Printable ruler: 150 mm

Metric millimetres above; inches in sixteenths below. Cut outside the border.

Top numbers: centimetres (10 mm). Bottom numbers: inches (16 smallest divisions).

Measure from the zero tick, not the edge of the paper or the cut border.

The preview is resized for your screen. The PDF and SVG define real physical dimensions.

If the calibration bar is not 100 mm after printing, correct printer scaling before use.

Print at Actual size / 100%. Check the 100 mm bar before measuring.
