How to Draw Race Car — Free Practice Sheets

ANSWER / CASE 1

race car: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

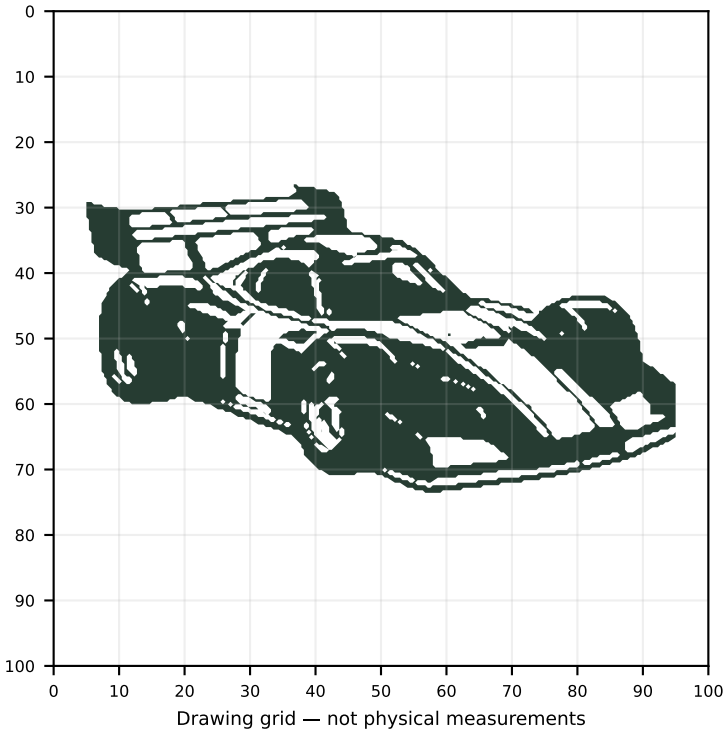

ANSWER: Example solution: preserve low streamlined body with a long sloping nose, large rear spoiler mounted on struts, exposed wheels with visible rims. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the low, elongated body outline starting from the pointed front nose and sweeping back to the rear deck.
2. Add the cockpit canopy as a rounded dome on top of the body, then sketch the side window and door line.
3. Attach the rear spoiler by drawing two vertical struts at the back and connecting them with a wide horizontal wing.
4. Place the four exposed wheels at the corners, drawing circular tires with inner rim details, then add the front splitter and side skirt lines.

