How to Draw Train — Free Practice Sheets

REFERENCE / CASE 1

train: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

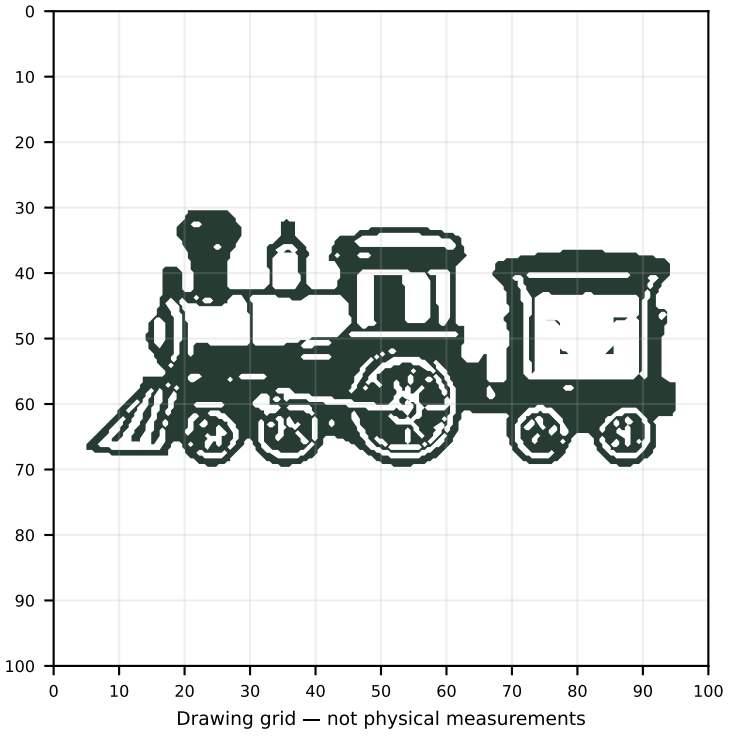

METHOD: Draw the horizontal boiler body and cab as connected rounded rectangles. Add the front cowcatcher triangle, smokestack, and dome on top of the boiler. Place the large driving wheel under the boiler and smaller wheels under the cab and tender. Connect the tender car behind the cab and add the side rod linking the wheels.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

train: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

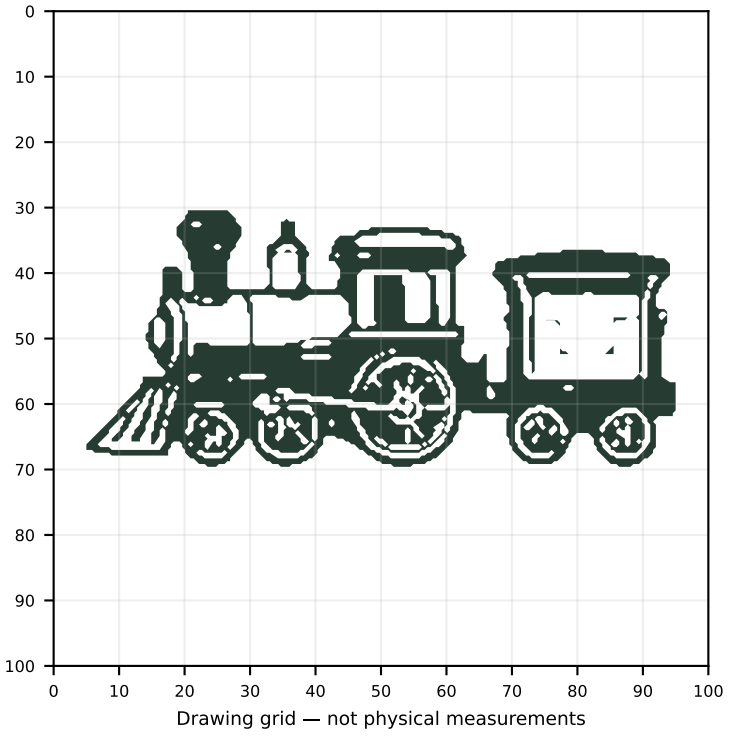

METHOD: Draw the horizontal boiler body and cab as connected rounded rectangles. Add the front cowcatcher triangle, smokestack, and dome on top of the boiler. Place the large driving wheel under the boiler and smaller wheels under the cab and tender. Connect the tender car behind the cab and add the side rod linking the wheels.
Use the separate practice sheet before checking the answer.

How to Draw Train — Free Practice Sheets

REFERENCE / CASE 3

train: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

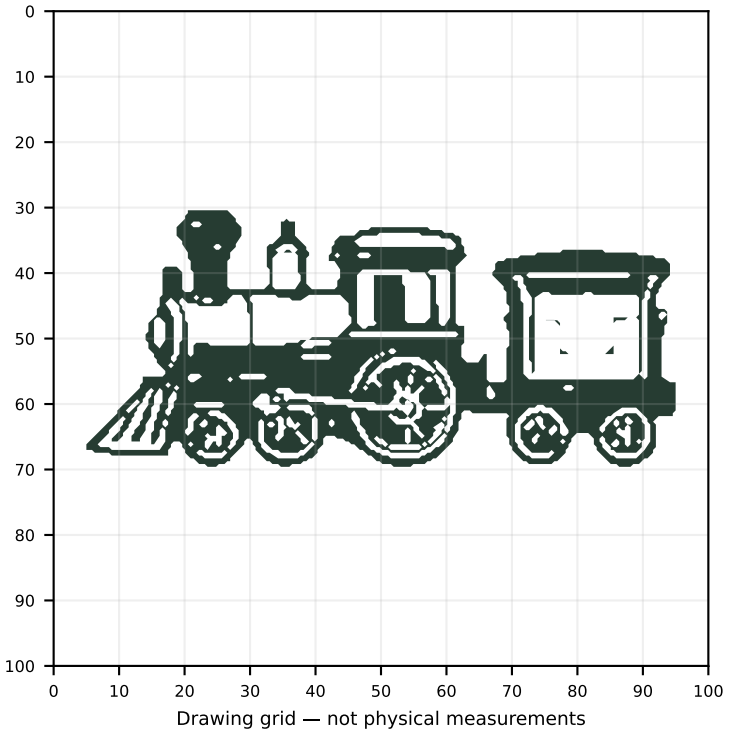

METHOD: Draw the horizontal boiler body and cab as connected rounded rectangles. Add the front cowcatcher triangle, smokestack, and dome on top of the boiler. Place the large driving wheel under the boiler and smaller wheels under the cab and tender. Connect the tender car behind the cab and add the side rod linking the wheels.
Use the separate practice sheet before checking the answer.

How to Draw Train — Free Practice Sheets

REFERENCE / CASE 4

train: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw the horizontal boiler body and cab as connected rounded rectangles. Add the front cowcatcher triangle, smokestack, and dome on top of the boiler. Place the large driving wheel under the boiler and smaller wheels under the cab and tender. Connect the tender car behind the cab and add the side rod linking the wheels.
Use the separate practice sheet before checking the answer.
