small circular porthole near the bow. Place a row of low rectangular container blocks along the deck between bow and stern. Build the bridge tower near the stern as stacked rectangles, then add the mast, antenna, and funnel above it.
Use the separate practice sheet before checking the answer.

How to Draw Cargo Ship — Free Practice Sheets

REFERENCE / CASE 4

cargo ship: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a long horizontal hull outline with a pointed bow on the left and a rounded stern on the right. Add a wavy water line under the hull and a small circular porthole near the bow. Place a row of low rectangular container blocks along the deck between bow and stern. Build the bridge tower near the stern as stacked rectangles, then add the mast, antenna, and funnel above it.
Use the separate practice sheet before checking the answer.