How to Draw Race Car — Free Practice Sheets

ANSWER / CASE 2

race car: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

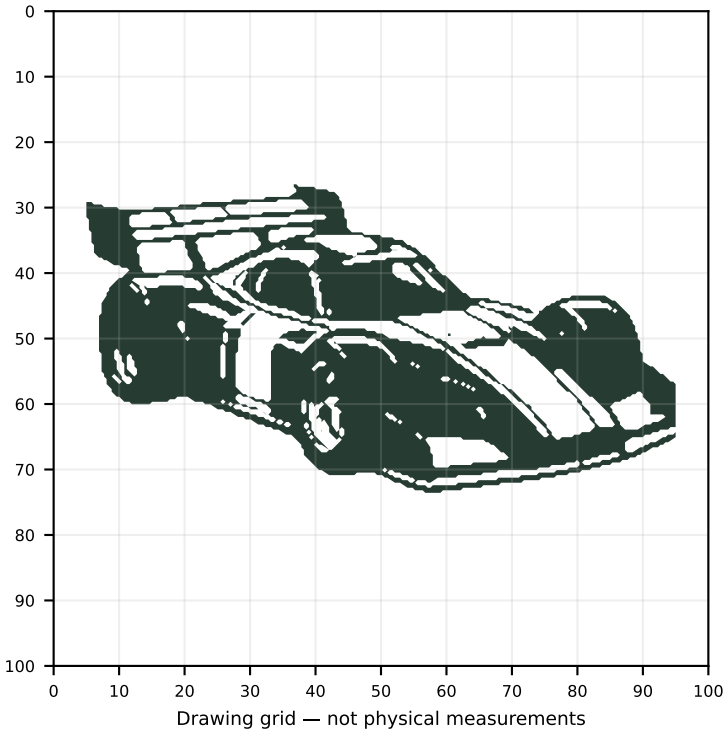

ANSWER: Example solution: preserve low streamlined body with a long sloping nose, large rear spoiler mounted on struts, exposed wheels with visible rims. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the low, elongated body outline starting from the pointed front nose and sweeping back to the rear deck.
2. Add the cockpit canopy as a rounded dome on top of the body, then sketch the side window and door line.
3. Attach the rear spoiler by drawing two vertical struts at the back and connecting them with a wide horizontal wing.
4. Place the four exposed wheels at the corners, drawing circular tires with inner rim details, then add the front splitter and side skirt lines.

ANSWER / CASE 3

race car: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

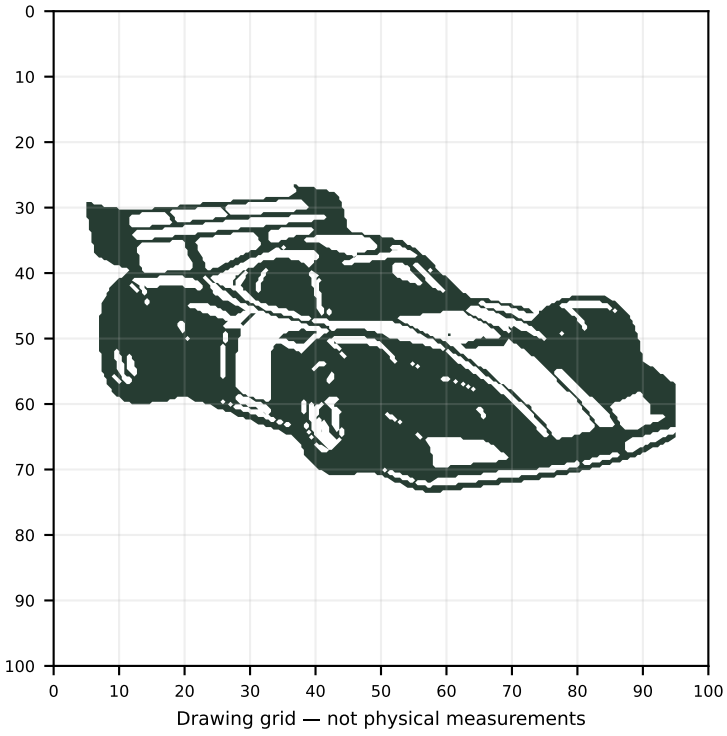

ANSWER: Example solution: preserve low streamlined body with a long sloping nose, large rear spoiler mounted on struts, exposed wheels with visible rims. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the low, elongated body outline starting from the pointed front nose and sweeping back to the rear deck.
2. Add the cockpit canopy as a rounded dome on top of the body, then sketch the side window and door line.
3. Attach the rear spoiler by drawing two vertical struts at the back and connecting them with a wide horizontal wing.
4. Place the four exposed wheels at the corners, drawing circular tires with inner rim details, then add the front splitter and side skirt lines.

How to Draw Race Car — Free Practice Sheets

ANSWER / CASE 4

race car: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve low streamlined body with a long sloping nose, large rear spoiler mounted on struts, exposed wheels with visible rims. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the low, elongated body outline starting from the pointed front nose and sweeping back to the rear deck.
2. Add the cockpit canopy as a rounded dome on top of the body, then sketch the side window and door line.
3. Attach the rear spoiler by drawing two vertical struts at the back and connecting them with a wide horizontal wing.
4. Place the four exposed wheels at the corners, drawing circular tires with inner rim details, then add the front splitter and side skirt lines.
