How to Draw Rocket — Free Practice Sheets

REFERENCE / CASE 1

rocket: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

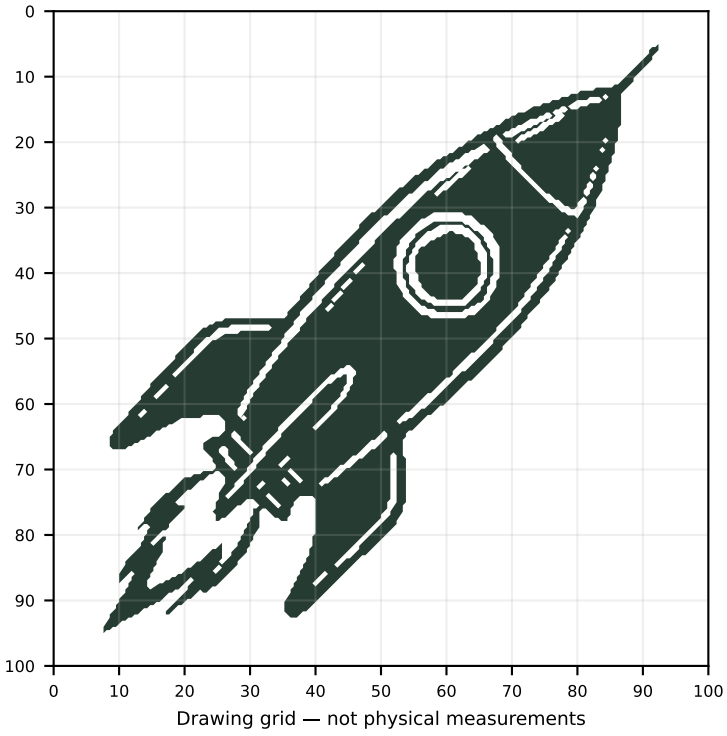

METHOD: Draw the main body as a long, slightly tapered oval/cylinder tilted diagonally. Add the pointed nose cone at the top with a curved dividing line across the body. Draw the circular porthole on the upper-middle section of the body. Attach the fins: two swept-back side fins and one lower central fin near the base.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

rocket: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

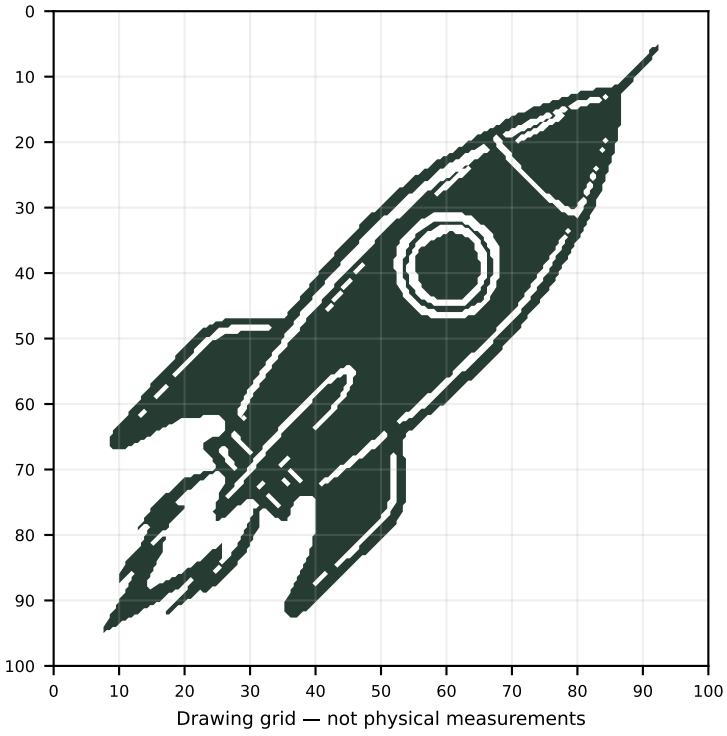

METHOD: Draw the main body as a long, slightly tapered oval/cylinder tilted diagonally. Add the pointed nose cone at the top with a curved dividing line across the body. Draw the circular porthole on the upper-middle section of the body. Attach the fins: two swept-back side fins and one lower central fin near the base.
Use the separate practice sheet before checking the answer.

How to Draw Rocket — Free Practice Sheets

REFERENCE / CASE 3

rocket: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

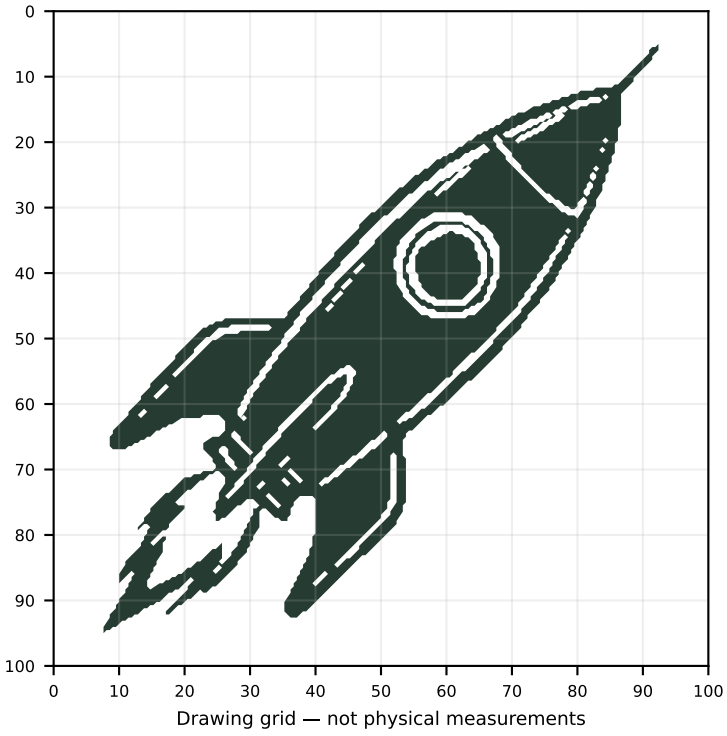

METHOD: Draw the main body as a long, slightly tapered oval/cylinder tilted diagonally. Add the pointed nose cone at the top with a curved dividing line across the body. Draw the circular porthole on the upper-middle section of the body. Attach the fins: two swept-back side fins and one lower central fin near the base.
Use the separate practice sheet before checking the answer.

How to Draw Rocket — Free Practice Sheets

REFERENCE / CASE 4

rocket: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw the main body as a long, slightly tapered oval/cylinder tilted diagonally. Add the pointed nose cone at the top with a curved dividing line across the body. Draw the circular porthole on the upper-middle section of the body. Attach the fins: two swept-back side fins and one lower central fin near the base.
Use the separate practice sheet before checking the answer.
